Love Poetry Across The Centuries:

Political Poetry across the Centuries Hans-Christian Günther, 2016-06-15 The volume dedicates itself to the rather neglected field of political poetry and offers a broad perspective across the centuries from Plato until the post war period The first part describes the social function of poetry in Plato his reception in Heidegger and in Ezra Pound s poetry A contribution on Milton complements this with a great poet s reflection on central political questions The second part pre 20th century is rounded off by two rulers from the edges of Europe or Asia who left their mark both on history and on the literary history of their country the Georgian king Teimuraz I and the Persian ruler Shah Ismail This theme is continued in the last contribution dedicated to an outstanding combination of political and poetic talent from recent history Mao Zedong Two other contributions refer to the epoch of WWI Europe s big cultural caesura and they dedicate themselves to two eminently influential figures Stefan George and Vladimir Mayakowsky

Contested Borders William J. Spurlin, 2022-06-06 *Contested Borders* broadens understandings of dissident sexualities in Africa through examining new representations of same sex desire emerging in recent francophone autofictional writing from the Maghreb where long established traditions pertaining to gender and sexuality are brought into contact with new forms of gender and sexual dissidence resulting from the inflection of globally circulating discourses and embodiments of queerness in North Africa and from the experience of emigration and settlement by the writers concerned in France The book analyses specifically how Franco Maghrebi writers Rachid O Abdellah Taïeb Eyadéma Chikab Djaziri and Nina Bouraoui foreground translation and narrative reflexivity around incommensurable spaces of queerness in order to index their crossings and negotiations of multiple languages histories and cultures By writing in French Spurlin demonstrates that the writers are not merely mimicking the language of their former coloniser but inflecting a European language with discursive turns of phrase indigenous to North Africa thus creating new possibilities of meaning and expression to name their lived experiences of gender and sexual alterity a form of queer translational praxis that destabilises received gender sexual categories both within the Maghreb and in Europe

The Christian Century, 1915 *Poets, Patronage, and Print in Sixteenth-Century Portugal* Simon Park, 2021-06-24 Portugal was not always the best place for poets in the sixteenth century Against the backdrop of an expanding empire the country's annexation by Spain in 1580 and ongoing religious controversy poets struggled to articulate their worth to rulers and patrons This did not prevent them however from persisting in their craft Indeed many of their works reflected precisely on the question of what poetry could do and what ultimately its value was The answers that poets like Luís de Camões Francisco de Sá de Miranda António Ferreira and Diogo Bernardes offered to these questions and which are explored in this book ranged from lofty ideals to the more practical concerns of making ends meet when one depended on the whims of the powerful This volume articulates a pragmatics of poetry that combines literary analysis and book history with methods from sociology network analysis sociology of professions valuation studies to explore how poets thought about themselves and negotiated the value of their verse in the court with patrons or in the marketplace for books It reveals how poets compared their work to that of lawyers and doctors

and tried to set themselves apart as a special group of professionals It shows how they threatened their patrons as well as flattered them and tried to turn their poetry from a gift into something like a commodity or service that had to be paid for While poets set out to write in the most ambitious genres and to better their European rivals they sometimes refused to spend months composing an epic without the prospect of reward Their books of verse when printed were framed as linguistic propaganda as well as objects of material and aesthetic worth at a time when many said that non devotional poetry was a sinful waste of time This is a book about the various ways in which poets metaphorically and more literally tried to turn poetry and the paper it was written on into gold
