Desire Anna Clark, 2012-11-12. The rich range of historical information that Clark weaves into her chapters makes this ambitious overview of sex in Europe a highly accessible and successful endeavour. Times Higher Education Supplement. Provides a valuable overview of the history of sexuality in Europe since classical antiquity, synthesising as it does a mass of studies of specific regions and periods which have appeared during the last two decades. Lesley Hall, Wellcome Library, UK. Desire: A History of European Sexuality is a sweeping survey of sexuality in Europe from the Greeks to the present day. It traces two concepts of sexual desire that have competed in European history: desire as dangerous, polluting and disorderly, and desire as creative, transcendent, even revolutionary. This book follows these changing attitudes toward sexuality through the major turning points of European history. Written in a lively and engaging style, the book contains many fascinating anecdotes, drawing on a rich array of sources including poetry, novels, pornography, and film, as well as court records, autobiographies, and personal letters. While Anna Clark builds on the work of dozens of historians, she also takes a fresh approach and introduces the concepts of twilight moments and sexual economies. Desire integrates the history of heterosexuality with same-sex desire and focuses on the emotions of love, as well as the passions of lust, the politics of sex, as well as the personal experiences.

The Making and Meaning of a Medieval Manuscript Thomas C. Sawyer, 2025-06-03. Develops a method for placing book historical evidence in dialogue with literary meaning through a detailed investigation of a MS Bodley 851. How do you read a medieval book? And what is the relationship between the study of manuscripts as material artifacts and the study of their textual contents? This book develops a method for placing book historical evidence in dialogue with literary meaning. Medieval manuscripts do not simply witness the texts they contain; through the process of their making, they preserve and generate knowledge about literature itself. Central to the expression of method in this study is a detailed investigation of an immensely complex composite manuscript: Oxford Bodleian Library MS Bodley 851. This manuscript survives as an important representative of textual cultures popular in late medieval England; it attests the work of at least eight scribal agents and contains an infamous scribal version of *Piers Plowman*, Z-text, the sole surviving copy of Walter Map's *De nugis curialium*, and an array of satirical Anglo-Latin poetry, including the *Apocalypsis goliae episcopi*, the *Speculum stultorum*, and the *Bridlington Prophecy*. Close attention to the production of Bodley 851 underpins critical examinations of fragmentary misogamy, the construction of literary sequences, and the extent of pseudonymous authorship in the manuscript record.
