Arvor's School Days Jonathan Ferrier, 2013-11-15 Arvor is a dragon He is actually a very nice dragon who would much rather play on his guitar or work on his science project than fly around breathing out fireballs You see Arvor is a pupil at Caderbrith the well known school for dragons on Cader Idris in Wales Arvor is also a little clumsy and quite small compared to the other dragons so they don t want him on their team when they play Egger This means Arvor has a bit of time to do other things like stay out of trouble It s just that sometimes he s in the wrong place at the right time Join Arvor and his friends Will Percy and Cedric on their adventures at Caderbrith the boarding school for dragons *The thousand best songs in the world, selected and arranged by E.W. Cole* Edward William Cole, 1892 [Opera in the British Isles, 1875-1918](#) Paul Rodmell, 2016-05-13 While the musical culture of the British Isles in the long nineteenth century has been reclaimed from obscurity by musicologists in the last thirty years appraisal of operatic culture in the latter part of this period has remained largely elusive Paul Rodmell argues that there were far more opportunities for composers performers and audiences than one might expect an assertion demonstrated by the fact that over one hundred serious operas by British composers were premiered between 1875 and 1918 Rodmell examines the nature of operatic culture in the British Isles during this period looking at the way in which opera was produced and consumed by companies and audiences the repertory performed social attitudes to opera the dominance of London s West End and the activities of touring companies in the provinces and the position of British composers within this realm of activity In doing so he uncovers the undoubted challenges faced by opera in

Britain in this period and delves further into why it was especially difficult to make a breakthrough in this particular genre when other fields of compositional endeavour were enjoying a period of sustained growth. Whilst contemporaneous composers and commentators and later advocates of British music may have felt that the country's operatic life did not measure up to their aspirations or ambitions, there was still a great deal of activity and even if this was not necessarily that which was always desired, it had a significant and lasting impact on musical culture in Britain.
