second edition discusses the history and contemporary presence of Islam in Europe and America. The book debates the relevance and multi-faceted participation of Muslims in the dynamics of Western societies, challenging the changing perception on both sides. Collating over 30 chapters written by experts from around the world, the volume presents a wide range of perspectives. Case studies from the Muslim presence in the Iberian Peninsula between the Middle Ages and the modern age set off the Handbook along with an outline of Muslims in America up to the twentieth century. The second part covers concepts around new conditions in terms of consolidating identities, the emergence of new Muslim actors, the appearance of institutions and institutional attitudes, the effects of Islamic presence on the arts and landscapes of the West, and the relational dynamics like ethics and gender. Exploring the influence of Islam, particularly its impact on society, culture, and politics, this interdisciplinary volume is a key resource for policymakers, academics, and students interested in the history of Islam, religion, and the contemporary relationship between Islam and the West.

Supporting Modern Teaching in Islamic Schools Ismail Hussein Amzat, 2022-03-31. Supporting Modern Teaching in Islamic Schools: Pedagogical Best Practice for Teachers advocates the revamp of the madrasah system and a review of the Islamic curriculum across Muslim countries and emphasises training needs for Islamic teachers for modern instructional practice. Islamic schools across Muslim countries face 21st century challenges and teachers need continuing professional development to help them keep abreast of modern teaching practice. Books, papers, educators, and parents have consistently called for curriculum change to transform teaching and learning in Islamic schools. Divided into three unique parts: Part 1 of the volume focusses on content, knowledge, pedagogy, and teaching methods; Part 2 highlights professional development, responsibilities, and lifelong learning; and Part 3 comprises chapters on Islamic curriculum review, reform, and Islamisation of knowledge. Scholars from the United States, United Kingdom, Europe, Canada, Australia, New Zealand, Asia, and Africa review the Islamic curriculum to highlight areas for further improvement and provide modern techniques and methods of teaching for pedagogical best practices and effective outcomes in Islamic schools. With these contributions, this volume will be of interest to OIC countries, Islamic student teachers, and Islamic teachers who work in international and local settings.
