Johnson, Paul Rennick, 2020-05-15 Religion evokes strong emotions and raises hard questions This volume addresses many of the contentious elements that religion provokes and challenges some of the easy answers contemporary society has produced The frequent and often facile dictum about the separation of church and state when examined closely may prove to contribute to the erosion of some of our most cherished human values rather than to their preservation The science versus religion dichotomy is dogma for many yet the empiricism that is the hallmark of scientific method and knowledge can be singularly absent from positions that claim to be science The current spate of attacks against God and religion that are now commonplace when critically scrutinized often fail to provide compelling arguments or even to be as objective as their authors claim These and other explorations are the focus of this book From the Forward in which Charles Kimball challenges the West to re evaluate its perspective and understanding of the East particularly Islam to the Afterword in which theologian Gregory Baum chronicles the extraordinary reversal of sociology's estimation of religion the invitation from this volume to all of us is to review our pieties and presuppositions as we reflect on the future of religion All Things Considered : Collected Columns & Essays Michael Coren, 2001 Why publish a collection of columns essays and reviews that have already appeared in print in various newspapers and magazines To be candid all writers enjoy seeing their journalistic work appear in the more permanent form of a book On a more practical level however the reason for this compilation is that so many people have asked for it When author Michael Coren speaks in public when a particular column appears somewhere when people read him in a newspaper or watch him on television for the first time he is asked if there is somewhere they can buy a book of his journalism Now that answer can be given Arc , 2006 *The Handbook of Religion and Communication* Yoel Cohen, Paul A. Soukup, 2023-02-22 Provides a contemporary view of the intertwined relationship of communication and religion The Handbook of Religion and Communication presents a detailed investigation of the complex interaction between media and religion offering diverse perspectives on how both traditional and new media sources continue to impact religious belief and practice across multiple faiths around the globe Contributions from leading international scholars address key themes such as the changing role of religious authority in the digital age the role of media in cultural shifts away from religious institutions and the ways modern technologies have transformed how religion is communicated and portrayed Divided into five parts the Handbook opens with a state of the art overview of the subject's intellectual landscape introducing the historical background theoretical foundations and major academic approaches to communication media and religion Subsequent sections focus on institutional and functional perspectives theological and cultural approaches and new approaches in digital technologies The essays provide insight into a wide range of topics including religious use of media religious identity audience gratification religious

Author and Title Index* ,1975 **On Being Nonreligious in Contemporary Japan** Ian Reader,Clark Chilson,2025-06-12 Challenging the notion of the nonreligious in Japan being religious through tradition and institution this book demonstrates how negativity and antipathy for religion relate to religious decline in Japan today Why do most Japanese say they are nonreligious mushukyo Since the 1990s scholars have answered this key question for understanding religion in contemporary Japan as follows although the Japanese say they are nonreligious because they do not identify with a particular religious tradition or institution they are in fact religious through their traditional practices New Year s visits to shinto Shrines Buddhist mortuary rites and festivals matsuri are typically seen as customs rather than as religious Challenging this answer this book argues that many Japanese say they are nonreligious because they actually dislike religion and want to distance themselves from it To support this argument the book explores how religion is in decline in Japan today Demonstrating how negative images of religion are produced in the mainstream media in popular culture and by various groups and people this book also explores specific case studies such as anti cult organizations lawyers government agencies intellectuals and religious organizations Ian Reader and Clark Chilson argue that popular negative images and perceptions about religion create an ecology of dislike which encourages disassociation from religion and exacerbates problems for religions today Overall this book provides a new perspective on religion in contemporary Japan that has implications for our understanding of secularization in the modern world *Mute Dreams, Blind Owls, and Dispersed Knowledges* Michael M. J. Fischer,2004-09-06 A leading anthropologist examines Iranian media in its cultural and historical contexts situating it between older oral narratives and currently proliferating postmodern forms *The Universal Periodic Review of Southeast Asia* James Gomez,Robin Ramcharan,2017-11-14 The research presented in this book provides a stakeholder analysis of human rights protection at a time when the region appears to be regressing into an insidious and deep authoritarianism As political space shrinks in Southeast Asia the book provides an insight into how civil society engaged with the Universal Periodic Review UPR of the United Nations Human Rights Council during the first 2008 2011 and second 2012 2016 cycles

Through evidence based research the authors in this volume identify gaps in human rights reporting and advocacy during the UPR notably on civil and political issues such as the right to life freedom of expression freedom of religion and belief extrajudicial killings arbitrary detention and claims for greater autonomy In short The Universal Periodic Review of Southeast Asia Civil Society Perspectives highlights the need for more engagement on civil and political issues during the third cycle of the UPR in 2017 2020 Failing this the UPR process risks being reduced to a platform where civil society only engages on issues that States are willing to cooperate on If this is the case Southeast Asia s democratic transition will suffer a long term set back Canadian Book Review Annual Joyce M.
