

The illustration is a vibrant, hand-drawn scene. On the left, a large tree trunk with a brown, textured bark has a simple face with two large, white eyes and a small, curved smile. The tree is surrounded by green leaves and various insects, including a yellow caterpillar, a blue beetle, and several bees. In the center, the title 'OUR TREE' is written in large, bold, red capital letters. Below the title, the author's name 'by JESSICA MESERVE' is written in a smaller, black, sans-serif font. In the bottom right, a red squirrel with a bushy tail is perched on a branch, looking up and holding a nut. The background is a light, warm yellow, and the overall style is whimsical and child-friendly.

Thomist Realism and the Linguistic Turn John P. O'Callaghan, 2016-09-15 Philosophers will be richly rewarded by reading John O'Callaghan's new book *Thomistic Realism and the Linguistic Turn*. Based on his broad knowledge of Aristotle and Aquinas, O'Callaghan provides not only an excellent treatment of Aquinas's epistemology but also a superb demonstration of just how Aquinas might contribute to contemporary debates. Traditionally, the camps of realism and idealism fiercely engaged one another in the field of epistemology. Thomists participated in confronting idealism from their unique realist position. Post-Wittgenstein, the conflict has been dominated by a form of epistemology that grounds all knowledge in linguistic practice. Since Thomists work in a textual and historical mode, their response to the technical approach of the analytic philosophy in which most of the linguistic epistemologists write has been slow in coming. O'Callaghan expertly closes that gap by successfully bringing together these fields.
