Out Of Nazi Germany And Trying To Find My Way:

Leaving the Jewish Fold Todd Endelman, 2015-02-22 The definitive history of conversion and assimilation of Jews in Europe and America from the eighteenth century to the present Between the French Revolution and World War II hundreds of thousands of Jews left the Jewish fold by becoming Christians or in liberal states by intermarrying Telling the stories of both famous and obscure individuals Leaving the Jewish Fold explores the nature of this drift and defection from Judaism in Europe and America from the eighteenth century to today Arguing that religious conviction was rarely a motive for Jews who became Christians Todd Endelman shows that those who severed their Jewish ties were driven above all by pragmatic concerns especially the desire to escape the stigma of Jewishness and its social occupational and emotional burdens Through a detailed and colorful narrative Endelman considers the social settings national contexts and historical circumstances that encouraged Jews to abandon Judaism and factors that worked to the opposite effect Demonstrating that anti Jewish prejudice weighed more heavily on the Jews of Germany and Austria than those living in France and other liberal states as early as the first half of the nineteenth century he reexamines how Germany's political and social development deviated from other European states Endelman also reveals that liberal societies such as Great Britain and the United States which tolerated Jewish integration promoted radical assimilation and the dissolution of Jewish ties as often as hostile illiberal societies such as Germany and Poland Bringing together extensive research across several languages Leaving the Jewish Fold will be the essential work on conversion and assimilation in modern Jewish history for years to come Jeanne Mammen Camilla Smith, 2022-10-20 Jeanne Mammen's watercolour images of the gender bending new woman and her candid portrayals of Berlin's thriving nightlife appeared in some of the most influential magazines of the Weimar Republic and are still considered characteristic of much of the glitter of that era This book charts how once the Nazis came into power Mammen instead created degenerate paintings and collages translated prohibited French literature and sculpted in clay and plaster all while hidden away in her tiny studio apartment in the heart of Berlin's fashionable west end What was it like as a woman artist to produce modern art in Nazi Germany Can artworks that were never exhibited in public still make valid claims to protest Camilla Smith examines a wide range of Mammen's dissenting artworks ranging from those created in solitude during inner emigration to her collaboration with artist cabarets after the Second World War Smith's engaging analysis compares Mammen's popular Weimar work to her artistic activities under the radar after 1933 in order to fundamentally rethink the moral complexities of inner emigration and its visual culture The examination of Mammen's life and work demonstrates the crucial role women artists played as both markers and agents of German modernity but the double marginalisation they have nonetheless encountered as inner migrants in recent history It will be of interest to students of German studies art history literature history gender studies and cultural studies **A Life Worth Dying For** Michael Edwards, 2021-08-25 A Life Worth Dying For By Michael Edwards When James Gibson decided to volunteer during World War II he had no idea the

danger and adventure that awaited him It wasn't long after he started flying as a pilot aboard a B 17 Bomber in the turbulent bomb ridden skies of Europe that James came to see firsthand just how brutal war could be Torn between duty and his longing for a quiet life back home with his sweetheart James will have to come to terms with what it means to be a war hero and sacrifice everything for the greater good Cosmos 1999 - The Third Year of Space 1999 John K. Balor,2019-07-10

What does Gerry Anderson's television series SPACE 1999 have in common with Carl Sagan's award winning television documentary COSMOS Not very much one might expect but this book documents an Online Alpha discussion where fans of the science fiction series discuss and debate differences and similarities from a wide range of perspectives some of them arguing that two series may be so closely connected that it might be natural to think of COSMOS as the third year of SPACE 1999 This book is written on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e book version can be downloaded at www.lulu.com *Congressional Record* United States. River of Mountains Peter Lourie,2023-11-15 Lourie completed his trip It took him three weeks and marked the first time anyone has traveled from the source of the Hudson to the mouth in a single vessel The Hudson proved to be a very changeable river It includes seven locks and nine power dams The northern half is a true river with strong current but the lower half is tidal a sunken river from the days of glaciers In its first 165 miles it drops more than 4 000 feet to Albany The second half falls no more than a foot Lourie s account of his trip is a fresh look at one of America s great and complex waterways one of the few in fact that still contains its historical and biological species of fish It is also the longest inland estuary in the world Henry Hudson called it the great river of the mountains Nowadays too often the Hudson is stereotyped as a ruined polluted industrial river Its glorious past is compared to its present neglect In River of Mountains Peter Lourie combines the Hudson s rich history and descriptions of some of the region s most impressive landscape with the residents of its mill towns the loggers commercial fishermen and barge pilots all of whom are proof that the river is still a thriving vital waterway So come with Peter Lourie on his trip come explore with him from a canoe one of this country s great rivers join him in his wonderful adventure
