Outside The Fold Conversion Modernity And Belief:

Outside the Fold Gauri Viswanathan, 2021-05-11 *Outside the Fold* is a radical reexamination of religious conversion Gauri Viswanathan skillfully argues that conversion is an interpretive act that belongs in the realm of cultural criticism To that end this work examines key moments in colonial and postcolonial history to show how conversion questions the limitations of secular ideologies particularly the discourse of rights central to both the British empire and the British nation state Implicit in such questioning is an attempt to construct an alternative epistemological and ethical foundation of national community Viswanathan grounds her study in an examination of two simultaneous and she asserts linked events the legal emancipation of religious minorities in England and the acculturation of colonial subjects to British rule The author views these two apparently disparate events as part of a common pattern of national consolidation that produced the English state She seeks to explain why resistance in both cases frequently took the form of religious conversion especially to minority or alternative religions Confronting the general characterization of conversion as assimilative and annihilating of identity Viswanathan demonstrates that a willful change of religion can be seen instead as an act of opposition *Outside the Fold* concludes that as a form of cultural crossing conversion comes to represent a vital release into difference Through the figure of the convert Viswanathan addresses the vexing question of the role of belief and minority discourse in modern society She establishes new points of contact between the convert as religious dissenter and as colonial subject This convergence provides a transcultural perspective not otherwise visible in literary and historical texts It allows for radically new readings of significant figures as diverse as John Henry Newman Pandita Ramabai Annie Besant and B R Ambedkar as well as close studies of court cases census reports and popular English fiction These varying texts illuminate the means by which discourses of religious identity are produced contained or opposed by the languages of law reason and classificatory knowledge *Outside the Fold* is a challenging provocative contribution to the multidisciplinary field of cultural studies [The Secret Life of Another Indian](#)

Nationalism Shail Mayaram, 2022-06-16 It highlights shifts over two centuries as the geopolitical context has transitioned from the Pax Britannica to the Pax Americana **The Ashgate Research Companion to Modern Imperial Histories**

John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance

and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

visions to coordinate our inner lives with our public and collective actions *Empire and Progress in the Victorian Secularist Movement* Patrick J. Corbeil, 2021-12-01 This book is the first extensive historical analysis of the relationship between empire and the Victorian secularist movement. Historians have paid little attention to the role of empire in the development of organized free thought. Secularism as it developed in Britain and its settler colonies was an overtly outward looking global ideology in a period marked by the rise of scientific rationalism and belief in the logic of a European civilizing mission. Recent scholarship has focused on how the empire influenced British and American atheists on the question of race. What is missing is an in depth examination of the formation of secularist ideas about universal progress, ethics and secular morality. Through an examination of the secularist periodical and pamphlet press, this book argues that the religious diversity of the British Empire helped to shape the ethical worldview of the secularists, providing ammunition for their critiques of Christian morality and the church, and justification for their policy reform proposals both in Britain and the colonies.

Spirit Matters J. Jeffrey Franklin, 2018-03-15 *Spirit Matters* explores the heterodox and unorthodox religions and spiritualities that arose in Victorian Britain as a result of the faltering of Christian faith in the face of modernity, the rise of the truth telling authority of science, and the first full exposure of the West to non Christian religions. J. Jeffrey Franklin investigates the diversity of ways that spiritual seekers struggled to maintain faith or to create new faiths by reconciling elements of the Judeo Christian heritage with Spiritualism, Buddhism, occultism, and scientific naturalism. *Spirit Matters* covers a range of scenarios from the Victorian hearth and the state Church altar to the frontiers of empire in Buddhist countries and Egyptian crypts. Franklin reveals how this diversity of elements provided the materials for the formation of new hybrid religions and the emergence in the 20th century of New Age spiritualities. Franklin investigates a broad spectrum of experiences through a series of representative case studies that together trace the development of unorthodox religious and spiritual discourses. The ideas and events discussed by Franklin through these case studies were considered outside the domain of orthodox religion, yet still religious or spiritual rather than atheistic or materialistic. Among the works, obscure and canonical, he analyzes are Edward Bulwer Lytton's *Zanoni* and *A Strange Story*; Forest and Life in Ceylon by William Knighton; Anthony Trollope's *The Vicar of Bullhampton*; Anna Leonowens's *The English Governess at the Siamese Court*; Literature and Dogma by Matthew Arnold; and Bram Stoker's *Dracula*.

Religion, Morality, and Community in Post-Soviet Societies Mark D. Steinberg, Catherine Wanner, 2008-11-13 This collection reveals the presence and power of religious belief and practice in public life after the demise of Soviet socialism. Based on recent research and interdisciplinary methodologies, *Religion, Morality, and Community in Post Soviet Societies* examines how religious organizations and individuals engage the changing and troubled environment in which they live, which presents expanded civil freedom but much everyday uncertainty, unhappiness, injustice, and suffering.  social economic and political processes in the country Linking the structural characteristics with the broader sociological
 context the book emphasizes the strong influence of sociological issues on politics such as social milieu shaping and the
 articulation of the political in day to day events Political events are connected with the ever changing social economic and
 political processes in order to provide an analytical framework to explain peculiarities of Indian politics Bidyut Chakrabarty
 argues that three major ideological influences of colonialism nationalism and democracy have provided the foundational

Reform Identity and Narratives of Belonging focuses on the Heraka a religious reform movement and its impact on the Zeme
 a Naga tribe in the North Cachar Hills of Assam India Drawing upon critical studies of religion cultural ethnic identity and
 nationalism archival research in both India and Britain and fieldwork in Assam the book initiates new grounds for
 understanding the evolving notions of reform and identity in the emergence of a Heraka religion Arkotong Longkumer argues
 that reform and identity are dynamically inter related and linked to the revitalisation and negotiation of both tradition
 legitimising indigeneity and change legitimising reform The results have deepened yet challenged not only prevailing views
 of the Western construction of the category religion but also understandings of how marginalised communities use collective
 historical imagination to inspire self identification through the discourse of religion In conclusion this book argues for a re

 Colin Jager,2015 In Great Britain during the Romantic period governmental and social structures were becoming more
 secular as religion was privatized and depoliticized If the discretionary nature of religious practice permitted spiritual
 freedom and social differentiation however secular arrangements produced new anxieties *Unquiet Things* investigates the
 social and political disorders that arise within modern secular cultures and their expression in works by Jane Austen Horace
 Walpole Samuel Taylor Coleridge Lord Byron and Percy Shelley among others Emphasizing secularism rather than religion
 as its primary analytic category *Unquiet Things* demonstrates that literary writing possesses a distinctive ability to register
 the discontent that characterizes the mood of secular modernity Colin Jager places Romantic era writers within the context of
 a longer series of transformations begun in the Reformation and identifies three ways in which romanticism and secularism
 interact the melancholic mood brought on by movements of reform the minoritizing capacity of literature to measure the
 disturbances produced by new arrangements of state power and a prospective romantic thinking Jager calls after the secular
 The poems novels and letters of the romantic period reveal uneasy traces of the spiritual past haunted by elements that

trouble secular politics at the same time they imagine new and more equitable possibilities for the future In the twenty first century Jager contends we are still living within the terms of the romantic response to secularism when literature and philosophy first took account of the consequences of modernity The New Modernist Studies Douglas Mao,2021-02-04 This is the first book specifically devoted to the new modernist studies Bringing together a range of perspectives on the past present and future of this vibrant complicated scholarly enterprise the collection reconsiders its achievements and challenges as both a mode of inquiry and an institutional formation In its first section the volume offers a fresh history of the new modernist studies origins amid the intellectual configurations of the end of the twentieth century and changing views of the value influence and scope of modernism In the second section a dozen leading scholars examine recent trends in modernist scholarship to suggest possible new paths of research showing how the field continues to engage with other areas of study and how it makes a case for the ongoing meaning of modernist literature and art in the contemporary world **Christians and Christianity in India Today** Lalsangkima Pachuau,Allan Varghese Meloottu,2024-11-12 This book provides a panoramic view of Christians in India today It deals with Christianity s history major theological themes and approaches and missiological issues in India within the framework of World Christianity Middle English Paul Strohm,2007-04-19 These original essays mean to provoke rather than reassure to challenge rather than codify Instead of summarizing existing knowledge after the fashion of the now ubiquitous literary companions these essays aim at opening fresh discussion instead of emphasizing settled consensus they direct their readers to areas of enlivened and unresolved debate Although major authors such as Chaucer and Langland are richly represented many little known and neglected texts are considered as well Analysis is devoted not only to self sufficient works but to the general conditions of textual production and reception Contributors to this collection include some recognized and admired names but also a good many newer faces younger scholars whose groundbreaking research is just coming into full view and whose perspectives will influence the terms of literary discussion in the decades to come Encouraged to speculate they have addressed topics that unsettle previous categories of investigation Each is oriented toward the emergent the unfinished the yet to be done Each essay stirs new questions and concludes with suggestions for further reading and investigation that will allow readers to extend their own research into the questions it has raised **Textual Intimacy** Wesley A. Kort,2012 Given its affinity with questions of identity autobiography offers a way into the interior space between author and reader especially when writers define themselves in terms of religion In his exploration of this textual intimacy Wesley Kort begins with a theorization of what it means to say who one is and how one s self account as a religious person stands in relation to other forms of self identification He then provides a critical analysis of autobiographical texts by nine contemporary American writers including Maya Angelou Philip Roth and Anne Lamott who give religion a positive place in their accounts of who they are Finally in disclosing his own religious identity Kort concludes with a meditation on several meanings of the word assumption Ethnic
