Barrett, 2002-12-30 In recent years the concept of power has soared to the top of the anthropological agenda while the concept of culture has been found inadequate in understanding the contemporary world The purposes of this study are to explain why power has become a central interest in the discipline to evaluate the explanatory potential of power to demonstrate how to analyze power in the ethnographic context and to consider whether the culture concept can be salvaged In chapter one the process by which the profile of power became elevated as a result of globalization is analyzed included here is the critique of culture In chapter two a broad overview of the conception of power from early political anthropology to key works in philosophy political science and political sociology is attempted Some anthropologists have recently tried to rescue the culture concept this is the focus of chapter three Although the argument in this study is that power is fundamentally important it would be a mistake to think that power is any less ambiguous than culture or any other concept thus in chapter four it is shown that for each of 20 major assumptions about power there is a plausible counter assumption Chapter five ties the study together by exploring the debates about power in the context of ethnography The study ends with a postscript on the terrorist attacks on America of September 11 2001 a poignant reminder that culture and power sometimes intersect to produce human tragedy on a grand scale **James and John Stuart Mill** Bruce Mazlish, 2017-09-29 The story of James and John Stuart Mill is one of the great dramas of the 19th century In the tense yet loving struggle of this extraordinarily influential father and son we can see the genesis of evolution of Liberal ideas about love sex and women wealth and work authority and rebellion which ushered in the modern age The result of more than a decade of research and reflection this is a study of the relationship between James Mill the self made utilitarian philosopher who tried with only partial success to shape his son in his own image Mazlish integrates psychology and intellectual history as part of his larger and continuing effort to spur deeper understanding of the character limitations and possibilities of the social sciences John Stuart Mill's rebellion against a joyless loveless upbringing one in strict accordance with the principles of Utilitarianism was rooted in a powerful Oedipal struggle against his father's authority Mazlish describes this rebellion as playing an important role in the genesis of classical nineteenth century liberalism Behind this intellectual development were the women in Mill's life Harriet the mother never mentioned by her son in his autobiography and Harriet Taylor with whom Mill lived in a scandalous if chaste ménage à trois It was this long relationship which informed his famous essay The
