Regional Integration Among The Asian Nations A Computable General Equilibrium Model Study:

Regional Integration Among the ASEAN Nations Innwon Park,1995-04-25 AFTA is ASEAN's response to the world wide movement toward regional economic integration Recent economic debate centers on measuring the impact of regional economic integration as a means of achieving persistent growth and facilitating structural adjustment Park evaluates the long term effects that AFTA should have among ASEAN members especially among the developing countries by applying static dynamic and trade linked CGE models This work is valuable reading for scholars policy makers and businessmen interested in Southeast Asia's development and economy

National Strategies for Regional Integration Joseph Francois,Pradumna Bickram Rana,Ganeshan Wignaraja,2011 National Strategies for Regional Integration South and East Asian Case Studies examines how each country's integration with its neighbours and more distant regional economies might be improved The country cases illustrate the diversity of Asian development experience and offer lessons for other countries and regions interested in developing national strategies to foster regional integration

Regional Co-operation & Asian Recovery Peter A. Petri,2000 A full acknowledgement of the dangers of analysis by hindsight leaves one with a simple question if the origins of the Asian financial crisis lie in the structural flaws in the Asian financial system then why did it occur when it did What in the economic structure or fundamentals changed between the Asian Miracle and the Asian Crisis Some slowdown in East Asian growth was probably inevitable after the fast pace of the preceding three decades But the slowdown interacted badly with the highly leveraged financial system The crisis was the result Asia Pacific Economic Co operation APEC is about the things that can help the region put in place the policies and the infrastructure human and capital for sustainable growth over the coming years The international community can play a role in supporting the process of reform This book briefly assesses the Asian crisis discusses financial systems for recovery and the role of investment and trade flows and policies

Regional Integration in East Asia Masahisa Fujita,2007-01-30 This book applies a spatial economics perspective to the understanding of the recent dynamism of the global economy with particular focus on East Asia and examines the prospects of regional integration in East Asia

Computable General Equilibrium Approaches In Urban And Regional Policy Studies Masayuki Doi,2006-06-15 Computable General Equilibrium CGE approaches have been used extensively over the past 25 years to analyze government and other policies for both developed and developing countries Advances in methodology computation techniques and data availability including Social Accounting Matrix SAM data have allowed researchers to use CGE models to study the potential policy impacts of tax trade environmental issues etc at the urban and regional levels as well as the macro level What is common with these policy topics is that they cause structural long term impacts including price changes and income growth on various entities households enterprises government and other regions countries and industrial sectors of economies CGE modeling can compute a new equilibrium of each industry's market clearance upon the incorporation of such a policy shock and evaluates the policy alternative as

compared with the benchmark equilibrium in terms of industrial sector wise and aggregated prices outputs GDP and many other indicators

Regional Integration in South Asia Mohammad A Razzaque, Yurendra Basnett, 2014 Regional Integration in South Asia Trends Challenges and Prospects presents an objective assessment of trade and economic co operation among South Asian nations and highlights policy issues to foster regional integration The analyses presented in this volume go beyond the usual discussions on trade in goods to provide insightful perspectives on potential new areas of co operation emerging challenges and country specific views on regional and bilateral trade co operation issues Written by influential analysts and researchers the volume s 24 chapters include perspectives from Bangladesh India Maldives Nepal Pakistan and Sri Lanka and examinations of new areas of co operation such as investment regional supply chains energy and cross border transport networks

Asia and the Gulf Veluthevar Kanaga Rajan, 1998-11-09 Asia especially East Asia has seen unprecedented economic transformation in recent decades and the momentum is likely to continue despite the occasional blips and turbulences Indeed the economic focus has shifted from the Atlantic to the Pacific A booming Asia has both opportunities and challenges for the Arab Gulf states which already depend on Asia for approximately 52 percent of their total trade Much of Asia s increased demand for energy will be met by the countries of the Arab Gulf A major challenge in this regard is also to safeguard the security and safety of navigation in the vital sea lanes through which increasing number of tankers will travel However energy need not be the only basis of cooperation Generally the East Asian economies have become competitive through effective use of information technology and skill development Institutional link up between the Association of South East Asian Nations ASEAN and the Gulf Co operation Council GCC offers a good basis for a quick start at the political level thus paving the way for more broad based cooperation involving economic security and cultural dimensions Political will and determination are required to give impetus to this effort

Connecting Asia Michael G. Plummer, Peter J. Morgan, Ganeshan Wignaraja, 2016-01-29 This book analyses how closer regional connectivity and economic integration between South Asia and Southeast Asia can benefit both regions With a focus on the role played by infrastructure and public policies in facilitating this process it provides a detailed and up to date discussion of issues innovations and progress Country studies of national connectivity issues and policies cover Bangladesh India Myanmar Nepal Sri Lanka and Thailand examining major developments in trade and investment economic cooperation the role of economic corridors and regional cooperation initiatives Thematic chapters explore investment in land and sea transport infrastructure trade facilitation infrastructure investment financing supporting national and regional policies and model based estimates of the benefits of integration They also identify significant opportunities for strengthening these integration efforts as a result of the recent opening up of Myanmar in political economic and financial terms For the first time for these regions the book employs a state of the art computable general equilibrium CGE model incorporating heterogeneous firms to estimate the advantages of integration Providing perspective on the latest thinking on integration policy Connecting Asia is an essential resource for

Energy Market Integration in East Asia Yanrui Wu, Fukunari Kimura, Xunpeng Shi, 2013-12-04 East Asian nations through the dialogue between ASEAN and its partners have been promoting energy market integration EMI for a decade The formation of the East Asian Summit EAS group in 2005 adds new momentum to the EMI course in the region The objective of this edited volume is to present new insights into the understanding of EMI in East Asia and draw implications for further development This book is the first publication of its kind exclusively focusing on EMI in East Asia The chapters are written by a distinguished group of specialists in the field of energy policy business and economics The covered topics range from the general debates about EMI to regional policy responses A variety of qualitative and quantitative methods are employed in this book For qualitative methods public goods theory and the comparative study method are two examples The quantitative methods include economic growth theory principle component approach input output table computable general equilibrium CGE models and econometric techniques Important policy implications can be drawn from the findings One clear message is that EMI should be promoted actively but in a gradual incremental manner Other policy implications are related to inter regional governance infrastructure development and gas market integration The content has not been published elsewhere and hence makes a unique contribution to the literature There are also case studies of specific energy sectors such as petroleum and natural gas Overall this book should be of interest to a wide audience such as academia business analysts and policy makers

[Trade Liberalisation And The Environment: A Computable General Equilibrium Analysis](#) Ravi Ratnayake, Blair Townsend, 2000-10-27

This book assesses the magnitude of the effects of trade liberalisation on welfare and the environment in the context of a small open economy and the degree to which these effects are influenced by environmental policy. It is expected that the results of this study will provide some direction for trade and environmental policies and will help to fill part of the empirical vacuum in this field. These results will be widely applicable to open market based economies and to countries embarking on major liberalisation programs.

Corporate Strategies in the Age of Regional Integration Jong Kil Kim, Pierre-Bruno Ruffini, 2007-01-01. This book presents various empirical analyses of cross border strategies adopted by global firms with a particular emphasis on the European and East Asian experiences. It also provides studies of the trends and prospects of regional economic integration focusing mainly on East Asia. The book addresses the topic of economic integration from both a corporate perspective and a policy perspective.

The Future of Asian Trade and Growth Linda Yueh, 2009-12-16. This book presents a comprehensive analysis of current trends of trade and economic growth in Asia, assessing how they are likely to develop in the future. It examines the evolving patterns of Asian economic development with the emergence of China, including since China's accession to the World Trade Organisation (WTO) in 2001. It is written by experts specialising in economic growth and regional and global trade investment issues alongside country specialists who have examined the development path of Asian economies. It discusses the significance of an export-oriented growth strategy on the Asian region and the likely patterns of intra-regional specialisation given China's rise. The book examines the degree to which the remarkable growth of China is likely to affect other Asian countries in terms of global market share and growth prospects. The book explores how the rise of intra-industry trade is affecting patterns of specialisation in the region and appraises the role of multinational corporations and foreign direct investment. Informed by the latest empirical economic thinking, this book is a rigorous examination of the

influence of an emerging economic superpower and the future for economic growth in Asia Readers interested in the implications of the rise of China the effect on the economic development path of the most successful developing nations of our time and the lessons to be heeded from China s integration with the global economy will find this a thorough yet accessible account of the influence of an emerging economic superpower *Prospects of Regional Economic Cooperation in South Asia* Gordhan Saini,2011-12-07 This book is aimed at researchers and students at graduate and post graduate level in the field of economics and international trade The book is written against the backdrop of sluggish progress of multilateral trade negotiations under the framework of the World Trade Organization WTO regime which has provided impetus to the signing of regional bilateral trade agreements the world over This book examines the prospects and impact of regional economic cooperation in the South Asia region using various approaches and focuses specifically on the South Asian Free Trade Agreement SAFTA The book also includes special studies on Indian industries pharmaceuticals textiles and clothing and traditional i e lock brassware and glassware industries in north India Provides a detailed analysis of the prospects and impact of regional economic cooperation in South Asia through alternative approaches Draws on the author s rich experience in the field of economics and trade to assess the prospects and impact of RTA FTA Contributions are presented from highly knowledgeable and rich experienced researchers in the field Regional Integration in West Africa Eswar Prasad,Vera Songwe,2021-07-13 Assessing the potential benefits and risks of a currency union Leaders of the fifteen member Economic Community of West African States ECOWAS have set a goal of achieving a monetary and currency union by late 2020 Although some progress has been made toward achieving this ambitious goal major challenges remain if the region is to realize the necessary macroeconomic convergence and establish the required institutional framework in a relatively short period of time The proposed union offers many potential benefits especially for countries with historically high inflation rates and weak central banks But as implementation of the euro over the past two decades has shown folding multiple currencies representing disparate economies into a common union comes with significant costs along with operational challenges and transitional risks All these potential negatives must be considered carefully by ECOWAS leaders seeking to meet a self imposed deadline This book by two leading experts on economics and Africa makes a significant analytical contribution to the debates now under way about how ECOWAS could achieve and manage its currency union and the ramifications for the African continent
