Regional Organization and Order in South-East Asia Arnfinn Jorgensen-Dahl, 2016-01-06 The Regional Organizations of the Asia Pacific M. Wesley, 2003-08-19 This collection examines change within the major regional organisations of the Asia Pacific The Asian Development Bank ADB the Association of Southeast Asian Nations ASEAN Asia Pacific Economic Cooperation APEC and the ASEAN Regional Forum ARF It has two simultaneous foci the nature of institutional change in regional organisations and the process of regionalism in the Asia Pacific It combines the views of both officials and practitioners providing new insights into both its major questions **Regional Security in Southeast Asia** Mely Caballero Anthony, 2005 The book examines ASEAN's mechanisms in managing challenges and threats to regional security Its extensive analyses of the ASEAN story of managing regional security cover the different phases of ASEAN's development as a regional organization and explore the perceptible changes that have occurred in regional mechanisms of conflict management The book also examines the roles of relevant actors beyond the states of ASEAN and the key interactions that have evolved over time which have been instrumental in moving regional mechanisms beyond the ASEAN way The book argues that the ASEAN way has not been impervious to change As the association finds its way through periods of crises and continues to confront the many challenges ahead ASEAN and its mechanisms are already being transformed beyond the narrow confines of the modalities associated with the ASEAN way The changes in the political and security landscape of the region as well as the democratic transitions taking place in some member states have set the stage for a much more dynamic set of regional actors and processes that bring into question the kind of regionalism that is now taking place in the region the way regionalism is changing in Southeast Asia Routledge Handbook of Human Rights in Southeast Asia Amalinda Savirani, Ken M.P. Setiawan, 2025-06-30 The Routledge Handbook of Human Rights in Southeast Asia analyses some of the region's most pressing human rights issues while also giving attention to those actors and institutions that work towards improvement Chapters by international experts in the field provide readers with a background on some of Southeast Asia's most pressing human rights concerns The book builds on and contributes to existing analyses of human rights in Southeast Asia to further enhance our understanding of what sits behind the region's ambivalent human rights track record Following an introduction the handbook is structured in eight parts The chapters cover a wide range of human rights issues including human rights debates at political and regional levels and how human rights are experienced every day such as the rights to food water and work Advancing Human Rights through ASEAN Refugees Protecting Rights and Strengthening Agency Transitional Justice in Southeast Asia Confronting the Past Balancing Moral Perspectives Ideologies and Human Rights Intersections between Workers Rights Corporations and the State Accessing and Maintaining Rights to Water Food and Health On the Frontline Human Rights Defenders Promoting Human Rights in Southeast Asia New Directions and Strategies The handbook considers the political and social contexts in which human rights emerge the

dynamics of their contestation and violation and how rights are claimed It demonstrates that human rights are a practice and goes beyond considering human rights as formal structures in laws regulations and meeting rooms A timely overview and analysis of the situation of Human Rights in Southeast Asia this handbook will be a valuable reference work for scholars and practitioners in human rights the field of Asian Law Asian Studies in general and Southeast Asian Studies in particular Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution NonCommercial No Derivatives CC BY NC ND 4.0 license

(Re)Negotiating East and Southeast Asia Alice D. Ba, 2009-03-26 This book seeks to explain two core paradoxes associated with the Association of Southeast Asian Nations ASEAN How have diverse states hung together and stabilized relations in the face of competing interests divergent preferences and arguably weak cooperation How has a group of lesser self identified Southeast Asian powers gone beyond its original regional purview to shape the form and content of Asian Pacific and East Asian regionalisms According to Alice Ba the answers lie in ASEAN's founding arguments arguments that were premised on an assumed regional disunity She demonstrates how these arguments draw critical causal connections that make Southeast Asian regionalism a necessary response to problems give rise to its defining informality and consensus seeking process and also constrain ASEAN's regionalism Tracing debates about ASEAN's intra and extra regional relations over four decades she argues for a process driven view of cooperation sheds light on intervening processes of argument and debate and highlights interacting material ideational and social forces in the construction of regions and regionalisms

The Making of Southeast Asia Amitav Acharya, 2013-02-22 Developing a framework to study what makes a region Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations He views the Association of Southeast Asian Nations ASEAN from the bottom up as not only a U S inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions Although Acharya deploys the notion of imagined community to examine the changes especially since the Cold War in the significance of ASEAN dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO the OAU or the European Union In this new edition of a book first published as *The Quest for Identity* in 2000 Acharya updates developments in the region through the first decade of the new century the aftermath of the financial crisis of 1997 security affairs after September 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of China as a regional and global actor Acharya argues in this important book for the crucial importance of regionalism in a different part of the world

Japan's Relations with Southeast Asia Peng Er Lam, 2013 The Fukuda Doctrine has been the official blueprint to Japan's foreign policy towards Southeast Asia since 1977 This book examines the Fukuda Doctrine in the context of Japan Southeast Asia relations and discusses the possibility of a non realist approach in the imagining and conduct of international relations in East Asia The collapse of 54 years of Liberal Democratic Party rule and the advent of a new Democratic Party of Japan raises the question of whether the Fukuda Doctrine is still relevant as a framework to analyse Tokyo's policy and behaviour towards Southeast Asia Looking at its origins and norms amidst three decades of change the book argues that the Fukuda Doctrine is still relevant to Japan Southeast Asian relations and should be extended to relations between China and Japan if an East Asian Community is to be built The book goes on to discuss the Fukuda Doctrine in relation to the power shift in Asia including the revitalization of Japan's security role By providing a detailed understanding of a non western perspective of Japan's relationship with Southeast Asia this book is a useful contribution for students and scholars of Asian Studies Politics and International Relations
