Reimagining The Modern American West A Century Of Fiction History And Art:

Re-imagining the Modern American West Richard W. Etulain, 1996-09-01 From the Mississippi west to the Pacific from border to border north and south here is the first thorough overview of novelists historians and artists of the modern American West Examining a full century of cultural intellectual forces at work a leading authority on the twentieth century West brings his formidable talents to bear in this pioneering study Richard W Etulain divides his book into three major sections He begins with the period from the 1890s to the 1920s when artists and authors were inventing an idealized frontier especially one depicting initial contacts and conflicts with new landscapes and new peoples The second section covers the regionalists who focused on regional mostly geographical characteristics that shaped distinctively western traits of character and institutions The book concludes with a discussion of the postregional West from World War II to the 90s a period when novelists historians and artists stressed ethnicity gender and a new environmentalism as powerful forces in the formation of modern western society and culture Etulain casts a wide net in his new study He discusses novelists from Jack London to John Steinbeck and on to Joan Didion He covers historians from Frederick Jackson Turner to Earl Pomeroy and Patricia Nelson Limerick and artists from Frederic Remington and Charles Russell to Georgia O Keeffe and R C Gorman The author places emphasis on women painters and authors such as Mary Hallock Foote Mary Austin Willa Cather and Judith Baca He also stresses important works of ethnic writers including Leslie Marmon Silko Rudolfo Anaya and Amy Tan An intriguing survey of tendencies and trends and a well defined profile of influences and outgrowths this book will be valuable to students and scholars of western culture and history American studies and related disciplines General readers will appreciate the book s balanced structure and spirited writing style All readers whatever their level of interest will discover the major cultural inventions of the American West over the past one hundred years **The American West** Michael P.

Malone, 2007-11-01 Chronicles the history of the American West during the twentieth century tracing economical political social and cultural developments in the region from 1900 to the turn of the twenty first century in an updated edition that includes new sections that explore the roles of ethnic groups in the new West urban developments western women and events since the mid 1980s Original **The North American West in the Twenty-First Century** Brenden W. Rensink, 2022-11 In 1893 Frederick Jackson Turner famously argued that the generational process of meeting and conquering the supposedly uncivilized western frontier is what forged American identity In the late twentieth century new western historians dissected the mythologized western histories that Turner and others had long used to embody American triumph and progress While Turner s frontier is no more the West continues to present America with challenging processes to wrestle navigate and overcome **The North American West in the Twenty First Century** edited by Brenden W Rensink takes stories of the late twentieth century modern West and carefully pulls them toward the present explicitly tracing continuity with or unexpected divergence from trajectories established in the 1980s and 1990s Considering a broad range of topics including environment

Indigenous peoples geography migration and politics these essays straddle multiple modern frontiers not least of which is the temporal frontier between our unsettled past and uncertain future These forays into the twenty first century West will inspire more scholars to pull histories to the present and by doing so reinsert scholarly findings into contemporary public awareness

Imagined Frontiers Carl Abbott,2015-09-10 We live near the edge whether in a settlement at the core of the Rockies a gated community tucked into the wilds of the Santa Monica Mountains a silicon culture emerging in the suburbs or in the future homesteading on a terraformed Mars In Imagined Frontiers urban historian and popular culture scholar Carl Abbott looks at the work of American artists who have used novels film television maps and occasionally even performance art to explore these frontiers the metropolitan frontier of suburban development the classic continental frontier of American settlement and the yet unrealized frontiers beyond Earth Focusing on writers and artists working during the past half century an era of global economic and social reach Abbott describes the dialogue between historians and social scientists seeking to understand these frontier places and the artists reimagining them in written and visual fictions This book offers perspectives on such well known authors as T C Boyle and John Updike and on such familiar movies and television shows as Falling Down and The Sopranos By putting The Rockford Files and the cult favorite Firefly in conversation with popular fiction writers Robert Heinlein and Stephen King and literary novelists Peter Matthiessen and Leslie Marmon Silko Abbott interweaves the disparate subjects of western history urban planning and

science fiction in a single volume Abbott combines all new essays with others previously published but substantially revised to integrate western and urban history literary analysis and American studies scholarship in a uniquely compelling analysis of the frontier in popular culture **Translating Southwestern Landscapes** Audrey Goodman,2002-09 Examines how the Southwest emerged as a symbolic cultural space for Anglos from 1880 through the early decades of the twentieth century particularly in the works of amateur ethnographer Charles Lummis pulp novelist Zane Grey translator of Indian songs Mary Austin and modernist author Willa Cather **Salvation Gap and Other Western Classics** Owen Wister,1999-01-01 Owen Wister invented the Western novel with *The Virginian* and that work and this collection of stories prove that although many have gone after him no one has ever topped him in skill and enduring appeal Wister saw the story of the West as a collision of centuries with the Stone Age the Middle Ages and the modern world coming together to form a new place and a new people Wister said of this collection These stories are about Indians and soldiers and events west of the Missouri They belong to the past but you will find some of those ancient surviving centuries in them if you take my view Here are unforgettable characters Specimen Jones the taciturn and capable rider from an unknown past who has no use for fools and even less for bullies General Crook and his men who do the Government's dirty work on the frontier and get no thanks for it and unregenerate Rebels and Union veterans in an uneasy frontier political alliance **Long After Dark** Todd Robert Petersen,2007 A man struggles literally with his dead father A housewife suffers from post calling depression The son of a polygamist comes to terms with his upbringing An unwed teen mother faces her father In these award winning stories and a new novella Todd Robert Petersen takes the reader on expeditions to Utah Arizona Brazil Rwanda and into the souls of twenty first century Mormons caught between their humanity faith and church **Violence, the Arts, and Willa Cather** Joseph R. Urgo,Merrill Maguire Skaggs,2007 Willa Cather was devoted to making art in the face of violence Here she emerges as a resource for survival in an age of terror an artist who encourages her readers to feel at home in the nexus of creativity and terror and to seek creative responses to the horror of human life **Sunbelt Rising** Michelle Nickerson,Darren Dochuk,2013-09-17 Coined by Republican strategist Kevin Phillips in 1969 to describe the new alloy of conservatism that united voters across the southern rim of the country the term Sunbelt has since gained currency in the American lexicon By the early 1970s the region had come to embody economic growth and an ambitious political culture With sprawling suburban landscapes cities like Atlanta Dallas and Los Angeles seemed destined to sap influence from the Northeast Corporate entrepreneurialism and a conservative ethos helped forge the Sunbelt's industrial labor relations military spending education systems and neighborhood development Unprecedented migration to the region ensured that these developments worked in concert with sojourners personal quests for work family community and leisure In the resplendent Sunbelt the nation seemed to glimpse the American Dream remade The essays in *Sunbelt Rising* deploy new analytic tools to explain this region's dramatic rise Contributors to the volume study the Sunbelt as both a physical entity and

a cultural invention They examine the raised highway the sprawling prison complex and the fast food restaurant as distinctive material contours of a region In this same vein they delineate distinctive Sunbelt models of corporate and government organization which came to shape so many aspects of the nation s political and economic future Contributors also examine literature religion and civic engagement to illustrate how a particular Sunbelt cultural sensibility arose that ordered people s lives in a period of tumultuous change By exploring the interplay between the Sunbelt as a structurally defined space and a culturally imagined place Sunbelt Rising addresses longstanding debates about region as a category of analysis
