of the 1960s and examines the shift in the 1980s that gave rise to the next generation of company based work rooted in a new interest in form and the more mediated and dispersed forms of politics Ensembles examined are Mabou Mines Theatre X Goat Island Lookingglass Elevator Repair Service and SITI Company Preliminary chapters provide a sweeping overview of ensemble based creation within the general historical and cultural contexts of the period followed by a detailed study of the evolution of ensemble based work The case studies consider factors such as influence funding production and legacies as well as the forms of collective devising and creation while surveying the continuing work of significant long running companies Contributors provide detailed case studies of the 6 companies from the period and cover A chronicle of development and methods Key productions and projects Critical reception and legacy A chronological overview of significant productions From the long history of collective theatre creation with its sources in social crises urgent aesthetic experimentation and utopian dreaming American ensemble based theatre has emerged at several key points in history to challenge the primacy of author based and director produced theatre As the volume demonstrates US ensemble companies have collectively revolutionized the form and content of contemporary performance influencing experimental as well as mainstream practice
