Landon, 2014-03 This Is A New Release Of The Original 1916 Edition **Catalogue of Copyright Entries** ,1916 Theosophy across Boundaries Hans Martin Krämer, Julian Strube, 2020-11-01 Theosophy across Boundaries brings a global history approach to the study of esotericism highlighting the important role of Theosophy in the general histories of religion science philosophy art and politics The first half of the book consists of seven perspectives on the activities of the Theosophical Society in very different regional contexts ranging from India Vietnam China and Japan to Victorian Britain and Israel shedding new light on the entanglement of Western and Oriental ideas around 1900 The second half explores specific cultural influences that Theosophy exerted in the spheres of literature art and politics using case studies from Sri Lanka Burma India Japan Ireland Germany and Russia The examples clearly show that Theosophy was part of a truly global movement thus providing an outstanding example of the complex entanglements of the global religious history of the nineteenth and early twentieth centuries *Quarterly Bulletin* Chelsea Public Library, 1913 **New Age Magazine** ,1917 **Catalog of Copyright Entries. life in a narrative Publisher s Weekly has called stunning In contrast to recent biographies of Cobb that have tried to minimize his more brutish behavior and minimize his racial antipathies Tripp contextualizes Cobb placing him squarely within the cultural milieu of both the rural South of his birth and the Northern sporting culture of his professional career Moreover Tripp s reconstruction of early twentieth century sporting culture isolates an important source of modern America s culture of hyper masculinity Ty Cobb Baseball and American Manhood is both an important work of social and cultural history and an absorbing tale of ambition and the quest for dominance Tripp has written the rare narrative that is as appealing to scholars as it is to general readers and sports enthusiasts *Spaces of Hate* Colin Flint,2013-10-18 While much has been written about hate groups and extreme right political movements this book will be the first that addresses the crucial role that place and context play in generating and shaping them Ranging across geographical scales the essays start with the home and then move from the local to the regional to the national to finally the global In this collection much of the focus is on the U S as the contributors consider a variety of hate activity and hate groups across the country including rural white supremacist and neo Nazi movements anti black sentiment directed towards cities anti gay activity in cities and rural areas and the resurgent Southern nationalist movement Closing with pieces from those who combat hate activity the intention of *Spaces of Hate* is to recognize specific geographic settings likely to foster hate activity *Encyclopedia of Reincarnation and Karma* Norman C. and material culture from their reception and interpretive communities Our contributors engage with these questions theoretically and or through the close examination of cultural artefacts They problematise the concept of a Western elitist canon and actively push the geographical boundaries of reception as both a local and a global phenomenon Individually and cumulatively they actively engage with the question of how to marshal the classical past in our efforts to respond to the challenges of our mutable contemporary world
