Isabel Allende's House of the Spirits Trilogy Karen Wooley Martin, 2010

The source of the narrative energy that creates such absorbing stories Allende's very popular novels have attracted both critical approval and opprobrium often at the expense of genuine analysis. This sophisticated study explores the narrative architecture of Allende's *House of the Spirits* 1982 *Daughter of Fortune* 1999 and *Portrait in Sepia* 2000 as a trilogy proposing that the places created in these novels subvert the patriarchal norms that have governed politics, sexuality and ethnicity. Rooted in the Foucauldian premise that the history of space is essentially the history of power and

supported by Susan Stanford Friedman's cultural geographies of encounter as well as Gloria Anzaldá's study of borderlands this study shows that by rejecting traditional spatial hierarchies Allende's trilogy systematically deterritorializes the elite while shifting the previously marginalized to the physical and thematic centers of her works This movement provides the narrative energy which draws the reader into Allende's universe and sustains the good story for which she has been universally acclaimed KAREN WOOLEY MARTIN is Associate Professor of Spanish at Union University Jackson Tennessee

The House of the Spirits Isabel Allende, 2005-04-19 Chilean writer Isabel Allende's classic novel is both a richly symbolic family saga and the riveting story of an unnamed Latin American country's turbulent history In a triumph of magic realism Allende constructs a spirit-ridden world and fills it with colorful and all too human inhabitants The Trueba family's passions struggles and secrets span three generations and a century of violent social change culminating in a crisis that brings the proud and tyrannical patriarch and his beloved granddaughter to opposite sides of the barricades Against a backdrop of revolution and counterrevolution Allende brings to life a family whose private bonds of love and hatred are more complex and enduring than the political allegiances that set them at odds The House of the Spirits not only brings another nation's history thrillingly to life but also makes its people's joys and anguishes wholly our own

Subversive Silences Helene Carol Weldt-Basson, 2009 Weldt Basson Spanish Wayne State U investigates how seven Latin American women writers of the twentieth and twenty-first centuries have used the concept of submissive silence in their works as a sign of women's rebellion against the passive silence imposed by patriarchy Using different theoretical perspectives in each chapter she demonstrates how Marta Brunet Maria Luisa Bombal Rosario Castellanos Isabel Allende Rosario Ferre Laura Esquivel and Sandra Cisneros have used silence thematically and stylistically through hyperbole coding irony parody and cultural symbol and how silence reflects different time periods and countries
