Reinventing Free Labor Padrones And Immigrant Workers In The North American West 1880 193:

Reinventing Free Labor Gunther Peck,2000-05-22 One of the most infamous villains in North America during the Progressive Era was the padrone a mafia like immigrant boss who allegedly enslaved his compatriots and kept them uncivilized unmanly and unfree In this history of the padrone first published in 2000 Gunther Peck analyzes the figure s deep cultural resonance by examining the lives of three padrones and the workers they imported to North America He argues that the padrones were not primitive men but rather thoroughly modern entrepreneurs who used corporations the labour contract and the right to quit to create far flung coercive networks Drawing on Greek Spanish and Italian language sources Peck analyzes how immigrant workers emancipated themselves using the tools of padrone power to their own advantage **Oral History, Community, and Work in the American West** Jessie L. Embry,2013-10-03 The essays in this volume are case studies of the importance of oral history in understanding community and work in the American West Provided by publisher

The Struggle for Development and Democracy: A General Theory Alessandro Olsaretti,2023-03-13 In The Struggle for Development and Democracy Alessandro Olsaretti argues that we need significantly new theories of development and democracy to answer the problem posed by neoliberalism and the populist backlash namely uneven development and divisive politics heightened by the 9 11 attacks This volume proposes a general theory of development and democracy as part of a unified theory of power emphasizing that development needs markets civil society and the state and also the proper networks and interactions amongst markets civil society and the state Imperialism undermines these interactions and turns countries into providers of cheap land or labour This book begins to sketch the mechanisms at work and to answer one question how did imperialist elites build their power All royalties from sales of this volume will go to GiveWell org in honour of Alessandro Olsaretti s memory

Remembering Iosepa Matthew Kester,2013-02-18 Winner of the Mormon Historical Association Best Community History In the late nineteenth century a small community of Native Hawaiian Mormons established a settlement in heart of The Great Basin in Utah The community was named Iosepa after the prophet and sixth president of the Church of Jesus Christ of Latter day Saints Joseph F Smith The inhabitants of Iosepa struggled against racism the ravages of leprosy and economic depression by the early years of the twentieth century emerging as a modern model community based on ranching farming and an unwavering commitment to religious ideals Yet barely thirty years after its founding the town was abandoned nearly all of its inhabitants returning to Hawaii Years later Native Hawaiian students at nearby Brigham Young University descendants of the original settlers worked to clean the graves of Iosepa and erect a monument to memorialize the settlers Remembering Iosepa connects the story of this unique community with the earliest Native Hawaiian migrants to western North America and the vibrant and growing community of Pacific Islanders in the Great Basin today It traces the origins and growth of the community in the tumultuous years of colonial expansion into the Hawaiian islands as well as its relationship to white Mormons the church leadership and the Hawaiian government In the broadest sense Mathew

Kester seeks to explain the meeting of Mormons and Hawaiians in the American West and to examine the creative adaptations and misunderstandings that grew out of that encounter

Border Citizens Eric V. Meeks, 2019-11-15 In *Border Citizens* historian Eric V Meeks explores how the racial classification and identities of the diverse indigenous mestizo and Euro American residents of Arizona's borderlands evolved as the region was politically and economically incorporated into the United States First published in 2007 the book examines the complex relationship between racial subordination and resistance over the course of a century On the one hand Meeks links the construction of multiple racial categories to the process of nation state building and capitalist integration On the other he explores how the region's diverse communities altered the blueprint drawn up by government officials and members of the Anglo majority for their assimilation or exclusion while redefining citizenship and national belonging The revised edition of this highly praised and influential study features a chapter length afterword that details and contextualizes Arizona's aggressive response to undocumented immigration and ethnic studies in the decade after *Border Citizens* was first published Meeks demonstrates that the broad based movement against these measures had ramifications well beyond Arizona He also revisits the Yaqui and Tohono O'odham nations on both sides of the Sonora Arizona border focusing on their efforts to retain extend and enrich their connections to one another in the face of increasingly stringent border enforcement

The African American Urban Experience J. Trotter, E. Lewis, T. Hunter, 2004-03-17 From the early years of the African slave trade to America blacks have lived and labored in urban environments Yet the transformation of rural blacks into a predominantly urban people is a relatively recent phenomenon only during World War One did African Americans move into cities in large numbers and only during World War Two did more blacks reside in cities than in the countryside By the early 1970s blacks had not only made the transition from rural to urban settings but were almost evenly distributed between the cities of the North and the West on the one hand and the South on the other In their quest for full citizenship rights economic democracy and release from an
