Relations Among Religions Today Moses Jung, 1963

Religion in the 21st Century Lisbet Christoffersen, 2010

Religion in the 21st century is a phenomenon that cannot be taken for granted and is undergoing transformations that present us with new challenges both from a scholarly and societal perspective. The nuanced and multifaceted way in which these features are analyzed in this book should be welcomed by all who are interested and concerned with the role of religion on the contemporary scene. The combination of accessible scholarship and challenging positions makes this a book for everyone who is interested in religion in the secularized parts of the world. The volume contributes to an understanding of how it is not after all a contradiction to be both fully modern and religious. Jan Olav Henriksen, Norwegian School of Theology Oslo, Norway

Religion, International Relations and Development Cooperation Berma Klein Goldewijk, 2023-08-28

Religion is high on the agenda of international politics today. Though there has been a retreat from religion in Europe, the international debate on the meaning and relevance of religion has intensified after the Iranian revolution and has gained new strength with the recent terror attacks, the wars in Iraq and Afghanistan, the proliferation of intrastate conflict and the process of European integration. The issues of secularism and its relationship to democracy, globalization and foreign policy are explored in this book. It is most relevant for politicians, policymakers, academic researchers, non-governmental organisations, peace and development practitioners as well as the media. The book deals with the practical and policy-related consequences of the debate for development organisations and their views on poverty, religion and conflict. The Society for International Development (SID) has brought together eminent international writers and leading authorities in the field of religion coming from different backgrounds and regions. Among the contributors are Peter Berger, Leonardo Boff, Abdullahi An-Na'im, Riffat Hassan, Thomas Pogge, Scott M. Thomas and Jonathan Fox.

The Oxford Handbook of Christianity in

Asia Felix Wilfred, 2014-05-23. Named by the International Bulletin of Missionary Studies as an Outstanding Book of 2014 for Mission Studies. Despite the ongoing global expansion of Christianity, there remains a lack of comprehensive scholarship on its development in Asia. This volume fills the gap by exploring the world of Asian Christianity and its manifold expressions, including worship, theology, spirituality, inter-religious relations, interventions in society and mission. The contributors from over twenty countries deconstruct many of the widespread misconceptions and interpretations of Christianity in Asia. They analyze how the growth of Christian beliefs throughout the continent is linked with the socio-political and cultural processes of colonization, decolonization, modernization, democratization, identity construction of social groups and various social movements. With a particular focus on inter-religious encounters and emerging theological and spiritual paradigms, the volume provides alternative frames for understanding the phenomenon of conversion and studies how the scriptures of other religious traditions are used in the practice of Christianity within Asia.

Gentz, 2013-09-04 This collection of essays by major scholars analyze the religious diversity in Chinese religion bringing together topics from traditional and contemporary contexts and Chinese religions encounters with Western religion *Religion in International Relations* F. Petito, P. Hatzopoulos, 2003-06-13 Are the secular foundations of international relations sustainable at present This comprehensive study shows how the global resurgence of religion confronts international relations theory with a theoretical challenge comparable to that raised by the end of the Cold War or the emergence of globalization The volume tries to shake the secular foundational myths of the discipline and outline the need for an expansion into religiously inspired spheres of thought It also challenges the most condemning accusation against religion the view that the politicization of religion is always a threat to security and inimical to the resolution of conflict Finally the task of demystifying religion is taken further with an argument for a stronger and progressive political engagement of the worldwide religious traditions in the contemporary globalized era

World Christianity and Interfaith Relations Richard F. Religion-State Relations in the United States and Germany Claudia E. Haupt, 2011-12-08 This comparative analysis of the constitutional law of religion state relations in the United States and Germany focuses on the principle of state neutrality A strong emphasis on state neutrality a notoriously ambiguous concept is a shared feature in the constitutional jurisprudence of the US Supreme Court and the German Federal Constitutional Court but neutrality does not have the same meaning in both systems In Germany neutrality tends to indicate more distance between church and state whereas the opposite is the case in the United States Neutrality also has other meanings in both systems making straightforward comparison more difficult than it might seem Although the underlying trajectory of neutrality is different in both countries the discussion of neutrality breaks down into largely parallel themes By examining those themes in a comparative perspective the meaning of state neutrality in religion state relations can be delineated

History and Its Limits Dominick LaCapra, 2011-02-23 Dominick LaCapra's History and Its Limits articulates the relations among intellectual history cultural history and critical theory examining the recent rise of Practice Theory and probing the limitations of prevalent forms of humanism LaCapra focuses on the problem of understanding extreme cases specifically events and experiences involving violence and victimization He asks how historians treat and are simultaneously implicated in the traumatic processes they attempt to represent In addressing these questions he also investigates violence's impact on various types of writing and establishes a distinctive role for critical theory in the face of an insufficiently discriminating aesthetic of the sublime often unreflectively amalgamated with the uncanny In History and Its Limits LaCapra inquires into the related phenomenon of a turn to the postsecular even the messianic or the miraculous in recent theoretical discussions of extreme events by such prominent figures as Giorgio Agamben Eric L Santner and Slavoj Žižek In a related vein he discusses Martin Heidegger's evocative if not enchanting understanding of The Origin of the Work of Art LaCapra subjects to critical scrutiny the sometimes internally divided way in which violence has been valorized in sacrificial regenerative or redemptive terms by a series of important modern intellectuals on both the far right and the far left including Georges Sorel the early Walter Benjamin Georges Bataille Frantz Fanon and Ernst Jünger Violence and victimization are prominent in the relation between the human and the animal LaCapra questions prevalent anthropocentrism evident even in theorists of the posthuman and the long standing quest for a decisive criterion separating or dividing the human from the animal LaCapra regards this attempt to fix the difference as misguided and potentially

dangerous because it renders insufficiently problematic the manner in which humans treat other animals and interact with the environment In raising the issue of desirable transformations in modernity History and Its Limits examines the legitimacy of normative limits necessary for life in common and explores the disconcerting role of transgressive initiatives beyond limits including limits blocking the recognition that humans are themselves animals *Philosophy of Religion in Latin America and Europe* Michael Schulz,Roberto Hofmeister Pich,2021-04-12 The title of this publication suggests a double meaning on the one hand most of the contributions outline philosophies of religion relevant for Latin America without however betraying an explicit Latin American perspective Does not philosophical reason always articulate itself in the same way whether in Berlin or Rio de Janeiro On the other hand the title refers to a specific form of philosophy that has developed regionally and bears explicit traces of its origins that differentiate it from philosophy in Europe Does not philosophical reason always articulate itself in a specific cultural context The charm of the book lies in the encounter of these two variants to think philosophically

Iroquois Religion and Its Relation to Their Morals Morris Wolf,1919 **Theology Relationship of Religions & Philosophy** Andreas Sofroniou,2018-08-09 THEOLOGY RELATIONSHIP OF RELIGIONS AND PHILOSOPHY Theological functions and interests imply that theology can master the disciplines with which it is confronted Theology is based on authority revelation as documented in scriptures of various religions philosophical philological historical studies and hermeneutical critical interpretive questions Theological tasks broaden into a concern with the history and traditions of religions With such approaches difficult and controversial questions arise whether and to what extent the scriptural standards of the sources of revelation are modified by traditions These problems play an important part in the relationship of people cultures and their political philosophies Thus the question of truth posed by theology requires the constitution of a discipline that specifically concerns itself with fundamental questions as is in systematic theology
