Weapons of the Weak James C. Scott,2008-10-01 *Weapons of the Weak* is an ethnography by James C Scott that studies the effects of the Green Revolution in rural Malaysia One of the main objectives of the study is to make an argument that the Marxian and Gramscian ideas of false consciousness and hegemony are incorrect He develops this conclusion throughout the book through the different scenarios and characters that come up during his time of fieldwork in the village This publication based on 2 years of fieldwork 1978 1980 focuses on the local class relations in a small rice farming community of 70 households in the main paddy growing area of Kedah in Malaysia Introduction of the Green Revolution in 1976 eliminated 2 3 of the wage earning opportunities for smallholders and landless laborers The main ensuing class struggle is analyzed being the ideological struggle in the village and the practice of resistance itself consisting of foot dragging dissimulation desertion false compliance pilfering feigned ignorance and sabotage acts Rich and poor are engaged in an unremitting if silent struggle to define changes in land tenure mechanization and employment to advance their own interests and to use values that they share to control the distribution of status land work and grain Raphael's Ostrich Una Roman D'Elia,2016-04-27 Raphael s *Ostrich* begins with a little studied aspect of Raphael s painting the ostrich which appears as an attribute of Justice painted in the Sala di Costantino in the Vatican Una Roman D Elia traces the cultural and artistic history of the ostrich from its appearances in ancient Egyptian hieroglyphs to the menageries and grotesque ornaments of sixteenth century Italy Following the complex history of shifting interpretations given to the ostrich in scientific literary religious poetic and satirical texts and images D Elia demonstrates the rich variety of ways in which people made sense of this living monster which was depicted as the embodiment of heresy stupidity perseverance justice fortune gluttony and other virtues and vices Because Raphael was revered as a god of art artists imitated and competed with his ostrich while religious and cultural critics complained about the potential for misinterpreting such obscure imagery This book not only considers the history of the ostrich but also explores how Raphael s painting forced viewers to question how meaning is attributed to the natural world a debate of central importance in early modern Europe at a time when the disciplines of modern art history and natural history were developing The strangeness of Raphael s ostrich situated at the crossroads of art religion myth and natural history both reveals lesser known sides of Raphael s painting and illuminates major cultural shifts in attitudes toward nature and images in the Renaissance More than simply an examination of a single artist or a single subject Raphael s *Ostrich* offers an accessible erudite and charming alternative to Vasari s pervasive model of the history of sixteenth century Italian art

Hebrew Popular Journalism Ouzi Elyada,2019-06-04 The book examines the birth development and mode of operation

of the Hebrew popular press that progressed in Ottoman Palestine between 1884 and the eruption of World War I in 1914. The inquiry yields a profile of the printers, editors, and journalists and examines the editors' working patterns, the gathering of journalistic information, and distribution of the resulting product in the public sphere. Addressing the fact that nearly all of the Hebrew press in the eighteenth and nineteenth centuries appealed to an elitist intellectual and affluent readership, the book breaks new ground by showing that from the 1880s onward a popular press came into being in Palestine for the first time in the history of the Hebrew press. The focus is on three popular newspapers that evolved in Jerusalem along the lines of the Western popular press. While profiling the readership of the popular Hebrew press, the book also investigates reading practices. Analyzing the contribution of the press to the modernization of the Hebrew language, this pioneering volume is a key resource for students and scholars of communication media and Hebrew studies and media and Jewish history.

The Publishers' Circular and Booksellers' Record, 1908 The Cambridge Companion to Shakespeare on Film, Russell Jackson, 2000-10-26

Film adaptations of Shakespeare's plays are increasingly popular and now figure prominently in the study of his work and its reception. This lively Companion is a collection of critical and historical essays on the films adapted from and inspired by Shakespeare's plays. An international team of leading scholars discuss Shakespearean films from a variety of perspectives as works of art in their own right as products of the international movie industry in terms of cinematic and theatrical genres and as the work of particular directors from Laurence Olivier and Orson Welles to Franco Zeffirelli and Kenneth Branagh. They also consider specific issues such as the portrayal of Shakespeare's women and the supernatural. The emphasis is on feature films for cinema rather than television, with strong coverage of *Hamlet*, *Richard III*, *Macbeth*, *King Lear*, and *Romeo and Juliet*. A guide to further reading and a useful filmography are also provided.
