Moral Relativism Steven Lukes, 2011-05-26 Do we as humans have no shared standards by which we can understand each other Do we truly have divergent views about what constitutes good and evil harm and welfare dignity and humiliation or is there some underlying commonality that wins out These questions show up everywhere from the debate over female circumcision to the UN Declaration of Human Rights They become ever more pressing in an age of mass immigration religious extremism and the rise of identity politics So by what right do we judge particular practices as barbaric Who are the real barbarians This provocative book takes an enlightening look at what we believe why we believe it and whether there really is an irreparable moral discord between us and them **Ethical Relativism and Universalism** Saral

Jhingran, 2001-01-01 The present work addresses itself to one of the most hotly debated issues in contemporary ethics relativism Relativism has become a formidable argument in Western socio moral thought under the impact of postmodern writings The author presents a detailed critique of various relativist and postmodernist theses without rejecting some of their empirically justified observations She underscores the fact that the intercultural communication which has been going on since time immemorial puts a question mark to the postmodernist theories of indeterminacy of translation incommensurability of various conceptual frameworks etc The author supports cognitivism in ethics according to which the moral properties of the object of moral judgement do in some way determine or cause that judgment This view is not to be confused with any realist ontological commitment She asserts that universalizability is the necessary condition of all rational judgments including the moral ones The author also discusses the relationship between self and others and in this context she draws upon the insights of ancient Indian thinkers She proposes that minimum moral principles and maxims can be agreed upon through reasoning and intercultural discourse Rationality, Relativism and the Human Sciences Joseph
