

Relevance Of Metaethics To Ethics

T. Tannsjo

Relevance Of Metaethics To Ethics:

The Relevance of Metaethics to Ethics Torbjörn Tännsjö, 1976 **On the Relevance of Metaethics** Jocelyne Couture, Kai Nielsen, 1996 In this collection of original essays on metaethics the nature of morality and the structure of moral reasoning are characterized the limits of justification in ethics are examined and the underlying rationale of moral philosophy is probed Around mid century metaethics held centre stage in discussions of moral philosophy in Anglo American and Scandinavian philosophical environments During the 1970s its foundational position was challenged by developments within analytic philosophy itself by a renewal of systematic substantive ethics largely but not exclusively of a Rawlsian inspiration and by a reinvigorated interest in substantive moral problems on the part of philosophers However as work went on here philosophers encountered problems concerning the methods of moral reasoning and the structure of justification of moral claims that were recognized to be metaethical This led to a renewal of metaethics now freed from its previously narrow linguistic focus and aprioristic restrictions The essays in this volume contribute both to this renewal and to a continued skeptical probing of the very rationale of moral philosophy Relevance of Metaethics to Ethics T. Tännsjö, 1976 **The Relevance Of Metaethics to Ethics** Torbjörn Tännsjö, 1976 **The Relevance Of Metaethics to Ethics** Torbjörn Tännsjö, 1972 *Meta-Ethics and Normative Ethics* H. J. McCloskey, 2013-11-21 The purpose of this work is to develop a general theory of ethics which explains the logical status of moral judgments and the nature of the general principles which we should adopt and on the basis of which we should act The enquiry into the logical function of moral judgments is entered into as important in its own right and as a preliminary to the normative enquiry for it is on the basis of our conclusions in the area of meta ethics that we determine the appropriate method of reaching our normative ethic The approach followed in the meta ethical enquiry is that of examining theories of the past and present with a view to seeing why and in what respects they fall in particular what features of moral discourse are not adequately explained or accommodated by them A positive theory which seeks to take full account of these and other logical features of moral discourse is then developed in terms of a modified intuitionism of the kind outlined by W D Ross good being explained as the name of a consequential property right in terms of moral suitability and moral obligations as consisting in our being constrained to act in certain ways by facts we apprehend to constitute moral reasons which constrain us so to act **What is this Thing Called Metaethics?** Matthew Chrisman, 2016-11-10 Are moral standards relative to cultures Are there any moral facts What is goodness If there are moral facts how do we learn about them These are all questions in metaethics the branch of ethics that investigates the status of morality the nature of ethical facts and the meaning of ethical statements To the uninitiated it can appear abstract and far removed from its two more concrete cousins ethical theory and applied ethics yet it is one of the fastest growing and most exciting areas of ethics What is this thing called Metaethics demystifies this important subject and is ideal for students coming to it for the first time Beginning with a brief historical overview of metaethics and the development of a conceptual

toolkit Matthew Chrisman introduces and assesses the following key topics ethical reality including questions about naturalism and non naturalism moral facts and the distinction between realism and antirealism ethical language does language represent reality What mental states are expressed by moral statements ethical psychology the Humean theory of motivation and the connection between moral judgement and motivation ethical knowledge intuitionist and coherentist moral epistemologies and theories of objectivity and relativism in metaethics new directions in metaethics including non traditional theories and extensions to metaepistemology and metanormative theory Additional features such as chapter summaries questions of understanding and a glossary make this an ideal introduction to metaethics Metaethics After Moore Terry Horgan, Mark Timmons, 2006-01-26 Metaethics is concerned to answer second order non moral questions about the semantics metaphysics and epistemology of moral thought and discourse and is often traced to G E Moore work These essays represent the most up to date work in the field after and in some cases directly inspired by Moore *Value, Obligation, and Meta-Ethics* Robin Attfield, 2020-10-12 This work defends an interrelated set of theses in value theory normative ethics and meta ethics The three Parts correspond to these three areas Part One Value defends a biocentric theory of moral standing and then the coherence and objectivity of belief in intrinsic value despite recent objections Intrinsic value is located in the flourishing of living creatures specifically a neo Aristotelian species relative account is supplied of wellbeing or flourishing in terms of the development of the essential capacities of one s species There follows a theory of priorities or of relative intrinsic value in which the satisfaction of basic needs takes priority over other needs and over wants and the interests of complex and sophisticated creatures over those of others where they are at stake Part Two defends a practice consequentialist theory of the criteria of rightness and of obligation which leaves room for supererogation underpins our intuitions about justice commends population growth only where it is genuinely desirable and responds better than act consequentialism to objections like that concerned with the separateness of persons Part Three sifts meta ethical theories rejects moral relativism and defends a cognitivist and naturalist meta ethic In defending analytical naturalism it takes into account the latest literature on supervenience By responding to recent discussions this study supersedes my Theory of Value and Obligation 1987 It is equipped with detailed end notes and an ample bibliography which could prove a research tool of itself **Psalmody and Poetry in Old Testament Ethics** Dirk J. Human, 2012-10-25 Questions arise from scholarly debate in Hebrew Bible ethics such as what is Old Testament ethics what is the object of study what are the methods involved and how normative are Old Testament ethics for modern contexts These questions advance crucial issues in the quest for understanding ethics of the ancient Hebrew mind and the problem of how to contextualize them in modern contexts This book begins by exploring the relationship between the Old Testament and Ethics as well as a philosophical discussion on meta ethical presuppositions on divinity and morality in the Psalter The main part of the book reflects analyses of specific psalms Pss 16 34 50 72 104 and 133 The core of this section reflects an illustration of psalm texts with the thematic focus on

Hebrew ethical thinking Included are a few contextual contributions discussing relevant ethical issues in Africa from an African perspective In the final section two exemplary poetic texts from the Pentateuch Deut 32 and the Prophets Jer 5 reverberate ethical thinking from other parts of the Hebrew canon *The Ethics of Nonviolence* Robert L.

Holmes,2013-06-20 Robert Holmes is one of the leading proponents of nonviolence in the United States and his influence extends to the rest of the world However he has never presented his views on nonviolence in full length book form *The Ethics of Nonviolence* brings together his best essays on the topic both classic works and more obscure pieces as well as several important essays that have never been published Holmes started his career by following Dewey and James and then turned toward metaethics The Vietnam War finally led him toward moral problems related to war and violence For the last forty years he has been a great proponent of nonviolence and pacifism in the style of Tolstoy and Gandhi If ethics is meant to be more than a purely academic exercise the theoretical ethics of philosophy must be shown to be relevant to applied morality the ongoing process of making moral judgments must add value to the world we live in For Robert Holmes no aspect of reality is more in need of ethical thinking and reform than the culture of war and violence that cannot be ignored There are morally viable alternatives to this violence Holmes argues and he scrutinizes the sources and implications of such positions Holmes shows that nonviolence and pacifism can lead us toward a more peaceful and humanely dignified world *Key*

Terms in Ethics Oskari Kuusela,2010-11-04 The book offers a comprehensive overview of the key terms concepts thinkers and major works in the history of this key area of philosophical thought An indispensable compass for students coming to the subject for the first time and a very handy for more advanced undergraduate students as a reference tool *AI Ethics* Paula

Boddington,2023-03-30 This book introduces readers to critical ethical concerns in the development and use of artificial intelligence Offering clear and accessible information on central concepts and debates in AI ethics it explores how related problems are now forcing us to address fundamental age old questions about human life value and meaning In addition the book shows how foundational and theoretical issues relate to concrete controversies with an emphasis on understanding how ethical questions play out in practice All topics are explored in depth with clear explanations of relevant debates in ethics and philosophy drawing on both historical and current sources Questions in AI ethics are explored in the context of related issues in technology regulation society religion and culture to help readers gain a nuanced understanding of the scope of AI ethics within broader debates and concerns Written with both students and educators in mind the book is easy to use with key terms clearly explained and numerous exercises designed to stretch and challenge It offers readers essential insights into the evolving field of AI ethics Moreover it presents a range of methods and strategies that can be used to analyse and understand ethical questions which are illustrated throughout with case studies **The Importance of Codes of Ethics: Examination**

of the Need of Business Ethics and the Efficient Usage of Codes of Ethics for Good Corporate Governance Anna

Mika,2012-03-01 The purpose of this paper is to analyse the importance of ethics in today s business The concept of business

ethics which has been debated since the beginnings of trade seems to be an oxymoron and the attention this controversial topic drew increased strongly in the last years The changing relationships between the legislative role of governments and the regulations by businesses emphasize the important role of enterprises in the global economy In this paper the change in business ethics and their main impacts will be discussed as well as the influence of codes of ethics as an instrument of business ethics

Covenantal Biomedical Ethics for Contemporary Medicine James J. Rusthoven, 2014-04-29

Principles based biomedical ethics has been a dominant paradigm for the teaching and practice of biomedical ethics for over three decades Attractive in its conceptual and linguistic simplicity it has also been criticized for its lack of moral content and justification and its lack of attention to relationships This book identifies the modernist and postmodernist worldviews and philosophical roots of principlism that ground the moral minimalism of its common morality premise Building on previous work by prominent Christian bioethicists an alternative covenantal ethical framework is presented in our contemporary context Relationships constitute the core of medicine and understanding the ethical meaning of those relationships is important in providing competent and empathic care While the notion of covenant is articulated through the richness of meaning taught in the Christian Scriptures covenantal commitment is also appreciated in Islamic Jewish and even pagan traditions as well In a world of increasing medical knowledge and consequent complexity of care such commitment can help to resist enticements toward the pursuit of self interest It can also improve relationships among caregivers each of whose specific expertise must be woven into a matrix of care that constitutes optimal medical practice for each vulnerable and needy patient

Comparative Metaethics Colin Marshall, 2019-10-10 This collection of original essays explores

metaethical views from outside the mainstream European tradition The guiding motivation is that important discussions about the ultimate nature of morality can be found far beyond ancient Greece and modern Europe The volume's aim is to show how rich the possibilities are for comparative metaethics and how much these comparisons offer challenges and new perspectives to contemporary analytic metaethics Representing five continents the thinkers discussed range from ancient Egyptian ancient Chinese and the Mexican Aztec cultures to more recent thinkers like Augusto Salazar Bondy Bimal Krishna Matilal Nishida Kitaro and Susan Sontag The philosophical topics discussed include religious language moral discovery moral disagreement essences relation to evaluative facts metaphysical harmony and moral knowledge naturalism moral perception and quasi realism This volume will be of interest to anyone interested in metaethics or comparative philosophy

Taking Morality Seriously David Enoch, 2011-07-28 David Enoch develops argues for and defends Robust Realism a strongly realist and objectivist view of ethics and normativity according to which there are perfectly universal and objective moral truths He offers elaborate positive arguments for the view and asserts that no other metaethical position can vindicate our taking morality seriously

The Routledge Guidebook to Moore's Principia Ethica Susana Nuccetelli, 2021-11-16 G E Moore's

Principia Ethica is a landmark publication in twentieth century moral philosophy Through focusing on the origin and

evolution of his main doctrines this guidebook makes it clear that Moore was an innovator whose provocative take on traditional philosophical problems ignited heated debates among philosophers *Principia Ethica* is an important text for those attempting to understand and engage with some major philosophical debates in ethics today The Routledge Guidebook to Moore's *Principia Ethica* provides a comprehensive introduction to this historic text examining key Moorean themes including ethical non naturalism the naturalistic fallacy the Open Question Argument moral ontology and epistemology ideal utilitarianism vindictive punishment and organicity moral intuition for epistemic justification in ethics theory of value Ideal for anyone wanting to understand and gain perspective on Moore's seminal work the book is essential reading for students of moral philosophy metaethics normative ethics philosophical analysis and related fields *Rethinking Virtue Ethics* Michael Winter, 2011-09-06 *Rethinking Virtue Ethics* offers a model of Aristotelian virtue ethics based on a deductive paradigm This book argues that contrary to what many contemporary thinkers are inclined to believe Aristotelian virtue ethics is consistent with at least some action guiding moral principles being true unconditionally and that a justification for general moral principles can be grounded in fundamental concepts within Aristotle's theory An analysis of ethical propositions that hold for the most part is proposed that fits well within the deductive paradigm developed This unique interpretation of virtue ethics has implications for recent discussions of the virtues in social psychology issues about how fundamental moral principles are known questions about the justification of inalienable rights debates about moral particularism and generalism and discussions of moral realism and anti realism **The Routledge Handbook of Metaethics** Tristram McPherson, David Plunkett, 2017-08-24 This Handbook surveys the contemporary state of the burgeoning field of metaethics Forty four chapters all written exclusively for this volume provide expert introductions to the central research programs that frame metaethical discussions the central explanatory challenges resources and strategies that inform contemporary work in those research programs debates over the status of metaethics and the appropriate methods to use in metaethical inquiry This is essential reading for anyone with a serious interest in metaethics from those coming to it for the first time to those actively pursuing research in the field

Right here, we have countless ebook **Relevance Of Metaethics To Ethics** and collections to check out. We additionally have the funds for variant types and then type of the books to browse.
