Religion And Morality In American Schooling:

Religion and Morality in American Schooling Thomas C. Hunt, Marilyn M. Maxson, 1981-06 *Whose Kids Are They Anyway?* Raymond R. Roberts, 2010-11-01 Raymond R Roberts makes a liberal s case for teaching religion and morality in public schools by first examining the intersection of religion and public education He shows how proposals for moral education in public schools are shaped by definitions of religion He argues that the public education s critics overstate the failures of public education because they examine public schools in isolation from negative trends in the family the economy the media etc From there he describes how a theory of spheres of influence gives us a better perspective from which to understand public education including its relationship with religion Religion and Schooling in Contemporary America Thomas C. Hunt, James C. Carper, 2013-10-18 With articles dealing with denomination law public policy and financing this anthology grants an evenhanded view of the impact of religion on our nation s public schools Religion and American Education Warren A. Nord, 2014-07-01 Warren Nord s thoughtful book tackles an issue of great importance in contemporary America the role of religion in our public schools and universities According to Nord public opinion has been excessively polarized by those religious conservatives who would restore religious purposes and practices to public education and by those secular liberals for whom religion is irrelevant to everything in the curriculum While he maintains that public schools and universities must not promote religion he also argues that there are powerful philosophical political moral and constitutional reasons for requiring students to study religion Indeed only if religion is included in the curriculum will students receive a truly liberal education one that takes seriously a variety of ways of understanding the human experience Intended for a broad audience Nord s comprehensive study encompasses American history constitutional law educational theory and practice theology philosophy and ethics It also discusses a number of current controversial issues including multiculturalism moral education creationism academic freedom and the voucher and school choice movements **The Disaster of the Absence of Moral and Religious Education in the American Public Schools** Christopher Ezech, 2010-10-20 Thomas Aquinas in his philosophy of religion said that man is a religious being homo religiosus By this he meant that man is a being that naturally stretches to the beyond to the unknown outside of himself He yearns and reaches out for an infinite peace joy and happiness He does all within his power to grasp an endless happiness a joy that knows no end This has been his instinctive conscious and unconscious aspiration He tends to pursue and grab that which captures his attention and wins his admiration Many a time he ends up grabbing a shadow an illusion of real happiness an illusion of the source of true and lasting happiness When he grabs that shadow he settles to worship it as the ultimate source of an infinite happiness It will not be long before he discovers that it is all a mirage This ultimate joy and happiness is not found within mans immediate environment because whatever he clings to seems to fail in providing such ultimate joy peace and happiness which men by nature tend to yearn and long for Man has always interpreted peace joy happiness and their sources differently

Thus his beliefs and objects of worship devotion and dedication vary one from another hence the reason for different world religions and creeds today Christianity Judaism Islam Buddhism atheism etc To say that man is a religious being implies that naturally man always believes in and worships something Hence there can never be an atheist in the real sense of it Not to believe is to believe For example not to believe in the existence of God is to believe that God does not exist Even though some people do not believe in the existence of a personal God or god they still believe in something which could be anything money freedom wealth riches power beauty achievement talent name it Just as our ancient fathers believed in carved idols as gods and worshipped them so do people in the modern time hold on tenaciously to all kinds of idols in the form of money beauty wealth riches power achievement talent etc and worship them as gods and hope that someday these might give them an endless peace and happiness which have been the ultimate end of mans endeavor or pursuit on earth This false hope of mans longing to achieve endless peace and happiness from material possessions or natural endowment explains itself in some ancient cultures whereby the dead are buried along with some of their possessions including gold money slaves etc The fact that people of outstanding talents riches and wealth have committed suicide has put a big question mark to this erroneous ideology that happiness could be achieved through material possession What was wrong in the lives of those affluent and talented people who killed themselves contrary to all instincts of self preservation What was missing in their lives that none of their material acquisitions or achievements could satiate or afford Man longs for lasting happiness He has the capacity to conceive and yearn for infinite happiness Hence he does not want to be happy today and sad tomorrow But how would he achieve that joy or happiness that has no end which has always remained mans unrealized dream No branch of discipline or knowledge has been able to provide an answer and a remedy to mans natural longing for endless joy lasting peace and happiness but religion Religion has an answer a remedy and a hope In this book I will demonstrate how religion provides an answer a remedy and a hope for mans ultimate search and yearning for lasting peace and happiness in his life and in the society in which he lives I will explore the idea that man is a spiritual as well as a religious being I will also delve into how his natural endowment with freedom intellect and will enables him to express his religiosity I will further demonstrate how the misinterpretation and misapplication

Religious Freedom in American Education Joseph Henry Crooker, 1903

Building An Ethical School Robert J. Starratt, 2005-06-21 The author argues for much greater attention to ethical education and responds to sceptics who say that it can t be done in the face of a pluralistic secular society badly fragmented over values Seeking always for themes and issues that unite rather than divide the author provides a conceptual foundation for ethical education broad enough for building consensus among teachers and parents yet focused enough to provide guidance for highly specific learning activities The second half of the book takes the reader through a carefully devised series of steps by which a school community might proceed in building their ethical school The final chapter reminds of the many difficulties to be met along the way but offers encouragement to strengthen the resolve of the school community The book concludes with two helpful appendices the first provides detailed

information on exiting initiatives already underway in ethical education the second offers an annotated bibliography of books and essays which are available for those educators who need or want to read more on the topic of ethical education

Faith, Morality, and Civil Society Dale McConkey, Peter Augustine Lawler, 2003-06-05 In this rich collection of essays editors Dale McConkey and Peter Augustine Lawler explore the contributions that religious faith and morality can make to a civil society Though the level of religious expression has remained high in the United States the shift from traditional religious beliefs to a far more individualized style of faith has led many to contend that no faith commitment collective or personal should contribute to the vibrancy of a civil democratic society Challenging those who believe that the private realm is the only appropriate locus of religious belief the contributors to this volume believe that religion can inform and invigorate the secular institutions of society such as education economics and politics Drawn from a wide variety of religious and moral traditions these diverse essays show from many perspectives the important contribution religion has to make in the public square that is civil society *America*, 1924 The Jesuit review of faith and culture Nov 13 2017 **Bibliography of**
