Religion And Conservation:

Faith in Conservation Martin Palmer, Victoria Finlay, 2003-01-01 This book arising from over twenty years experience of working with the world's major faiths draws extensively upon joint World Bank and ARC Alliance of Religion and Conservation WWF World Wildlife Fund for Nature projects world wide It shows through stories land management myths investment policies legends advocacy and celebration the role the major faiths have do and can play in making the world a better place The major faiths are the oldest institutions in the world and have survived essentially because they are constantly evolving and changing There is much to be learnt by newer institutions such as the World Bank and the multitudes of NGOs about how to remain true to what you believe but change and grow as you develop The book explores issues of climate change forestry asset management education and biodiversity protection and does so using the techniques of the great faiths storytelling example and celebration It reveals a variety of world views and it asks us to see that our personal view may be just one amongst many The challenge of living with integrity in a pluralist world underlies the book and it offers models of how diversity is crucial in attempting to ensure we have a sustainable world **Religion and Nature**

Conservation Radhika Borde, Alison A Ormsby, Stephen M Awoyemi, Andrew G Gosler, 2022-10-31 This book presents a broad array of global case studies exploring the interaction between religion and the conservation of nature from the viewpoints of the religious practitioners themselves With conservation and religion often being championed as allies in the quest for a sustainable world where humans and nature flourish this book provides a much needed compendium of detailed examples where religion and conservation science have been brought together Case studies cover a variety of religions faiths and practices including traditional Indigenous Buddhism Christianity Hinduism Islam Jainism Judaism Shinto and Zoroastrianism Importantly this volume gives voice to the religious practitioners and adherents themselves Beyond an exercise in anthropology ethnobiology and comparative religion the book is an applied work seeking the answer to how in a world of nearly eight billion people we might help our own species to prevent the extinction of life This book will be of great interest to students and scholars of nature conservation environment and religion cultural geography and ethnobiology as well as practitioners and professionals working in conservation Religion and Conservation ,1999 Contributed essays released on the occasion of the National Consultation on Religion and Conservation at New Delhi on 21 April 1999

Earth and Faith Libby Bassett, John T. Brinkman, Kusumita Priscilla Pedersen, 2000 **Faiths in Green** Lukas Szrot, 2021-05-03 Faiths in

Green addresses the complex and fraught relationship between religious identity and environmental concern in the United States particularly how that relationship has changed over time Examining the effects of religious upbringing belonging and disaffiliation on environmental concern across multiple religious groups over several decades the author shows where when how and why religious groups and their memberships have responded constructively to environmental change over time The author also visits the effects of gender social class race and politics on both religion and environmental concern in the U S

Faiths in Green offers an in depth and accessible guide to understanding the at times incongruous relationship between religious beliefs and motivations as well as ways to follow cultural shifts that both drive and are driven by religious persons and institutions In examining how religious and cultural factors are linked to environmental concern over time Faiths in Green demonstrates the importance of morality and worldviews in confronting global hazards of unprecedented scale

Religion and Environmentalism Lora Stone,2020-07-01 A foundational resource for readers investigating religiously motivated environmentalism this book provides both a global overview of the subject and a detailed discussion of key figures concepts organizations events and documents Beginning in the late 1960s a growing number of activists scholars and scientists asserted that traditional religions had been major contributors to the environmental crisis In response theologians religious organizations and religiously motivated activists became increasingly involved in environmental issues At the same time emerging nature based belief systems emphasized values and lifestyles based in environmentalism More recently religiously motivated environmentalism has become a powerful force in shaping environmental policy and human action globally and has joined with secular environmentalism to address related issues This book explores the background and current state of religious environmentalism The book begins with an overview essay examining the history and context of religious environmentalism and its significance today A chronology then profiles the most important events related to religious environmentalism A section of more than 50 alphabetically arranged reference entries follows with each entry providing objective information about people places events movements works and other topics The entries include cross references and suggestions for further reading and the book closes with a selected annotated bibliography of major works

Encyclopedia of Religion and Nature Bron Taylor,Jeffrey Kaplan,2005-01-01 No Marketing Blurb **Ethics, Religion and Biodiversity** Lawrence S. Hamilton,1993 Holy Ground Jo Edwards,Martin Palmer,1997 **The Good in Nature and Humanity** Stephen R. Kellert,Timothy Farnham,2013-04-10 Scientists theologians and the spiritually inclined as well as all those concerned with humanity s increasingly widespread environmental impact are beginning to recognize that our ongoing abuse of the earth diminishes our moral as well as our material condition Many people are coming to believe that strengthening the bonds among spirituality science and the natural world offers an important key to addressing the pervasive environmental problems we face The Good in Nature and Humanity brings together 20 leading thinkers and writers including Ursula Goodenough Lynn Margulis Dorion Sagan Carl Safina David Petersen Wendell Berry Terry Tempest Williams and Barry Lopez to examine the divide between faith and reason and to seek a means for developing an environmental ethic that will help us confront two of our most imperiling crises global environmental destruction and an impoverished spirituality The book explores the ways in which science spirit and religion can guide the experience and understanding of our ongoing relationship with the natural world and examines how the integration of science and spirituality can equip us to make wiser choices in using and managing the natural environment The book also provides compelling stories that offer a narrative

understanding of the relations among science spirit and nature Grounded in the premise that neither science nor religion can by itself resolve the prevailing malaise of environmental and moral decline contributors seek viable approaches to averting environmental catastrophe and more positively to achieving a more harmonious relationship with the natural world By bridging the gap between the rational and the religious through the concern of each for understanding the human relation to creation The Good in Nature and Humanity offers an important means for pursuing the quest for a more secure and meaningful world

Biodiversity Conservation Ethics in Major Religions H. S. A. Yahya, 2010-10-22 Covering three broader issues biodiversity conservation religious doctrine and environment the book Biodiversity Conservation Ethics in Major Religions is the result of a unique approach It attempts to initiate scientific discourse through the fabric of religions Spread across 15 chapters the book covers the essence of 10 religions on biodiversity encompassing a wide range of issues related to conservation The book promises to be a useful resource for biodiversity students researchers and protected area managers and also for religious scholars who are invited to look at the broader themes of religions beyond theology

Routledge Handbook of Religion and Ecology Willis J. Jenkins, Mary Evelyn Tucker, John Grim, 2016-07-22 The moral values and interpretive systems of religions are crucially involved in how people imagine the challenges of sustainability and how societies mobilize to enhance ecosystem resilience and human well being The Routledge Handbook of Religion and Ecology provides the most comprehensive and authoritative overview of the field It encourages both appreciative and critical angles regarding religious traditions communities attitude and practices It presents contrasting ways of thinking about religion and about ecology and about ways of connecting the two terms Written by a team of leading international experts the Handbook discusses dynamics of change within religious traditions as well as their roles in responding to global challenges such as climate change water conservation food and population It explores the interpretations of indigenous traditions regarding modern environmental problems drawing on such concepts as lifeway and indigenous knowledge This volume uniquely intersects the field of religion and ecology with new directions within the humanities and the sciences This interdisciplinary volume is an essential reference for scholars and students across the social sciences and humanities and for all those looking to understand the significance of religion in environmental studies and policy

Religion and Sustainability Lucas F. Johnston, 2014-10-20 Sustainability is now key to international and national policy manufacture and consumption It is also central to many individuals who try to lead environmentally ethical lives Historically religion has been a significant part of many visions of sustainability Pragmatically the inclusion of religious values in conservation and development efforts has facilitated relationships between people with different value structures Despite this little attention has been paid to the interdependence of sustainability and religion and no significant comparisons of religious and secular sustainability advocacy Religion and Sustainability presents the first broad analysis of the spiritual dimensions of sustainability oriented social movements Exploring the similarities and differences between the conceptions of sustainability held by religious interfaith

and secular organizations the book analyses how religious practice and discourse have impacted on political ideology and process

The Spirit of Sustainability Willis Jenkins, Whitney Bauman, 2009-11-01 The Spirit of Sustainability helps readers navigate the moral worlds and ethical concepts and social and religious practices related to sustainability In collaboration with the Forum on Religion and Ecology an established network of leading scholars it explores a wide range of topics and perspectives from the promise and problems of approaching sustainability through global and indigenous religions to major theories in philosophy and environmental ethics and professional practices and social movements This volume presents the various goals of sustainability ecological integrity economic health human dignity fairness to the future and social justice and provides a framework for reasoning through many interrelated environmental challenges for both current and future generations

Replenish the Earth Lewis Regenstein, 1991

Muslim Environmentalisms Anna M. Gade, 2019-08-20 How might understandings of environmentalism and the environmental humanities shift by incorporating Islamic perspectives In this book Anna M Gade explores the religious and cultural foundations of Islamic environmentalisms She blends textual and ethnographic study to offer a comprehensive and interdisciplinary account of the legal ethical social and empirical principles underlying Muslim commitments to the earth Muslim Environmentalisms shows how diverse Muslim communities and schools of thought have addressed ecological questions for the sake of this world and the world to come Gade draws on a rich spectrum of materials scripture jurisprudence science art and social and political engagement as well as fieldwork in Indonesia and Southeast Asia The book brings together case studies in disaster management educational programs international development conservation projects religious ritual and performance and Islamic law to rethink key theories Gade shows that the Islamic tradition leads us to see the environment as an ethical idea moving beyond the established frameworks of both nature and crisis Muslim Environmentalisms models novel approaches to the study of religion and environment from a humanistic perspective reinterpreting issues at the intersection of numerous academic disciplines to propose a postcolonial and global understanding of environment in terms of consequential relations

Sacred Natural Sites Bas Verschuuren, Robert Wild, Jeffrey Mcneely, Gonzalo Oviedo, 2012-06-25 Sacred Natural Sites are the world's oldest protected places This book focuses on a wide spread of both iconic and lesser known examples such as sacred groves of the Western Ghats India Sagarmatha Chomolongma Mt Everest Nepal Tibet and China the Golden Mountains of Altai Russia Holy Island of Lindisfarne UK and the sacred lakes of the Niger Delta Nigeria The book illustrates that sacred natural sites although often under threat exist within and outside formally recognised protected areas heritage sites Sacred natural sites may well be some of the last strongholds for building resilient networks of connected landscapes They also form important nodes for maintaining a dynamic socio cultural fabric in the face of global change The diverse authors bridge the gap between approaches to the conservation of cultural and biological diversity by taking into account cultural and spiritual values together with the socio economic interests of the custodian communities and other relevant stakeholders

Encyclopedia of Religion and Nature: K-Z Bron Raymond Taylor, Jeffrey Kaplan, 2005 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com/ern this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses

Pilgrims and Pilgrimages as Peacemakers in Christianity, Judaism and Islam Antón M. Pazos, 2016-04-08 Pilgrimages can be analysed as acts of conflict such as the Crusades or also as platforms for relationship building and rapprochement between religions With a set of contributions from leading experts in the field this book explores the concept of pilgrimage in Christianity Judaism and Islam Some specific examples of pilgrimages that helped to strengthen links between different religions or civilisations are explored ranging from Europe to Asia and from the Middle Ages to the twentieth century Even though every pilgrimage that is investigated here has helped to link different worlds the case studies show that this relationship rarely led to a better inter understanding Nowadays peaceful coexistence seems to be its greatest achievement
