The Food and Drink of Sydney Heather Hunwick,2018-03-22 Sydney famed for its setting and natural beauty has fascinated from the day it was conceived as an end of the world repository for British felons to its current status as one of the world s most appealing cities This book recounts and celebrates the central role food has played in

shaping the city's development from the time of first human settlement to the sophisticated open and cosmopolitan metropolis it is today. The reader will learn of the Sydney region's unique natural resources and come to appreciate how these shaped food habits through its pre history and early European settlement, how its subsequent waves of immigrants enriched its food scene, its love/hate relationship with alcohol, its markets, restaurants and other eateries, and how Sydneysiders old and new eat at home. The story concludes with a fascinating review of the city's many significant cookbooks and their origins, and some iconic recipes relied upon through what is for a global city a remarkably brief history. **Bon Appétit**, 2004

Possum Pie, Beetroot Beer and Lamingtons Victoria Heywood, 2011. POSSUM PIE BEETROOT BEER AND LAMINGTONS brings together around 500 lost recipes from the Australia of yesterday gathered from farmhouse attics, dusty archives, long defunct magazines and newspapers, family bookshelves, private and state collections. Beautifully designed with a nostalgic feel and illustrated with advertisements of the day, it brings to life what we ate when, from the days of early settlement through two World Wars, The Great Depression and days of rationing right up to the heady days of the 1950s when the good housewife reigned supreme. Sprinkled with hilarious advice from the time, Possum Pie, BEETROOT BEER AND LAMINGTONS pulls some marvellous old recipes out of oblivion. It also details recipes for some dishes that, because of modern tastes and diets, have been deservedly lost. Jottings in the margin explain some of the more esoteric ingredients and suggest modern replacements and equivalents.
