Singing The Vietnam Blues:

Singing the Vietnam Blues Joseph F. Tusso, 1990 The songs of the U S Air Force flyers during the Vietnam War written in the cryptic language of pilots and navigators aloft in their beasts a dozen angels up in the sky uniquely reflect the stark emotions and black humors of that ill fated war Veteran navigator Joseph F Tusso spent fifteen years collecting the lyrics for more than a hundred songs written or sung by U S Air Force flyers from about 1966 through 1969 Many of the songs authors are unknown But their lyrics even such jarring lines as those of Chocolate covered Napalm often are set to popular melodies such as The Wabash Cannonball Some songs have original tunes as well Twenty five of the 148 songs whose lyrics are included here were written by Dick Jonas the premier songwriter of the Vietnam era Air Force Many other songs appear in print for the first time Singing the Vietnam Blues begins with a personal overture that sets the stage for a play of war evoked emotions and lines that are less than sacred more than profane and sometimes poignant Some songs such as the Phu Cat Alert Pad are based on historical events while others have their origins in popular myths such as Wolf Pack s Houseboy Whatever the direct source of the songs it is the daily combat rescue or transport missions the possibility of death and the fear bravado and competition between pilots navigators planes and enemy flyers or bandits that generated the lyrics Most songs are preceded by Tusso s explanation of each song s origin other versions references to current events or inside jokes and sometimes personal insights and memories A glossary is also included

Flying Camelot Michael W. Hankins, 2021-12-15 Winner of the Gardner Lasser Aerospace History Literature Award Flying Camelot brings us back to the post Vietnam era when the US Air Force launched two new state of the art fighter aircraft the F 15 Eagle and the F 16 Fighting Falcon It was an era when debates about aircraft superiority went public and these were not uncontested discussions Michael W Hankins delves deep into the fighter pilot culture that gave rise to both designs showing how a small but vocal group of pilots engineers and analysts in the Department of Defense weaponized their own culture to affect technological development and larger political change The

design and advancement of the F 15 and F 16 reflected this group's nostalgic desire to recapture the best of World War I air combat. Known as the Fighter Mafia and later growing into the media savvy political powerhouse Reform Movement, it believed that American weapons systems were too complicated and expensive and thus vulnerable. The group's leader was Colonel John Boyd, a contentious former fighter pilot heralded as a messianic figure by many in its ranks. He and his group advocated for a shift in focus from the multi role interceptors the Air Force had designed in the early Cold War towards specialized air to air combat dogfighters. Their influence stretched beyond design and into larger politicized debates about US national security debates that still resonate today. A biography of fighter pilot culture and the nostalgia that drove decision making, *Flying Camelot* deftly engages both popular culture and archives to animate the movement that shook the foundations of the Pentagon and Congress.

The Fall of America Allen Ginsberg, 1983. This collection is characterized by a prophetic tone inspired by William Blake and Walt Whitman as well as an objective view characterized by William Carlos Williams. The content is more overtly political than most of his previous poetry, with many of the poems about Ginsberg's condemnation of America's actions in Vietnam. Current events such as the Moon Landing and the 1968 Democratic National Convention, the death of Che Guevara, and personal events such as the death of Ginsberg's friend and former lover Neal Cassady are also topics.
