Memorial Candles Children Of The Holocaust:

Memorial Candles: Children of the Holocaust Dina Wardi, 2014-02-04 As the children of the Holocaust reach adulthood they often need professional help in establishing a new identity and self esteem During their childhood their parents have unconsciously transmitted to them much of their own trauma investing them with all their memories and hopes so that they become memorial candles to those who did not survive The book combines verbatim transcriptions of dialogues in individual and group psychotherapy sessions with analyses of dreams fantasies and childhood memories Diana Wardi traces the emotional history of her patients accompanying them on a painful and moving journey into their inner world She describes the children's infancy in the guilt laden atmosphere of survivor families through to their difficult separation from their parents in maturity she also traces in detail the therapeutic process which culminates in the patients separation from the role of memorial candle

Breaking Crystal Efraim Sicher, 1998 The first multidisciplinary study of its kind **Breaking Crystal** examines how members of the generation after the Holocaust in Israel and the United States confront through their own imaginations a traumatic event they have not directly experienced Among the questions this groundbreaking work raises are Whose memory is it What will the collective memory of the Holocaust be in the twenty first century after the last survivors have given testimony How in the aftermath of the Holocaust do we read and write literature and history How is the memory inscribed in film and art Is the appropriation of the Holocaust to political agendas a desecration of the six million Jews What will the children of survivors pass on to the next generation

The Inheritors Gita Arian Baack, 2025-07-30 Our family legacies both positive and negative are passed down from one generation to the next in ways that are not fully understood This secondary form of trauma which Gita Baack calls Inherited Trauma has not received adequate attention a failing that perpetuates cycles of pain hatred and violence In **The Inheritors** readers are given the opportunity to reflect on the inherited burdens they carry as well as the resilience that has given them the power of survival Through engaging stories and unique concepts readers will learn new ways to explore the unknowns in their legacies reflect on questions that are posed at the end of each chapter and begin to write their own story

Reckonings Mary Fulbrook, 2018-09-04 Mary Fulbrook's award winning book uses reckoning in the widest possible sense to reveal the disparity between the extent of inhumanity perpetrated during the Nazi era and post war attempts to interpret and rectify wrongs as the consequences of violence reverberated through time **Reckonings** exposes the disjuncture between official myths about dealing with the past and the fact that the vast majority of Nazi perpetrators were never held accountable

Reverberations of Nazi Violence in Germany and Beyond Stephanie Bird, Mary Fulbrook, Julia Wagner, Christiane Wienand, 2016-02-25 **Reverberations of Nazi Violence in Germany and Beyond** explores the complex and diverse reverberations of the Second World War after 1945 It focuses on the legacies that National Socialist violence and genocide perpetrated in Europe continue to have in German speaking countries and communities as well as among those directly affected by occupation terror and mass murder

Furthermore it explores how those legacies are in turn shaped by the present The volume also considers conflicting unexpected and often dissonant interpretations and representations of these events made by those who were the witnesses victims and perpetrators at the time and also by different communities in the generations that followed The contributions from a range of disciplinary perspectives enrich our understanding of the complexity of the ways in which a disturbing past continues to disrupt the present and how the past is in turn disturbed and instrumentalized by a later present

Judaism and the Visual Image Melissa Raphael, 2009-02-19 The widespread assumption that Jewish religious tradition is mediated through words not pictures has left Jewish art with no significant role to play in Jewish theology and ethics Judaism and the Visual Image argues for a Jewish theology of image that among other things helps us re read the creation story in Genesis 1 and to question why images of Jewish women as religious subjects appear to be doubly suppressed by the Second Commandment when images of observant male Jews have become legitimate even iconic representations of Jewish holiness Raphael further suggests that devout beholding of images of the Holocaust is a corrective to post Holocaust theologies of divine absence from suffering that are infused by a sub theological aesthetic of the sublime Raphael concludes by proposing that the relationship between God and Israel composes itself into a unitary dance or moving image by which each generation participates in a processive revelation that is itself the ultimate work of Jewish art

Memory, War, and Dictatorship in Recent Spanish Fiction by Women Sarah Leggott, 2015-06-10 Memory War and

Dictatorship in Recent Spanish Fiction by Women analyzes five novels by women writers that present women's experiences during and after the Spanish Civil War and Franco dictatorship highlighting the struggles of female protagonists of different ages to confront an unresolved individual and collective past. It discusses the different narrative models and strategies used in these works and the ways in which they engage with their political and historical context particularly in the light of campaigns for the so-called recovery of historical memory in Spain, the memory boom and in the broader context of memory and trauma studies. The novels that are examined in this book are Dulce Chacón's *La voz dormida* (2002), Rosa Regés's *Luna lunera* (1999), Josefina Aldecoa's *La fuerza del destino* (1997), Carme Riera's *La mitad del alma* (2005) and Almudena Grandes's *El corazón helado* (2007). These works all highlight the multiple nature of memories and histories and demonstrate the complex ways in which the past impacts on the present. This book also considers the extent to which the memories represented in these five novels are inflected by gender and informed by the gender politics of twentieth-century and contemporary Spain.

Psychoanalytic Perspectives on Women, Menstruation and Secondary Amenorrhea Danielle Redland, 2020-05-01. I can be a mother, a wife, a daughter, a sister and a woman without having periods. This book explores two of the oldest and most important symbols of all time: menstruation and secondary amenorrhea. Women of menstruating age commonly experience secondary amenorrhea, a cessation of periods, but most people have never heard of the term nor do they realise what it represents. Danielle Redland's curiosity as to why this is posits that menstrual conditions need to be decoded, not just simply treated. Surveying menstruation and Secondary Amenorrhea (SA) principally from a psychoanalytic perspective with sociocultural, historical, political and religious angles also examined. *Psychoanalytic Perspectives on Women, Menstruation and Secondary Amenorrhea* draws secondary amenorrhea out of the shadows of its menstruating counterpart and explores how narratives of womanhood and statehood dominate. Chapters on blood ideology and war, amenorrhea on Freud's treatment of Emma Eckstein and on the psycho-mythology of Pygmalion present the reader with visions beyond patriarchy towards more thoughtful ideas on the feminine, challenging assumptions about gender identity and what is deemed good for women. Rich in clinical examples, the book locates menses

and their cessation at the heart of personal experience and examines psychosomatic phenomena the link between psyche and body and the value of interpretation From the author s own analysis to a variety of cases linked to hysteria anorexia stress trauma abuse helplessness and hopelessness individual stories and narratives are sensitively recovered and carefully revealed This refreshing example of multi layered research and psychoanalytic enquiry by a new female writer will be of great interest to psychologists psychotherapists healthcare and social work professionals and readers of gender studies history politics and literature **Spiritual Homelands** Asher D.
