Menander A Rhetor In Context:

Menander Malcolm Heath, 2004 In this book Malcolm Heath undertakes a fundamental reassessment of Menander of Laodicea Menander Rhetor and of the nature and functions of rhetoric in later antiquity second to fifth centuries A D He examines in detail Menander s fragments collected here for the first time and shows that he was primarily an expert on judicial and deliberative oratory a source critical analysis of the Demosthenes scholia demonstrates that his influential commentary on Demosthenes can be partially reconstructed Heath explores the educational practices of the rhetorical schools and shows that contrary to scholars who argue that rhetorical techniques increasingly lost their practical relevance under the Roman Empire the skills which the rhetoricians taught still had a direct application in their pupils subsequent careers R sum de l diteur Transmitting and Circulating the Late Antique and Byzantine Worlds ,2019-10-29 Transmitting and Circulating the Late Antique and Byzantine Worlds seeks to be a crucial contribution to the history of medieval connectedness Using one of the methodological tools associated with the global history movement this volume aims to use connectedness to revitalise local and regional networks of exchange and movement Its case studies collectively point caution toward assuming or asserting global scale transmission of meaning or items unchanged and show instead how meaning is locally produced and regionally formulated and how this is no less dynamic than any global level connectedness These case studies by early career scholars range from the movement of cotton growing practices to the transmission of information within individual texts Their wide scope however is nonetheless united by their preoccupation with transmission and circulation as categories of analysing or explaining movement and change in history This volume hopes to be therefore a useful contribution to the growing field of a history of connectivity and connectedness Contributors are Jovana An elkovi Pet r Bara Mathew Barber Julia Burdajewicz Adele Curness Carl Dixon Alex MacFarlane Anna Kelley Matteo G Randazzo Katinka Sewing and Grace Stafford See inside the book The Genres of Rhetorical Speeches in Greek and Roman Antiquity Cristina Pepe,2013-09-12 In The Genres of Rhetorical Speeches in Greek and Roman Antiquity Cristina Pepe offers a complete overview of the concept of speech genre within ancient rhetoric By analyzing sources dating from the 5th 4th century BC the author proves that the well known classification in three rhetorical genres deliberative judicial epideictic introduced by Aristotle was rooted in the debate concerning the forms and functions of the art of persuasion in classical Athens Genres play a leading role in Aristotle s Rhetoric and the analysis of considerable sections of the treatise shows profound links between the characterization of the rhetorical genres and Aristotelian philosophy as a whole Finally the volume explores the developments of the theory of genres in Hellenistic and Imperial rhetoric The Oxford Dictionary of Late Antiquity Oliver Nicholson,2018-04-19 The Oxford Dictionary of Late Antiquity is the first comprehensive reference book covering every aspect of history culture religion and life in Europe the Mediterranean and the Near East including the Persian Empire and Central Asia between the mid 3rd and the mid 8th centuries AD the era now generally known as Late

Power and Subversion in Byzantium Dr Michael Saxby, Professor Dimiter Angelov, 2013-11-28 This volume addresses a theme of special significance for Byzantine studies Byzantium has traditionally been deemed a civilisation which deferred to authority and set special store by orthodoxy canon and proper order Since 1982 when the distinguished Russian Byzantinist Alexander Kazhdan wrote that the history of Byzantine intellectual opposition has yet to be written scholars have increasingly highlighted cases of subversion of correct practice and correct belief in Byzantium This innovative scholarly effort has produced important results although it has been hampered by the lack of dialogue across the disciplines of Byzantine studies The 43rd Spring Symposium of Byzantine Studies in 2010 drew together historians art historians and scholars of literature religion and philosophy who discussed shared and discipline specific approaches to the theme of subversion The present volume presents a selection of the papers delivered at the symposium enriched with specially commissioned contributions Most papers deal with the period after the eleventh century although early Byzantium is not ignored Theoretical questions about the nature articulation and limits of subversion are addressed within the frameworks of individual disciplines and in a larger context The volume comes at a timely junction in the development of Byzantine studies as interest in subversion and nonconformity in general has been rising steadily in the field

Emperors and Usurpers in the Later Roman Empire Adrastus Omissi, 2018 One of the great maxims of history is that it is written by the victors and nowhere does this find greater support than in the later Roman Empire Between 284 and 395 AD no fewer than 37 men claimed imperial power though today we recognize barely half of these men as legitimate rulers and more than two thirds died at their subjects hands Once established in power a new ruler needed to publicly legitimate himself and to discredit his predecessor overt criticism of the new regime became high treason with historians suppressing their accounts for fear of reprisals and the very names of defeated emperors chiselled from public inscriptions and deleted from official records In a period of such chaos how can we ever hope to record in any fair or

objective way the history of the Roman state Emperors and Usurpers in the Later Roman Empire is the first history of civil war in the later Roman Empire to be written in English and aims to address this question by focusing on the various ways in which successive imperial dynasties attempted to legitimate themselves and to counter the threat of almost perpetual internal challenge to their rule Panegyric in particular emerges as a crucial tool for understanding the rapidly changing political world of the third and fourth centuries providing direct evidence of how in the wake of civil wars emperors attempted to publish their legitimacy and to delegitimize their enemies The ceremony and oratory surrounding imperial courts too was of great significance used aggressively to dramatize and constantly recall the events of recent civil wars the narratives produced by the court in this context also went on to have enormous influence on the messages and narratives found within contemporary historical texts In its exploration of the ways in which successive imperial courts sought to communicate with their subjects this volume offers a thoroughly original reworking of late Roman domestic politics and demonstrates not only how history could be erased rewritten and repurposed but also how civil war and indeed usurpation became endemic to the later Empire

The Apology of Justin Martyr David E. Nyström, 2018-05-03 In his Apology Justin Martyr uses some major apologetic strategies to defend Christianity These are the logos doctrine the theft theory the proof from prophecy and the arguments from demons David E Nyström analyses them in order to create a picture of how they work together rhetorically and literarily in Justin s grand argument

Shifting Cultural Frontiers in Late Antiquity David Brakke, Deborah Deliyannis, 2016-12-05 Shifting Cultural Frontiers in Late Antiquity explores the transformation of classical culture in late antiquity by studying cultures at the borders the borders of empires of social classes of public and private spaces of literary genres of linguistic communities and of the modern disciplines that study antiquity Although such canonical figures of late ancient studies as Augustine and Ammianus Marcellinus appear in its pages this book shifts our perspective from the center

to the side or the margins The essays consider for example the ordinary Christians whom Augustine addressed the border regions of Mesopotamia and Vandal Africa popular or legendary literature and athletes Although traditional philology rightly underlies the work that these essays do the authors several among the most prominent in the field of late ancient studies draw from and combine a range of disciplines and perspectives including art history religion and social history Despite their various subject matters and scholarly approaches the essays in *Shifting Cultural Frontiers* coalesce around a small number of key themes in the study of late antiquity the ambiguous effects of Christianization the creation of new literary and visual forms from earlier models the interaction and spread of ideals between social classes and the negotiation of ethnic and imperial identities in the contact between Romans and barbarians By looking away from the core and toward the periphery whether spatially or intellectually the volume offers fresh insights into how ancient patterns of thinking and creating became reconfigured into the diverse cultures of the medieval

Antioch II Silke-Petra Bergjan,Susanna Elm,2018-09-04 During the fourth century Antioch on the Orontes was the most important imperial residence in the Roman Empire and a hot bed of intellectual and religious activity The writings of men such as Libanius the emperor Julian Ammianus Marcellinus John Chrysostom Theodore and many others provide a density of written sources that is nearly unmatched in antiquity while the archaeological evidence of the city's evolution is much harder to reconstruct This volume assembles state of the art scholarship on these ancient authors within the context of recent archaeological work to offer a rare comprehensive view of this late Roman city Contributors Rudolf Brandle Gunnar Brands Silke Petra Bergjan Susanna Elm Johannes Hahn Gavin Kelly Blake Leyerle Jaclyn Maxwell Wendy Mayer Yannis Papadogiannakis Catherine Saliou Adam M Schor Christine Shepardson Jan R Stenger Claudia Tiersch Edward Watts Jorit Wintjes

Caesar's Civil War Richard W. Westall,2017-11-20 In *Caesar's Civil War* Historical Reality and Fabrication Westall combines literary analysis of Caesar's *Bellum Civile* with a concern for the socio economic history of the Roman empire The *Bellum Gallicum* and the Shakespearean play are better known but Caesar's partisan account of the Roman civil war culminating in the battle of Pharsalus offers a historical text of perennial interest and relevance Two introductory chapters contextualize this book and offer a traditional narrative of political and military history for 49-48 BCE There follow seven chapters that are dedicated to each of the geographical theatres of civil war These chapters show how Caesar's testimony sheds important light upon the nature of Roman rule in the Mediterranean but also explore the problems to be encountered in using potentially tendentious testimony

The Rhetorical Approach to 1 Thessalonians Ezra JaeKyung Cho, 2020-10-12 This book is the rhetorical approach to 1 Thessalonians particularly on funeral orations Though many scholars have interpreted 1 Thessalonians in light of a thematic perspective mirror reading and epistolary approach the author asserts that Paul employs elements of epideictic funerary oratory to persuade his audience Encountering the growing persecution sufferings and even death of members the believers of Thessalonica needed encouragement As a rhetorical strategist Paul needed effective methods to answer these problems which he did so with Greco Roman funeral orations Moreover this book delves into the funerary language with the paradoxical concepts Paul uses to illustrate topoi and the purpose of funeral oration in 1 Thessalonians Consequently this book proves these ideas by showing how funeral orations shed light on the whole of 1 Thessalonians in the exordium 1 Thess 1 2 3 the narratio 1 4 3 10 the consolation and exhortation 4 1 5 15 and peroratio with prayer 5 16 28
