Marcel Cobussen, 2017-07-05 In Thresholds Marcel Cobussen rethinks the relationship between music and spirituality The point of departure is the current movement within contemporary classical music known as New Spiritual Music with as its main representatives Arvo P John Tavener and Giya Kancheli In almost all respects the musical principles of the new spiritual music seem to be diametrically opposed to those of modernism repetition and rest versus development and progress tradition and familiarity versus innovation and experiment communication versus individualism and conceptualism tonality versus atonality and so on As such this movement is often considered as part of the much larger complex called postmodernism Joining in with ideas on spirituality as presented by Michel de Certeau and Mark C Taylor Cobussen deconstructs the classification of the spiritual dimensions of music as described above Thresholds presents an idea of spirituality in and through music that counters strategies of exclusion and mastering of alterity and connects it to wandering erring and roving

Using the philosophy of Martin Heidegger Georges Bataille Jean Fran s Lyotard Jacques Derrida and others and analysing the music of John Coltrane the mythical Sirens Arvo P and The Eagles to mention a few Cobussen regards spirituality as a non concept that escapes categorization classification and linguistic descriptions Spirituality is a topological non discursive and a manifestation of otherness And it is precisely music or better listening to music that induces these thoughts by carefully encountering analysing and evaluating certain examples from classical jazz pop and world music it is possible to detach spirituality from concepts of otherworldliness and transcendentalism Thresholds opens a space in which spirituality can be connected to music that is not commonly considered in this light thereby enriching the ways of approaching and discussing music In orde Using Technology to Unlock Musical Creativity Scott Watson,2011-07-28 It has never been easier or more fun for students to compose improvise arrange and produce music than with today s technology Perfect for pre or in service music educators Using Technology to Unlock Musical Creativity offers both a pedagogical framework and a description of the technology tools for engaging students in creative musical projects *Wonderful Design* Lloyd Whitesell,2018-07-06 As one of the most beloved and beguiling genres of entertainment the film musical wears its style ostentatiously The genre allows for hyperbolic expression extravagant sonic and visual decor and extremely stylized forms of movement and performance By staging a glittering spectacle by releasing a current of lush sentiment by unveiling a world of elegance and romance the film musical woos us with patterns textures finesse and sensory display In this book author Lloyd Whitesell asks what exactly makes film musicals so glamorous As he argues glamour projects an aura of ethereality or sophistication by way of suave deportment sensuous textures elevated styles and aesthetically refined effects Glamour in other words is what unites Cheek to Cheek from Top Hat and the title song from Beauty and the Beast each a sonic evocation of luxury sparkle grace and finesse Whitesell redirects our attention from visual cues like sequins and evening gloves to explore how glamour resides in the sonic Discussing dozens of musical numbers analyzing ingenious orchestration and appraising the distinctive styles of favorite musical stars Whitesell illuminates fundamental traits of the genre its aesthetic strategies and cultural ambitions
