Water-supply Paper , **Snowflake** Arthur Jeon, 2021-04-14 EDITOR'S CHOICE Booklife NOTABLE BOOK Blue Ink Review A high school scholarship student must kill the president as an act of environmental protection Brilliant 18 year old Ben Wallace didn't set out to become a presidential assassin but after a mind altering experience Ben discovers some facts about earth's rapid global warming and none of it is good news Now Ben is on a dangerous trajectory believing he must kill the President of the United States to save the planet A Species Goes Extinct Every 20 Minutes 26 000 A Year NY Times Worldwide 7 Million People A Year Die from Air Pollution Science Daily Humankind Has Wiped Out 60% of All Animals Since 1970 The Guardian Faced with such dire news Ben becomes outraged by the president's climate change lies attacks on climate science and destruction of the natural world He decides there is only one solution a desperate but necessary act of environmental activism and social justice to protect his generation Ben must kill POTUS At his exclusive private school Ben becomes a loner self isolated from the other students who appear on Instagram anyway not to have a care in the world Not a single student seems to notice the planet is burning It's all too much denial and lies he's got to act Skipping his meds and therapist to prepare for his mission the actions of this teenage vegan stress tests the line between madness and morality

During the six weeks leading up to his assassination of the President of the United States Ben realizes he'll never get close enough to kill the president with a gun. Instead, he hatches a realistic hi-tech strategy, meticulously prepping for the daunting challenge he faces to assassinate a president. Throughout this controversial climate change novel, Ben grapples with the philosophical, practical, and moral reasons that make his radical actions necessary. Mr. Hale, Ben's STEM teacher and a former Navy Seal, sees that his best student is struggling and attempts to take Ben under his wing. But Hale makes a fateful mistake by ignoring the signs of Ben's unraveling. With a narrative structure that springs from Ben's brief journal entries, a ritual that helps him process his overactive mind into a singular confessional voice, the events tighten into a gripping suspense thriller racing to a shocking conclusion. For those who feel like its young protagonist, angry and helpless as we blow past irreversible tipping points, the novel is an urgent battle cry: if not to take up arms, then to become a climate change activist fighting against humankind's extinction.

WARNING: Snowflake a Cli-Fi novel and political thriller is a work of contemporary historical fiction; it swims the current of America's craziest cultural waters and terrifying global warming facts. But the climate science Ben cites is real; the politics are true, and the president's attacks on the environment are accurate.

History of The Mastiff - Gathered From Sculpture, Pottery, Carvings, Paintings and Engravings; Also From Various Authors, With Remarks On Same (A Vintage Dog Books Breed Classic) M. B. Wynn, 2011-03-29

'Tis sweet to hear the watch dogs honest bark. Bay deep mouthed welcome as we draw near home. This rare book on the Mastiff was originally published in Melton Mowbray in 1886 and has long been considered the most authoritative early work on the breed. Today it remains extremely hard to find in its first edition. VINTAGE DOG BOOKS have republished it using the original text as part of their CLASSIC BREED BOOKS series. The author was Honorary Secretary and Treasurer of the Mastiff Club and a breeder and exhibitor of many prize Mastiffs. The book's two hundred and thirty pages contain twenty-one detailed and well-researched chapters: Origin of the Dog, The Mastiff Type, The British Mastiff, The Alan or Alaunt, The Bantock or Mastiff, The English Mastiff, The Mastiff in Henry V's Reign, In Elizabeth's Reign, The Mastiff for Baiting Purposes, The Mastiff in the 18th Century, In the 19th Century, Type of the English Mastiff about 1800, The Alpine Mastiff, The Great Breeders of the Modern Mastiff, Early Dog Shows, Noted Mastiffs, The Points of the English Mastiff. This important breed book is a fascinating read for any Mastiff enthusiast or historian of the breed, but also contains much information that is still useful and practical today. Many of the earliest dog breed books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. VINTAGE DOG BOOKS are republishing these classic works in affordable, high-quality modern editions using the original text and artwork.
