Poetry And Paintings Of The 1st Bible Of Charles The Bald:

The Poetry and Paintings of the First Bible of Charles the Bald Paul Edward Dutton, Herbert L. Kessler, 1997 A major artistic study of a famous medieval masterpiece **The Art of Reform in Eleventh-Century Flanders: Gerard of Cambrai, Richard of Saint-Vanne and the Saint-Vaast Bible** Diane J. Reilly, 2021-11-29 This study is the first detailed exploration of the events and personalities that inspired the early eleventh century Saint Vaast Bible's highly innovative miniature program Copied and illuminated in the venerable abbey of Saint Vaast Arras the Bible broadcast the political and theological beliefs of Bishop Gerard of Cambrai and Abbot Richard of Saint Vanne who cooperated in the sometimes contentious reform of a series of abbeys throughout Flanders While the miniature program defended royal and episcopal hegemony and highlighted the importance of cooperation between secular and ecclesiastical government the layout of the Bible facilitated continuous reading during the monastic Office Illustrated with 46 figures and 10 color plates this book introduces one of the earliest and most important Romanesque Giant Bibles **The Political Thought of King Alfred the Great** David Pratt, 2007-05-31 This book is a comprehensive study of political thought at the court of King Alfred the Great 871-99 It explains the extraordinary burst of royal learned activity focused on inventive translations from Latin into Old English attributed to Alfred's own authorship A full exploration of context establishes these texts as part of a single discourse which placed Alfred himself at the heart of all rightful power and authority A major theme is the relevance of Frankish and other European experiences as sources of expertise and shared concerns and for important contrasts with Alfredian thought and behaviour Part I assesses Alfred's rule against West Saxon structures showing the centrality of the royal household in the operation of power Part II offers an intimate analysis of the royal texts developing far reaching implications for Alfredian kingship communication and court culture Comparative in approach the book places Alfred's reign at the forefront of wider European trends in aristocratic life **Rituals of Power** Frans Theuvs, Janet Nelson, 2021-10-01 13 papers by 16 leading archaeologists and historians of late antiquity and the early middle ages break new ground in their discussion analysis and criticism of present interpretations of early medieval rituals and their material correlates Some deal with rituals relating to death life cycles and the circulation in other contexts of objects otherwise used in the burial ritual Others are concerned with the symbolism and ideology of royal power the formation of a political ideology east of the Rhine from the mid 5th century onwards and penance rituals in relation to Carolingian episcopal discourse on ecclesiastical power and morale All deal with the creation of new identities cultures norms and values and their expression in new rituals and ideas from the period of the Great Migrations through the Later Roman Empire down to the society of Beowulf and the later Carolingians **Spiritual Seeing** Herbert L. Kessler, 2000-09-15 How and when Herbert L Kessler asks was the Jewish prohibition against graven images transformed into a Christian imperative to picture God's invisibility once God had taken human form in the body of Jesus Christ **The Ruler Portraits of Anglo-Saxon England** Catherine E. Karkov, 2004 The author argues that this

series of portraits never before studied as a corpus creates a visual genealogy equivalent to the textual genealogies and regnal lists that are so much a feature of late Anglo Saxon culture As such they are an important part of the way in which the kings and queens of early medieval England created both their history and their kingdom

BOOK JACKET *The Grove Encyclopedia of Medieval Art and Architecture* Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture

Wealth and the Material World in the Old English Alfredian Corpus Amy Faulkner, 2023 A new materialistic reading of the Alfredian corpus drawing on diverse approaches from thing theory to Augustinian principles of use and enjoyment to uncover how these works explore the material world The Old English prose translations traditionally attributed to Alfred the Great versions of Gregory's *Regula pastoralis* Boethius *De consolazione philosophiae* Augustine's *Soliloquia* and the first fifty Psalms urge detachment from the material world but despite this its flotsam and jetsam from costly treasures to everyday objects abound within them This book reads these original and inventive translations from a materialist perspective drawing on approaches as diverse as thing theory and Augustine's principles of use and enjoyment By focussing on the material it offers a fresh interpretation of this group of translations bringing out their complex often contradictory relationship with the material world It demonstrates that as in the poetic tradition wealth in Alfredian literature is not simply a tool to be used or something to be enjoyed in excess rather in moving away from these two static binaries it shows that wealth is a current flowing both horizontally as an exchange of gifts between humans and vertically as a salvific current between earth and heaven The prose translations are situated in the context of Old English poetry including *Beowulf* *The Wanderer* *The Seafarer* the Exeter Book Riddles and *The Dream of the Rood*

The Routledge Companion to Medieval Iconography Colum Hourihane, 2016-12-19 Sometimes enjoying considerable favor sometimes less iconography has been an essential element in medieval art historical studies since the beginning of the discipline Some of the greatest art historians including M le Warburg Panofsky Morey and Schapiro have devoted their lives to understanding and structuring what exactly the subject matter of a work of medieval art can tell Over the last thirty or so years scholarship has seen the meaning and methodologies of the term considerably broadened This companion provides a state of the art assessment of the influence of the foremost iconographers as well as the methodologies employed and themes that underpin the discipline The first section focuses on influential thinkers in the field while the second covers some of the best known methodologies the third and largest section looks at some of the major themes in medieval art Taken together the three sections include thirty eight chapters each of which deals with an individual topic An introduction historiographical evaluation and bibliography accompany the individual essays The authors are

recognized experts in the field and each essay includes original analyses and or case studies which will hopefully open the field for future research

The Character of David in Judaism, Christianity and Islam, 2021-11-29 King David is one of the most central figures in all of the major monotheistic traditions. He generally connotes the heroic past of the more imagined than real ancient Israelite empire and is associated with messianic hopes for the future. Nevertheless, his richly ambivalent and fascinating literary portrayal in the Hebrew Bible is one of the most complex of all biblical characters. This volume aims at taking a new critical look at the process of biblical creation and subsequent exegetical transformation of the character of David and his attributed literary composition, the Psalms, with particular emphasis put on the multilateral fertilization and cross-cultural interchanges among Jews, Christians, and Muslims.

Vision, Devotion, and Self-Representation in Late Medieval Art Alexa Sand, 2014-03-31 Focuses on one of the most attractive features of late medieval manuscript illumination: the portrait of the book owner at prayer within the pages of her prayer book.

Robes and Honor S. Gordon, 2016-04-30 *Robes and Honor* is a fascinating exploration of the possible common origin and subsequent developments of investiture across medieval Christianity and medieval Islam. The ceremony in all of its cultural variety was much more than the public adoption of a high-value textile as symbol of office within a culture robing established a personal link from the hand of the giver, king, pope, head of a sect, ambassador, to the receiver, noble, general, official, nun, or acolyte. This volume challenges current thinking on religious and regional boundaries of cultures, raises semiotic issues about imagined communities, and addresses problems of kingship.

The Codex Amiatinus and its "Sister" Bibles: Scripture, Liturgy, and Art in the Milieu of the Venerable Bede Celia Chazelle, 2019-03-27 The Codex Amiatinus and its Sister Bibles examines the full Bibles containing every scriptural text that producers deemed canonical, made at the northern English monastery of Wearmouth-Jarrow under Abbot Ceolfrith d. 716 and the Venerable Bede d. 735, and the religious, cultural, and intellectual circumstances of their production. The key manuscript witness of this monastery's Bible-making enterprise is the Codex Amiatinus, a massive illustrated volume sent toward Rome in June 716 as a gift to St. Peter Amiatinus, the oldest extant, largely intact Latin full Bible. Its survival is the critical reason that Ceolfrith's Wearmouth-Jarrow has long been recognized as a pivotal center in the evolution of the design, structure, and contents of medieval biblical codices. In the Footsteps of the Ancient Fathers Josh Timmermann, 2025-06-05 This book traces the categorical construction and discursive employment of the Church Fathers across a variety of textual genres and contexts during the Carolingian era. This study shows that Carolingian intellectual culture was imbued with a distinctive sense of progress toward the past, bolstered by texts associating the Church Fathers with the perceived harmony and continuity of the ancient Christian tradition across time and space. The new Christian Roman empire that the Carolingians sought to create, reform, and ultimately perfect was fundamentally rooted in a certain idealized vision of ancient Christianity and the Church Fathers as a special type of timeless, transdiscursive authority.

Image and Incarnation Walter Melion, Lee Palmer Wandel, 2015-09-01 The doctrine of the

Incarnation was wellspring and catalyst for theories of images verbal material and spiritual Section I Representing the Mystery of the Incarnation takes up questions about the representability of the mystery Section II Imago Dei and the Incarnate Word investigates how Christ's status as the image of God was seen to license images material and spiritual Section III Literary Figurations of the Incarnation considers the verbal production of images contemplating the divine and human nature of Christ Section IV Transformative Analogies of Matter and Spirit delves into ways that material properties and processes in their effects on the beholder were analogized to Christ's hypostasis Section V Visualizing the Flesh of Christ considers the relation between the Incarnation and the Passion *Transformation in Anglo-Saxon Culture* Charles

Insley, Gale R. Owen-Crocker, 2017-03-31 The five authoritative papers presented here are the product of long careers of research into Anglo-Saxon culture In detail the subject areas and approaches are very different yet all are cross-disciplinary and the same texts and artefacts weave through several of them Literary text is used to interpret both history and art ecclesiastical historical circumstances explain the adaptation of usage of a literary text wealth and religious learning combined with old and foreign artistic motifs are blended into the making of new books with multiple functions religio socio-economic circumstances are the background to changes in burial ritual The common element is transformation the Anglo-Saxon ability to rework older material for new times and the necessary adaptation to new circumstances The papers originated as five recent Toller Memorial Lectures hosted by the Manchester Centre for Anglo-Saxon Studies MANCASS

The Bernward Gospels Jennifer P. Kingsley, 2016-05-12 Few works of art better illustrate the splendor of eleventh-century painting than the manuscript often referred to as the precious gospels of Bishop Bernward of Hildesheim with its peculiar combination of sophistication and naiveté its dramatically gesturing figures and the saturated colors of its densely ornamented surfaces In *The Bernward Gospels* Jennifer Kingsley offers the first interpretive study of the pictorial program of this famed manuscript and considers how the gospel book conditioned contemporary and future viewers to remember the bishop The codex constructs a complex image of a minister caring for his diocese not only through a life of service but also by means of his exceptional artistic patronage of a bishop exercising the sacerdotal authority of his office and of a man fundamentally preoccupied with his own salvation and desire to unite with God through both his sight and touch Kingsley insightfully demonstrates how this prominent member of the early medieval episcopate presented his role to the saints and to the communities called upon to remember him **A Companion to Medieval Art** Conrad Rudolph, 2019-02-08 A fully

updated and comprehensive companion to Romanesque and Gothic art history This definitive reference brings together cutting-edge scholarship devoted to the Romanesque and Gothic traditions in Northern Europe and provides a clear analytical survey of what is happening in this major area of Western art history The volume comprises original theoretical historical and historiographic essays written by renowned and emergent scholars who discuss the vibrancy of medieval art from both thematic and sub-disciplinary perspectives Part of the Blackwell Companions to Art History A Companion to
