## **Racial Preference And Racial Justice The New Affirmative Action Controversy:**

**Racial Preference and Racial Justice** Russell Nieli, 1991 In the early 1960s civil rights leaders such as Martin Luther King Jr aimed at achieving a completely color blind society in which people would be judged solely by the content of their character Since then however governmental concern over civil rights has shifted from strict neutrality to the preferential hiring and promoting of certain groups in the workplace and the preferential admission of certain minorities to educational institutions This volume collects the most penetrating scholarly essays key excerpts from court decisions and perceptive commentaries on the latest developments in thinking about affirmative action It should be of great interest to both students and the general reader alike

**Democracy and Disagreement** Amy Gutmann, Dennis F. Thompson, 2009-07-01 The din and deadlock of public life in America where insults are traded slogans proclaimed and self serving deals made and unmade reveal the deep disagreement that pervades our democracy The disagreement is not only political but also moral as citizens and their representatives increasingly take extreme and intransigent positions A better kind of public discussion is needed and Amy Gutmann and Dennis Thompson provide an eloquent argument for deliberative democracy today They develop a principled framework for opponents to come together on moral and political issues Gutmann and Thompson show how a deliberative democracy can address some of our most difficult controversies from abortion and affirmative action to health care and welfare and can allow diverse groups separated by class race religion and gender to reason together Their work goes beyond that of most political theorists and social scientists by exploring both the principles for reasonable argument and their application to actual cases Not only do the authors suggest how deliberative democracy can work they also show why improving our collective capacity for moral argument is better than referring all disagreements to procedural politics or judicial institutions Democracy and Disagreement presents a compelling approach to how we might resolve some of our most trying moral disagreements and live with those that will inevitably persist on terms that all of us can respect

**The Affirmative Action Puzzle** Melvin I. Urofsky, 2020-01-28 A rich multifaceted history of affirmative action from the Civil Rights Act of 1866 through today's tumultuous times From acclaimed legal historian author of a biography of Louis Brandeis Remarkable Anthony Lewis The New York Review of Books Definitive Jeffrey Rosen The New Republic and Dissent and the Supreme Court Riveting Dahlia Lithwick The New York Times Book Review a history of affirmative action from its beginning with the Civil Rights Act of 1866 to the first use of the term in 1935 with the enactment of the National Labor Relations Act the Wagner Act to 1961 and John F Kennedy's Executive Order 10925 mandating that federal contractors take affirmative action to ensure that there be no discrimination by race creed color or national origin down to today's American society Melvin Urofsky explores affirmative action in relation to sex gender and education and shows that nearly every public university in the country has at one time or another instituted some form of affirmative action plan some successful others not Urofsky traces the evolution of affirmative action through labor and the struggle for racial equality writing of World War I

and the exodus that began when some six million African Americans moved northward between 1910 and 1960 one of the greatest internal migrations in the country's history He describes how Harry Truman after becoming president in 1945 fought for Roosevelt's Fair Employment Practice Act and surprising everyone appointed a distinguished panel to serve as the President's Commission on Civil Rights as well as appointing the first black judge on a federal appeals court in 1948 and by executive order later that year ordering full racial integration in the armed forces In this important ambitious far reaching book Urofsky writes about the affirmative action cases decided by the Supreme Court cases that either upheld or struck down particular plans that affected both governmental and private entities We come to fully understand the societal impact of affirmative action how and why it has helped and inflamed people of all walks of life how it has evolved and how and why it is still needed

**The Rhetorical Invention of Diversity** M. Kelly Carr, 2018-05-01 Despite the tepid reception of *Regents of the University of California v Bakke* in 1978 the Supreme Court has thrice affirmed its holding universities can use race as an admissions factor to achieve the goal of a diverse student body This book examines the process of rhetorical invention followed by Justice Lewis F Powell Jr his colleagues and other interlocutors as they sifted through arguments surrounding affirmative action policies to settle on diversity as affirmative action's best constitutional justification Here M Kelly Carr explores the goals constraints and argumentative tools of the various parties as they utilized the linguistic resources available to them including arguments about race merit and the role of the public university in civic life Using public address texts legal briefs memoranda and draft opinions Carr looks at how public arguments informed the amicus briefs chambers memos and legal principles before concluding that Powell's pragmatic decision making fused the principle of individualism with an appreciation of multiculturalism to accommodate his colleagues differing opinions She argues that *Bakke* is thus a legal and rhetorical milestone that helped to shift the justificatory grounds of race conscious policy away from a recognition of historical discrimination and its call for reparative equality and toward an appreciation of racial diversity

Inc Portland OR      **American Work Values** Paul Bernstein,1997-03-06 American Work Values Their Origin and Development examines the broad shifts in American work values from their European origins to the present It analyzes shifts from work as salvation to work as opportunity and alienation and concludes with a more recent focus on self fulfilling employment in a context of industrial downsizing Beginning with the Lutheran Calvinist support of work for the glory of God the book s focus shifts to the change in work values that occurred from early industrialization in America to the end of the Great Depression a period characterized by both opportunity and alienation The modern trends that followed led to the empowerment of employees even as that empowerment tested the values of such participation in a climate of rampant downsizing The book also deals with the debates related to work and welfare that simmered during these transformations Whether it involved policy makers in sixteenth century Europe or wonks in the Washington of 1996 controversy over public assistance to the deserving and undeserving poor remained a raging controversy that spilled over into the debate on affirmative action      *American Public Policy* B. commonsense ideal of equality and a new post racial American era For others it supplies a narrow constitutional vision which serves to disqualify many of the tools needed to combat persistent racial inequality in the United States Rather than taking a position either for or against color blindness Mark Golub takes issue with the blindness consciousness dichotomy itself This book demonstrates how color blind constitutionalism conceals its own race conscious political commitments in defense of existing racial hierarchy and renders the pursuit of racial justice as a constitutionally impermissible goal **The Age of**
