Management of Radionuclide Therapy Patients National Council on Radiation Protection and Measurements, National Council on Radiation Protection and Measurements. Scientific Committee 91-1 on Precautions in the Management of Patients Who Have Received Therapeutic Amounts of Radioactivity, 2007 *Radiation protection and new medical diagnostic approaches* [Anonymus AC02107477], 1983 *Radiation Protection* Jacob Shapiro, 2002 This highly successful manual has served for nearly three decades as the definitive guide to the safe use of radioactive materials Completely revised and updated the fourth edition presents a new dimension by adding coverage of nonionizing radiation and is thus concerned with the entire field of radiation protection The author takes the novel approach of introducing the whole range of energies possessed by particles and electromagnetic waves at the beginning of the text thus integrating coverage of

ionizing and nonionizing radiation rather than considering them as two separate disciplines He goes on to cover the entire spectrum of radiation sources including radionuclides x ray machines accelerators nuclear reactors power lines microwave towers and cellular phones With its expanded coverage including a broader focus on public health issues this new volume will serve as an important training and reference resource not only for research scientists physicians and engineers but for regulatory officials attorneys engineers and environmental health and safety professionals The breadth of citations alone makes this resource invaluable
