Radical Environmentalism Philosophy And Tactics:

Radical Environmentalism Peter C. List, 1993 Is ecological sabotage a prank or terrorism Do women hold the key to rethinking environmentalism Are ecoactivists Goliaths of Doom Can radical and mainstream ecologists find common ground The readings in this book explore these and many other questions challenging conventional thinking about our relationship to the environment Unique among books on environmental ethics this anthology deals with themes of deep ecology ecofeminism and environmental activism considered radical stands by most environmental moderates On a philosophical level the selections present thought provoking responses to issues such as our ethical obligations to each other and nonhuman parts of nature the personal and social responsibilities of men and women to each other and proper personal and social reactions to the degradation of nature As concrete calls to action especially in the case of ecotage exponents of radical environmentalism often advocate measures more moderate environmentalists find ethically unacceptable both points of view are presented in this collection However as the editor of this provocative anthology states understanding this movement can help moderates sharpen their resolve to do more about environmental problems and find solutions which will check the relentless consumption of wild nature Ecoterrorism Douglas Long, 2014-05-14 Provides an overview of the issue of ecoterrorism including history terminology biographical information on important figures in this field and a complete annotated bibliography From Environmental Action to Ecoterrorism? Gerry Nagtzaam, 2017-01-27 This book scrutinizes the growth of the eco terrorism movement operating on a global scale focusing on the main groups and their more radical offshoots both historically and those currently active These include Earth First the Earth Liberation Front the Animal Liberation Front and the Sea Shepherd Conservation Society It critically examines how these groups form and how they have evolved their key personnel their strategies and tactics principles motivating philosophies and attitudes to violence Specifically the book seeks to understand whether such groups inevitably evolve from activists to militants to terrorists as the literature suggests Lastly it considers the future of such groups asking whether they will become more prominent as more people become ecologically aware and as global environmental conditions deteriorate or whether such groups have peaked as a force for environmental change **Animals and Ethics - Third Edition** Angus Taylor, 2009-05-27 Can animals be regarded as part of the moral community To what extent if at all do they have moral rights Are we wrong to eat them hunt them or use them for scientific research Can animal liberation be squared with the environmental movement Taylor traces the background of these debates from Aristotle to Darwin and sets out the views of numerous contemporary philosophers including Peter Singer Tom Regan Mary Anne Warren J Baird Callicott and Martha Nussbaum with ethical theories ranging from utilitarianism to eco feminism The new edition also includes provocative quotations from some of the major writers in the field As the final chapter insists animal ethics is more than just an academic question it is intimately connected both to our understanding of what it means to be human and to pressing current issues such as food shortages environmental degradation and climate change

Human Behavior and the Social Environment, Macro Level Katherine van Wormer, Fred H. Besthorn, 2010-10-11 A timely revision in this global age *Human Behavior and the Social*

Environment Macro Level develops a sophisticated and original view of the cultural global spiritual and natural worlds that people inhabit and the impact of these worlds on human behavior Its major new theme sustainability emerges as a key characteristic of contemporary practice What is sustainable social work What are the characteristics of a sustainable community How is the present exploitation of environmental resources unsustainable for future generations Following the greatest economic upheaval since the Great Depression how can we envision a sustainable economy that will benefit all the people not only the wealthy few Human behavior results from biological psychological socio economic and cultural forces but the mental health field has placed the most emphasis on intrapsychic factors to the near exclusion of socio economic and cultural considerations This significant collaboration seeks to correct this omission by helping students recognize patterns in the family culture and value systems in order to create safe and sustainable environments for their future clients The emphasis on sustainable and unsustainable social welfare programs is geared to helping readers engage in advocacy for social justice Integrates up to date research findings models and government statistics Enhanced discussions of theory group dynamics family community and the environment Theoretical concepts and practice implications in each chapter Highlights the importance of the natural environment and ecology the community of the earth to human and group behavior Sets forth a refined understanding of the role of spirituality the community of faith in people s lives Focuses on evidence based theory and research Teaches from a global cross cultural perspective highlighting themes of empowerment and social justice Features dynamic readings personal narratives and photographs that highlight each chapter s topic Accompanied by an online instructor s manual with lecture presentations chapter summaries key terms suggested classroom activities and a test bank with essay and multiple choice questions at www.oup.com/us/HBSE Don t miss the companion volume Human Behavior and the Social Environment Micro Level Second Edition which offers an eye opening view of how biological psychological and cultural forces influence individuals behavior

The Symbolic Earth James G. Cantrill,Christine L. Oravec,2021-10-21 The core dilemma in environmental advocacy may be illustrated by the question When we communicate about the world should we stress what we know or what we feel The contributors to The Symbolic Earth argue that it is more important to decide how we should talk about what we know and feel In their view the environment is largely a product of how we talk about the world Because the environment is a social construction the only hope we have of preserving it is to understand and alter the fundamental ways we discuss it This collection first examines the ways in which discourse creates environment perceptions Subjects discussed range from the description of natural scenery to the advocacy of political interest groups from the everyday interactions of citizens facing environmental crises to the greenwashing of corporate imagemakers and from the psychology of the mass public to the social constructions of the mass media The authors include nationally known scholars of environmental history rhetorical theory ethnography communication and journalism studies public policy and media criticism

Current Societal Concerns about Justice Leo Montada,Melvin J. Lerner,2013-06-29 What role does justice play in the

formation of public opinion and the scholarly debates about social problems Does the perception of injustice force problems to appear on the political agenda Does the perception of an injustice give momentum to social change Or are violations of self interest or threats to one's material welfare the more important factors Or are empathy driven concerns for the needy and the disadvantaged motivations to solve societal problems What is known about the role justice concerns play in leadership In several chapters of this volume justice concerns and justice motives are viewed in relation to other concerns and motivations welfare self interest altruism It is argued that the consensus of political theorists converges on mutual advantage as the main criterion of acceptable solutions to solving societal problems In economics self interest is considered the driving force and provides the criterion of acceptable solutions Sociological and social psychological exchange theories share these basic assumptions Thus questions are raised and answered concerning how justice and these other important motives appear in the analyses of societal problems and the search for solutions Moreover in addition to the issue of conflicting motives self interest altruism justice it is commonly recognized that the definition of what is just and what is unjust is open to question In public as well as in scientific dialogues diverging views about justice have to be integrated or decided upon
