Gasparski,2017-07-28 The need for solutions to environmental problems is urgent Expanded environmental research and knowledge along with interest in environmental issues has focused attention on the social political and practical aspects of environmental problems Environmental Political Philosophy searches for common environmental goals values and policies in society An essential undercurrent in political theory about the environment is that such issues are not questions of efficiency or technology They cannot simply be addressed through knowledge of processes and mechanics of nature by boosting or targeting research or by allocating of resources and development of technology Neither can they be resolved solely by increasing civic understanding and mounting environmental campaigns or requiring endless eco friendly actions A crucial element of environmental political philosophy is highlighted through the studies in this volume which address the question of what constitutes efficient action or effective decision making Praxiology commences with empirical orientation but does so by maintaining the important sense that in the evaluation of actions and policies ethical considerations must be employed in conjunction with effectiveness and efficiency The Great Refusal Andrew Lamas,Todd Wolfson,Peter N. Funke,2017-01-23 Herbert Marcuse examined the subjective and material conditions of radical social change and developed the Great Refusal a radical concept of the protest against that which is The editors and contributors to the exciting new volume *The Great Refusal* provide an analysis of contemporary social movements around the world with particular reference to Marcuse's revolutionary concept The book also engages and puts Marcuse in critical dialogue with major theorists including Slavoj Žižek and Michel Foucault among others The chapters in this book analyze different elements and locations of the contemporary wave of struggle drawing on the work and vision of Marcuse in order to reveal with a historical perspective the present moment of resistance Essays seek to understand recent uprisings such as the Zapatistas in Mexico the Arab Spring and the Occupy movement in the context of Marcuse's powerful conceptual apparatus The Great Refusal also charts contemporary social movements against global warming mass incarceration police brutality white supremacy militarization technological development and more to provide insights that advance our understanding of resistance today Contributors include Kevin B Anderson Stanley Aronowitz Joan Braune Jenny Chan Angela Y Davis Arnold L Farr Andrew Feenberg Michael Forman Christian Fuchs Stefan Gandler Christian Garland Toorjo Ghose Imaculada Kangussu George Katsiaficas Douglas Kellner Sarah Lynn Kleeb Filip Kovacevic Lauren Langman Heather Love Peter Marcuse Martin J Beck Matu t k Russell Rockwell AK Thompson Marcelo Vieta and the editors Freedom and Dissatisfaction in the Works of

Agnes Heller Lucy Jane Ward, 2016-12-27 Ward's book focuses on the work of the Hungarian philosopher Agnes Heller, prominent member of the Budapest School, a group of students who studied under the Marxist social theorist György Lukács. For both Marx and Heller, albeit in different ways, dissatisfaction emerges as the inevitable result of the expansion of needs within modernity and as a catalyst for the development of anthropological wealth, what Marx refers to as the human being rich in need. Ward argues that dissatisfaction and the corresponding category of human wealth as both motif and method is central to grasping Heller's seemingly disparate writings. While Marx postulates a radical overcoming of dissatisfaction, Heller argues dissatisfaction is integral not only to the ongoing survival of modernity but also to the dynamics of both freedom and individual life. In this way, Heller's work remains committed to a position that both continually returns and departs, is both with and against the philosophy of Marx. This book will be of interest to scholars of political philosophy, social theory, critical theory, and sociology.

Tragedy and Philosophy. A Parallel History Agnes Heller†, 2021-03-08 Completed shortly before her death in 2019, *Tragedy and Philosophy* is the sum of Agnes Heller's reflections on European history and culture seen through the prism of Europe's two unique literary creations: tragedy and philosophy. Part 1 traces their parallel history from ancient Athens to rebirth in early modern London and Paris. Part 2 explores the interactions between post-metaphysical philosophy and post-tragic drama from the eighteenth through to the twentieth centuries. Heller's perspective is post-Hegelian: the story of European culture can only be told from its end, the generalization of modernity across the globe. In this sense, Part 3 is Heller's farewell to the grand narrative of European history and culture as well as her own personal farewell to philosophy.

Culture and Enlightenment Paul Crittenden, 2017-11-22 This title was first published in 2002. *Culture and Enlightenment* are the two words that best characterise the essence of György Markus's career, in whose honour this book is published. Markus devoted the last twenty years of research towards a theory of cultural objectifications and their pragmatics, and the great depth of his knowledge of the history of culture and philosophy informs all his teaching and writing. The pursuit of Enlightenment ideals attains reflective self-consciousness in Markus's works, forged in the knowledge of its own historicity, of the embeddedness of rationalities in culture, and in an awareness of the paradoxes that cling to the conscious affirmation of ideals which are no longer self-evident or beyond questioning. In taking up the challenge of these paradoxes, Markus spans the whole history of modern philosophy and culture with a matchless authority. This book draws together contributions from leading figures in contemporary philosophy who are also friends, colleagues, and former students of György Markus. The book is divided into two sections: the first presents critical assessments of various aspects of Markus's wide-ranging works; the second presents contributions in celebration of his influence and his wide interests. In their critical assessment of Markus's work and in the demonstration of his influence, the contributors hope to convey something of the breadth and something of the excitement of doing philosophy in the company of György Markus.
