Sustainable Communities Hugh Barton,2013-12-02 This book re addresses the concepts of neighbourhood and community in a refreshing and challenging way It will be of immense benefit not only to town planners but also to al those professional and voluntary groups and politicians who seek to create the new communities of tomorrow From the Foreword by Jed Griffiths Past President of the Royal Town Planning Institute There is widespread support for the principle of creating more sustainable communities but much hazy wishful thinking about what this might mean in practice In reality we witness more the death of local neighbourhoods than their creation or rejuvenation reflecting an increasingly mobile privatized and commodified society Sustainable Communities examines the practicalities of re inventing neighbourhoods It is neither an idealistic utopian tract nor a designer s manual but is rather a serious attempt to address the real issues This collection of expert contributions examines the nature of local community and methods of building social capital presents the findings of a world wide survey of eco neighbourhoods and eco villages with case studies from the United Kingdom Europe America and Australia develops a fresh perspective on the planning and design of neighbourhoods in urban areas based on the eco system approach explores practical programmes for local resource management and the implications for community based decision making provides a detailed appendix listing current eco village and eco neighbourhood schemes by country Written by an interdisciplinary team of social and environmental scientists town planners and urban designers this is a thought provoking and important contribution to both the theory and practice of the development of sustainable communities Towns, Plans and Society in Modern Britain Helen Meller,1997-08-07 In this concise survey Helen Meller aims to explore the interaction of the social and physical environment of cities All modern societies have experienced mass urbanisation and have been subject to the economic social and technological forces which have produced this urbanisation Yet all towns and cities are not the same The author points out that historical and cultural factors have played and are still playing an important part in shaping responses to these forces This becomes even more clearly evident when the urban environment becomes subject to planning Urban regeneration has facilitated not just an improvement in the physical environment of cities but in their economic and social fortunes as well This study is an accessible analysis of the way in which social cultural and physical factors have created the quality of life in British cities over the past two centuries Cultural Intermediaries Connecting Communities Jones, Phil,Perry, Beth,2019-06-12 Based on a four year research project which highlights the important role of community

organisations as intermediaries between community and culture this book analyses the role played by cultural intermediaries who seek to mitigate the worst effects of social exclusion through engaging communities with different forms of cultural consumption and production The authors challenge policymakers who see cultural intermediation as an inexpensive fix to social problems and explore the difficulty for intermediaries to rapidly adapt their activity to the changing public sector landscape and offer alternative frameworks for future practice *Poverty, Community and Health* V. Cattell, 2011-10-27 If we are becoming increasingly disconnected from our local communities are there implications for health well being and happiness particularly for people on low incomes This book looks at the interplay between poor people poor communities and poor health with a particular focus on social networks as key linkages **Resources in Education** , 1999-04 **Building**

Democracy Graham Towers, 2003-09-02 Building Democracy is a major contribution to the growing public debate about the revival of community values in the face of the self evident short comings of the free market specifically in terms of community architecture Providing a historical context and an authoritative account of a movement that is proving surprisingly extensive and enduring the book also examines the relevance of the approach to today s social and environmental problems particularly in the inner cities Community architecture was promoted in the early 1980s as the achievement of a handful of pioneering architects finding new ways of working with groups of ordinary people to help them develop their own homes and community facilities Building Democracy records the achievements of this movement and analyzes its contribution in addressing the problems of inner cities Beginning with the origins of the urban question in the industrialization of the 19th century the book goes on to look at the large scale urban redevelopment of the 1960s the latest and most concerted attempt to remodel Victorian cities and on to community action from which grew new approaches to design development and construction This book is of practical value to planners architects surveyors and landscape designers concerned with socially relevant design as students or professionals It will also be of interest to many people in the voluntary sector and in local government

Evaluation in Health Promotion Irving Rootman, 2001 This book is the result of the WHO European Working Group on Health Promotion Evaluation which examined the current range of qualitative and quantitative evaluation methods to provide guidance to policy makers and practitioners It includes an extensive c **Urban Renaissance?** Imrie, Rob, Raco, Mike, 2003-05-21 This book documents and assesses the core of New Labour s approach to the revitalisation of cities that is the revival of citizenship democratic renewal and the participation of communities to spear head urban change In doing so the book explores the meaning and relevance of community as a focus for urban renaissance It interrogates the conceptual and ideological content of New Labour s conceptions of community and through the use of case studies evaluates how far and with what effects such conceptions are shaping contemporary urban policy and practice The book is an important text for students and researchers in geography urban studies planning sociology and related disciplines It will also be of interest to officers working in local and central government voluntary organisations community groups and those with a stake in
