Radical History Review: Volume 52 Barbara Smith, 1992-11-12 This is volume 52 of the Radical History Review series It deals specifically with new directions in gender history and the history of sexuality **Law, Crime and Deviance since 1700** David Nash, Anne-Marie Kilday, 2016-11-17 CHOICE Outstanding Academic Title 2017 Law Crime and Deviance since 1700 explores the potential for the micro study approach to the history of crime and legal history A selection of in depth narrative micro studies are featured to illustrate specific issues associated with the theme of crime and the law in historical context The methodology used unpacks the wider historiographical and contextual issues related to each thematic area and facilitates discussion of the wider implications for the history of crime and social relations The case studies in the volume cover a range of incidents relating to crime law and deviant behaviour since 1700 from policing vice in Victorian London to chain gang narratives from the southern United States The book concludes by demonstrating how these narratives can be brought together to produce a more nuanced history of the area and suggests avenues for future research and study Real History Martin Bunzl, 2005-06-20 In Real History Martin Bunzl brilliantly succeeds in bringing together two schools of thought at the forefront of the philosophy of history that of realism and objectivity He shows us how the realism debate is inhabited by philosophers whereas the objectivity argument lies in the hands of historians In his lucid and direct style Bunzl proposes a synthesis between these two parallel traditions We see that what historians say they are doing is not necessarily

what they are actually doing Bunzl draws on recent work from the likes of Foucault to Rorty to develop a new model for the philosophy of history a model which essentially calls for the collapse of the realism objectivity dichotomy Martin Bunzl clearly merges the two parallel debates of history and philosophy He draws on relevant discussions ranging from post structuralism to the philosophy of science to notions of realism and objectivity to debates about the history of women *Understanding the Cold War* Elspeth O'Riordan, 2022-09-29 This book provides an advanced introduction to the Cold War assessing its origins development and conclusion as a dynamic interaction between superpower confrontation and complex regional and local situations The evolution of the subject's scholarly debate is discussed throughout and the contest situated alongside enduring historical themes including decolonisation development nationalism and globalisation Regional case studies on Europe East and Southeast Asia Latin America and the Middle East illuminate the Cold War's global reach Thematic analysis considers competition in military strategic and economic spheres as well as in aspects of culture ideology society and Human Rights The Cold War's transnational elements and facets of international cooperation are also highlighted The book unpacks the subject's extensive scholarly discourse underlining the interdisciplinary character of today's Cold War historiography and the importance of understanding that its development has been informed by a vibrant interface between international history international relations and the Cold War itself

Guantanamo Jana K. Lipman, 2008-12-02 Guant namo has become a symbol of what has gone wrong in the War on Terror Yet Guant namo is more than a U S naval base and prison in Cuba it is a town and our military occupation there has required more than soldiers and sailors it has required workers This revealing history of the women and men who worked on the U S naval base in Guant namo Bay tells the story of U S Cuban relations from a new perspective and at the same time shows how neocolonialism empire and revolution transformed the lives of everyday people Drawing from rich oral histories and little explored Cuban archives Jana K Lipman analyzes how the Cold War and the Cuban revolution made the naval base a place devoid of law and accountability The result is a narrative filled with danger intrigue and exploitation throughout the twentieth century Opening a new window onto the history of U S imperialism in the Caribbean and labor

history in the region her book tells how events in Guant namo and the base created an ominous precedent likely to inform the functioning of U S military bases around the world *Historiography: Foundations* Robert M. Burns,2006 This collection aims to enable the reader to disentangle some of the ambiguities and confusions which have characterized the use of the term historiography *Solitary Confinement* Lisa Guenther,2013-08-01 Prolonged solitary confinement has become a widespread and standard practice in U S prisons even though it consistently drives healthy prisoners insane makes the mentally ill sicker and according to the testimony of prisoners threatens to reduce life to a living death In this profoundly important and original book Lisa Guenther examines the death in life experience of solitary confinement in America from the early nineteenth century to today s supermax prisons Documenting how solitary confinement undermines prisoners sense of identity and their ability to understand the world Guenther demonstrates the real effects of forcibly isolating a person for weeks months or years Drawing on the testimony of prisoners and the work of philosophers and social activists from Edmund Husserl and Maurice Merleau Ponty to Frantz Fanon and Angela Davis the author defines solitary confinement as a kind of social death It argues that isolation exposes the relational structure of being by showing what happens when that structure is abused when prisoners are deprived of the concrete relations with others on which our existence as sense making creatures depends Solitary confinement is beyond a form of racial or political violence it is an assault on being A searing and unforgettable indictment Solitary Confinement reveals what the devastation wrought by the torture of solitary confinement tells us about what it means to be human and why humanity is so often destroyed when we separate prisoners from all other people **Between Memory and History** Marie Noelle Bourguet,Lucette Valensi,Nathan Wachtel,2016-03-31 The recent wave of interest in oral history and return to the active subject as a topic in historical practice raises a number of questions about the status and function of scholarly history in our societies This articles in this volume originally published in 1990 and which originally appeared in *History and Anthropology* Volume 2 Part 2 discuss what contributions meanings and consequences emerge from scholarly history turning to living memory and what the relationships are between history and memory **Éirinn & Iran go Brách** Mansour Bonakdarian,2023-12-05 This book analyzes particular patterns of nationalist self configuration and nationalist uses of memory counter memory and historical amnesia in Ireland from roughly around the time of the emergence of a broad based non sectarian Irish nationalist platform in the late eighteenth century the Society of United Irishmen until Ireland s partition and the founding of the Irish Free State in 1922 In approaching Irish nationalism through the particular historical lens of Iran this book underscores the fact that Irish nationalism during this period and even earlier always utilized a historical paradigm that grounded Anglo Irish encounters and Irish nationalism in the broader world history a process that I term worlding of Ireland In effect Irish nationalism was always politically and culturally cosmopolitan in outlook in some formulations even in the case of many nationalists who resorted to insular and narrowly defined exclusionary ethnic and or religious formulations of the Irish nation Irish nationalists as nationalists in many other parts of

the world recurrently imagined their own history either in contrast to or as reflected in the histories of peoples and lands elsewhere even while claiming the historical uniqueness of the Irish experience Present in a wide range of Irish nationalist political cultural and historical utterances were assertions of past and or present affinities with other peoples and lands

History and Causality M. Hewitson, 2014-01-22 This volume investigates the different attitudes of historians and other social scientists to questions of causality It argues that historical theorists after the linguistic turn have paid surprisingly little attention to causes in spite of the centrality of causation in many contemporary works of history **Crucible of**

Freedom Eric Leif Davin, 2012-07-10 This book explores the relation between democracy and industrialization in United States history Over the course of the 1930s the political center almost disappeared as the Democratic New Deal became the litmus test of class with blue collar workers providing its bedrock of support while white collar workers and those in the upper income levels opposed it By 1948 the class cleavage in American politics was as pronounced as in many of the Western European countries such as France Italy Germany or Britain with which we usually associate class politics Working people created a new America in the 1930s and 1940s which was a fundamental departure from the feudalistic and hierarchical America that existed before They won the political rights of American citizenship which had been previously denied them They democratized labor capital relations and gained more economic security than they had ever known They obtained more economic opportunity for them and their children than they had ever known and they created a respect for ethnic workers which had not previously existed In the process class politics re defined the political agenda of America as for the first time in American history the political universe polarized along class lines Eric Leif Davin explores the meaning of the New Deal political mobilization by ordinary people by examining the changes it brought to the local county and state levels in Pittsburgh Allegheny County and Pennsylvania as a whole **Subversives** Seth Rosenfeld, 2024-03-26 Subversives traces the

FBI's secret involvement with three iconic figures at Berkeley during the 1960s the ambitious neophyte politician Ronald Reagan the fierce but fragile radical Mario Savio and the liberal university president Clark Kerr Through these converging narratives the award winning investigative reporter Seth Rosenfeld tells a dramatic and disturbing story of FBI surveillance illegal break ins infiltration planted news stories poison pen letters and secret detention lists He reveals how the FBI's covert operations led by Reagan's friend J Edgar Hoover helped ignite an era of protest undermine the Democrats and benefit Reagan personally and politically At the same time he vividly evokes the life of Berkeley in the early sixties and shows how the university community a site of the forward looking idealism of the period became a battleground in an epic struggle between the government and free citizens The FBI spent more than 1 million trying to block the release of the secret files on which Subversives is based but Rosenfeld compelled the bureau to release more than 250 000 pages providing an extraordinary view of what the government was up to during a turning point in our nation's history Part history part biography and part police procedural Subversives reads like a true crime mystery as it provides a fresh look at the legacy of

the sixties sheds new light on one of America's most popular presidents and tells a cautionary tale about the dangers of secrecy and unchecked power *A History of Disinformation in the U.S.* Joseph R. Hayden, 2024-06-07 This volume recounts notable episodes of distortion throughout American media history It examines several of the lurid hoaxes and conspiracy theories that have inspired press coverage as well as some of the political lies promoted by partisan gladiators whether of the eighteenth century or today The book moves beyond the sensational stories to show the enduring and systemic nature of media manipulation that occurs on far more consequential issues It exposes persistent and deeply destructive falsehoods that have been told about women people of color immigrants the LGBTQ community unions commercial products highlighting how longstanding bipartisan myths have effectively marginalized certain groups of Americans Alongside these cases the author carefully dissects the changing nature of institutions technologies and practices of journalism in America Attention is given to the evolution of newspapers in the eighteenth and nineteenth centuries the role of broadcasting in the twentieth and the impact of the internet and social media at the dawn of the twenty first This book will appeal to readers interested in American history journalism communication studies political science and sociology **Teacher Preparation in South Africa** Linda Chisholm, 2019-10-09 The book will focus on the emergence of a racially divided system of teacher preparation and its dismantling post apartheid It will explore the policies and politics of discrepant pathways to teacher preparation within the context of international and comparative trends
