Davidson, 2013-10-22 In Response to Aggression Methods of Control and Prosocial Alternatives describes and evaluates comprehensively what has been done in response to aggression with emphasis on aggression controls and alternatives The book is organized into four major parts These parts deal with aggression controls and alternatives specific for individual small group community and societal levels of intervention The book will lead to enhanced utilization of methods for aggression controls and alternatives and hence to widespread prosocial and constructive behaviors in response to aggression Taking Sides in Social Research Martyn Hammersley, 2005-08-12 In the past it was generally taken for granted that the goal of social research was the production of objective knowledge and that this required a commitment to value neutrality In more recent times however both these ideals have come to be challenged and it is often argued that all research is inevitably political in its assumptions and effects In this major contribution to the debate Martyn Hammersley assesses the arguments from the classic and still influential contributions of C Wright Mills Howard Becker and Alvin Gouldner to the present day He concludes that the case for

partisanship is not convincing and that an intelligent and sceptical commitment to the principles of objectivity and value neutrality must remain an essential feature of research
