Durkheim and Foucault Mark Sydney Cladis,1999 Education and punishment are two crucial sites of the disciplinary society approached by Durkheim and Foucault from different perspectives but also in a shared concern with what kind of society might constitute an emancipatory alternative This collection of essays explores the issues that are involved and that are illuminated through a comparison and contrast of two social theorists who at first sight might seem an unlikely couple Durkheim and Foucault

Emile Durkheim on Crime and Punishment (An Exegesis) Seamus Breathnach,2002 in civilised society the rising crime rate is a thing of terror Clever governments manipulate it the public messianically fear it and the social scientists misunderstand it In the face of such confusion Emile Durkheim reminds us that without a crime rate society is utterly impossible it cannot constitute itself maintain its solidarity or develop morally In short we cannot live with or without a crime rate This dissertation is an exegetical work and attempts to unpack the Criminology of Emile Durkheim It is divided into six chapters five of which are expository the sixth critical It begins with a look in overview at Durkheim s philosophy and how it underpins his theories of crime and punishment chap 1 By their nature theories of crime and punishment chap 2 presuppose the more primary theoretical formulations both of evolution and society chap 3 the one answering the theoretical time requirement the other the spatial requirement and each symbiotically related to the other in an integral theory of social evolution Durkheim s treatment of the modern State and the Conscience Collective as an organ of social control chap 4 is of primary importance not least because it underpins his treatment of the broader issues such as the connection between civil and criminal law morality and authority chap 5 Since there is hardly a serious Durkheimian proposition that is reducible to a provable or an uncontentious fact chap 6 it can hardly surprise us that on the one hand he attracted such copious criticism and on the other has remained perhaps the most popular sociologist of the twentieth and twenty first centuries

Durkheim Kieran Allen,Brian O'Boyle,2017-09-20 Emile Durkheim along with Karl Marx and Max Weber is one of the three founding fathers of sociology This is the first book to situate his sociology in the context of his republican politics freeing his ideas from more conventional studies and allowing the reader to see his ideas afresh This critical introduction argues that Durkheim s defence of Republican France in the 1890s had a considerable influence on his sociology which cannot be fully understood when removed from its historical and political context His dismissal of economic factors in suicide rates the influence of his anti feminist position on his findings on marriage rates and the idealism behind his claim that religion is the key determinant in

shaping society are all discussed Through analysing his writings including *The Division of Labour in Society* *Suicide* and *The Elementary Forms of Religious Life* this book provides a fascinating critical counterpoint to the existing works on this key figure of sociology
