A Homage to Pierre Bourdieu

Christoph Schumann's monograph on "Radical Nationalism in Syria and Lebanon; Political Socialization and Elite Formation, 1930-1958" offers an authoritative new approach to the growing historical literature in France and the US on Arab nationalisms during the Mandate period. He provides us with an stringent frame of analysis of how to deal with events that took place in the early parts of the century written down in the late 20th-century. Guided by the fundamental hypothesis that "human beings are historically and socially constituted and reside in an intermediary position between social structure and discourse" (p. 3), Schumann sets the methodological parameters in the introductory section. He sees his challenge in using autobiography as a historical source and goes to great lengths to navigate his analysis through the historiographical and theoretical maze of existing scholarship. Drawing on an in-depth discussion of Michel Foucault's archaeological method of discourse analysis ("between structuralism and hermeneutics") and Pierre Bourdieu's notions of social space, cultural capital and *habitus*, he argues that nationalism is a narrative construct that "has no origin or an essential inherent meaning, but rather a palpable composition, regularity and position in social discourse" (p. 19). Thus he shares with Rashid Khalidi (*Palestinian Identity* 1997) and James Gelvin (*Divided Loyalties*, 1998) the points that nationalism is multi-vocal and conjectural, has no singular root or authorship and that it is contingent on competing publics, symbols, slogans and rituals.

Radikalnationalismus In Syrien Und Libanonpolitische Sozialisation Und Elitenbildung 19301958:

Nazism in Syria and Lebanon Götz Nordbruch, 2009-01-13 This book reconstructs the intellectual and political encounters with Nazism in Lebanon and Syria under French mandate rule and situates them in the context of an evolving local political culture

Arab Responses to Fascism and Nazism Israel Gershoni, 2014-07-15 The first book to present an analysis of Arab response to fascism and Nazism from the perspectives of both individual countries and the Arab world at large this collection problematizes and ultimately deconstructs the established narratives that assume most Arabs supported fascism and Nazism leading up to and during World War II Using new source materials taken largely from Arab memoirs archives and print media the articles reexamine Egyptian Syrian Lebanese Palestinian and Iraqi responses in the 1930s and throughout the war While acknowledging the individuals forces and organizations that did support and collaborate with Nazi Germany and fascist Italy *Arab Responses to Fascism and Nazism* focuses on the many other Arab voices that identified with Britain and France and with the Allied cause during the war The authors argue that many groups within Arab societies elites and non elites governing forces and civilians rejected Nazism and fascism as totalitarian racist and most important as new more oppressive forms of European imperialism The essays in this volume argue that in contrast to prevailing beliefs that Arabs were de facto supporters of Italy and Germany since the enemy of my enemy is my friend mainstream Arab forces and currents opposed the Axis powers and supported the Allies during the war They played a significant role in the battles for control over the Middle East

Reconstruction as Violence in Assad's Syria Nasser Rabbat, Deen Sharp, 2025-08-19 A sustained critique of postwar reconstruction in Syria as a politically neutral process In 2011 emboldened by the Arab Spring the Syrians rose up against their government The Syrian regime used violence to suppress the protests so that what began as pro democracy protests eventually morphed into a civil war with heavy outside intervention Today the Assad regime has fallen but large parts of the country lie in ruins millions of Syrians are displaced and the economy is in freefall

Reconstruction as Violence delves into the complex interplay of post conflict reconstruction in Syria challenging the traditionally held dichotomy between the end of violence and the commencement of rebuilding The contributors to this volume architects urbanists geographers and historians employ critical concepts such as urbicide domicile and civilian crisis architecture to argue against the conventional theoretical frameworks that support a neat separation of phases They illustrate how reconstruction often extends the dynamics of conflict into the urban and social realms suggesting that the built environment becomes a battleground for further violence They emphasize the importance of acknowledging the historical economic societal legal and bureaucratic contexts that shape reconstruction efforts arguing for initiatives that prioritize equity inclusivity and community participation *Reconstruction as Violence* starkly underscores the authors stance that to overlook any of these dimensions or to disengage from the reconstruction process altogether represents a political choice with potentially detrimental effects on Syria and beyond in the Arab world where countries like Palestine Yemen Libya Iraq

Lebanon and Sudan are undergoing similar cycles of destruction and rebuilding It calls for a reimagined approach to reconstruction one that fosters peace resilience and social justice in post conflict societies Contributors Sawsan Abou Zainedin Madaniya London UK Ammar Azzouz University of Oxford UK Val rie Clerc Institut de Recherche pour le D veloppement France Emma Katherine DiNapoli human rights lawyer London UK Omar Ferwati Goldsmiths University of London UK Rim Lababidi architect and independent scholar Ohio USA Wendy Pullan University of Cambridge UK Nasser Rabbat Massachusetts Institute of Technology Cambridge MA USA Hashim Sarkis Massachusetts Institute of Technology Cambridge MA USA Deen Sharp London School of Economics UK Heghnar Watenpaugh University of California Davis CA USA

The Rise and Fall of Greater Syria Carl C. Yonker,2021-04-19 The Syrian Social Nationalist Party devoted itself to reviving and unifying the Syrian nation and establishing this nation s complete independence over its historical homeland Greater Syria It continues its struggle today influencing and shaping Lebanese and Syrian society and politics Yet the party remains largely unknown and misunderstood a condition that stems from the lack of any comprehensive study of it This book fills this gap Syrian nationalism and nationalist movements generally speaking have been largely neglected and ignored by historians scholars and observers of the Middle East So too has the SSNP The lack of detailed and nuanced analyses has left significant gaps in the party s rich history unaddressed and enabled the perpetuation of inaccuracies and misperceptions regarding its past Given this and the party s ongoing relevance in Lebanon and Syria a thorough examination of the early history of the SSNP the political organization and movement that embodied Syrian nationalism s most explicit most cogent expression is even more necessary Based on an extensive and thorough examination of Arabic French and English primary sources the monograph is the first comprehensive systematic history of the SSNP to date detailing its struggle to fulfill its nationalist vision and establish a secular independent state in Greater Syria through a thorough analysis of its formation evolution and political activities in Lebanon and Syria

The Origins of Syrian Nationhood Adel Beshara,2012-04-27 The Syria idea emerged in the nineteenth century as a concept of national awakening superseding both Arab nationalism and separatist currents Looking at nationalist movements ideas and individuals this book traces the origin and development of the idea of Syrian nationhood from the perspective of some of its leading pioneers Providing a highly original comparative insight into the struggle for independence and sovereignty in post 1850 Syria it addresses some of the most persistent questions about the development of this nationalism Chapters by eminent scholars from within and outside of the region offer a comprehensive study of individual Syrian writers and activists caught in a whirlwind of uncertainty competing ideologies foreign interference and political suppression A valuable addition to the present scholarship on nationalism in the Middle East this book will be of interest to many professionals as well as to scholars of history Middle East studies and political science

The Routledge Handbook of the History of the Middle East Mandates Cyrus Schayegh,Andrew Arsan,2015-06-05 The Routledge Handbook of the History of the Middle East Mandates provides an overview of the social political economic

and cultural histories of the Middle East in the decades between the end of the First World War and the late 1940s when Britain and France abandoned their Mandates. It also situates the history of the Mandates in their wider imperial international and global contexts incorporating them into broader narratives of the interwar decades. In 27 thematically organised chapters the volume looks at various aspects of the Mandates such as The impact of the First World War and the development of a new state system The impact of the League of Nations and international governance Differing historical perspectives on the impact of the Mandates system Techniques and practices of government The political social economic and cultural experiences of the people living in and connected to the Mandates This book provides the reader with a guide to both the history of the Middle East Mandates and their complex relation with the broader structures of imperial and international life It will be a valuable resource for all scholars of this period of Middle Eastern and world history

Barbara Henning, 2018-04-03 **Nationalism and Liberal Thought in the Arab East** Christoph Schumann, 2010-02-25
This book explores the complex relationship between nationalism and liberal thought in the Arab East during the first half of the twentieth century Examining this formative period through reformist Islam Arab secularism and Arab literature the book situates major shifts in the political ideologies and practices of Arab liberals within a historical context Contributions from renowned scholars in the field show how rather than fundamentally contradicting each other these two schools of thought are closely linked Many key demands of liberalism most notably constitutionalism the rule of law individual rights and popular participation have been central to the nationalist agenda while other issues have proven more controversial inter confessional tolerance secularism and the goals of state sponsored education Although a strong nation state was pivotal to the nationalist imagination during most of the twentieth century a powerful critique of unchecked state power took shape as Arab countries experienced a half century of authoritarian government In analyzing these issues the chapters demonstrate how the rise and fall of liberalism across the region was not determined solely by religion or culture but by the ideas of influential intellectuals and politicians Advancing our understanding of political ideology and practice in the Arab East this volume will be of great interest to students and scholars of political science history and the Middle East *Iraqi Arab Nationalism* Peter Wien, 2008-02-22 Peter Wien presents a provocative discussion on the history of Iraq and the growth of nationalism during the 1930s and early 1940s He deconstructs the established view that a large proportion of the nationalist movement in Iraq during this period was heavily influenced by Nazi Germany arguing that the admiration for Germany was highly nuanced and only rarely translated into admiration for Nazism National unity and patriotism were important but models of leadership were overwhelmingly based on Iraqis and not Hitler Analyzing the activities of the Iraqi youth and Jewish Iraqis *Iraqi Arab Nationalism* gives an understanding of Iraqis from diverse backgrounds It incorporates source material not previously used in discussions of Iraq and nationalism and contains autobiographical and biographical material

from officers intellectuals and politicians along with contemporary journalistic writings which sheds new light on Iraqi nationalism

Liberal Thought in the Eastern Mediterranean Christoph Schumann, 2008-10-31 This volume analyzes liberal thought in the Eastern Mediterranean since the late nineteenth century highlighting its long term and ongoing influence and challenging the conventional wisdom that liberalism has no legitimate place in the region's intellectual discourse By investigating the activities of diverse institutions media and personalities the authors in this volume examine the liberal ideas and values that emerged during eras of both peace and political turmoil while recognizing the factors contributing to their decline Seen from these many perspectives liberal thought developed not merely from Westernization but from the interaction between indigenous intellectual critique and political ideology political experiences and literary imagination and a mixture of admiration for and resistance to European ideas and political domination

Arab Liberal Thought after 1967 Meir Hatina, Christoph Schumann, 2016-04-29 This volume aims at confronting the image of the Middle East as a region that is fraught with totalitarian ideologies authoritarianism and conflict It gives voice and space to other more liberal and adaptive narratives and discourses that endorse the right to dissent question the status quo and offer alternative visions for society

Arab Nationalism Peter Wien, 2017-02-10 Arab nationalism has been one of the dominant ideologies in the Middle East and North Africa since the early twentieth century However a clear definition of Arab nationalism even as a subject of scholarly inquiry does not yet exist Arab Nationalism sheds light on cultural expressions of Arab nationalism and the sometimes contradictory meanings attached to it in the process of identity formation in the modern world It presents nationalism as an experienceable set of identity markers in stories visual culture narratives of memory and struggles with ideology sometimes in culturally sophisticated forms sometimes in utterly vulgar forms of expression Drawing upon various case studies the book transcends a conventional history that reduces nationalism in the Arab lands to a pattern of political rise and decline It offers a glimpse at ways in which Arabs have constructed an identifiable shared national culture and it critically dissects conceptions about Arab nationalism as an easily graspable secular and authoritarian ideology modeled on Western ideas and visions of modernity This book offers an entirely new portrayal of nationalism and a crucial update to the field and as such is indispensable reading for students scholars and policymakers looking to gain a deeper understanding of nationalism in the Arab world

Hamidian Palestine Johann Büssow, 2011-08-11 During the era of Sultan Abd lhamid II modern state institutions were established in Palestine while national identities had not yet developed Based on Arabic Turkish and Hebrew sources the book analyses this historical moment from a wide variety of perspectives

The Politics of Self-Expression Markus Daechsel, 2006-09-27 The 1930s to 1950s witnessed the rise and dominance of a political culture across much of North India which combined unprecedented levels of mobilization and organization with an effective depoliticization of politics On the one hand obsessed with world events people also came to understand politics as a question of personal morality and achievement In other words politics was about expressing the self in new ways and about finding and

securing an imaginary home in a fast moving and often terrifying universe The scope and arguments of this book make an innovative contribution to the historiography of modern South Asia by focusing on the middle class milieu which was the epicentre of this new political culture **The Middle East and the Making of the Modern World** Cyrus

Schayegh,2017-08-28 How do historians make sense of the spatial layeredness of the past Cyrus Schayegh argues that the modern world s ultimate socio spatial feature is not the oft studied processes of globalization or state formation or urbanization but rather the fast paced mutually transformative intertwinements of cities regions states and global circuits

Being Modern in the Middle East Keith David Watenpaugh,2006 Connects the question of modernity to the formation of the Arab middle class This book explores the rise of a middle class of liberal professionals during the 20th century in the Arab Middle East and the ways its members created civil society and new forms of politics bodies of thought and styles of engagement with colonialism In this innovative book Keith Watenpaugh connects the question of modernity to the formation of the Arab middle class The book explores the rise of a middle class of liberal professionals white collar employees journalists and businessmen during the first decades of the twentieth century in the Arab Middle East and the ways its members created civil society and new forms of politics bodies of thought and styles of engagement with colonialism Discussions of the middle class have been largely absent from historical writings about the Middle East Watenpaugh fills this lacuna by drawing on Arab Ottoman British American and French sources and an eclectic body of theoretical literature and shows that within the crucible of the Young Turk Revolution of 1908 World War I and the advent of late European colonialism a discrete middle class took shape It was defined not just by the wealth professions possessions or the levels of education of its members but also by the way they asserted their modernity *Confronting Fascism in Egypt* Israel Gershoni,James Jankowski,2009-10-21 Confronting Fascism in Egypt offers a new reading of the political and intellectual culture of Egypt during the interwar era Though scholarship has commonly emphasized Arab political and military support of Axis powers this work reveals that the shapers of Egyptian public opinion were largely unreceptive to fascism openly rejecting totalitarian ideas and practices Nazi racism and Italy s and Germany s expansionist and imperialist agendas The majority although not all of Egyptian voices supported liberal democracy against the fascist challenge and most Egyptians sought to improve and reform rather than to replace and destroy the existing constitutional and parliamentary system The authors place Egyptian public discourse in the broader context of the complex public sphere within which debate unfolded in Egypt s large and vibrant network of daily newspapers as well as the weekly or monthly opinion journals emphasizing the open diverse and pluralistic nature of the interwar political and cultural arena In examining Muslim views of fascism at the moment when classical fascism was at its peak this enlightening book seriously challenges the recent assumption of an inherent Muslim predisposition toward authoritarianism totalitarianism and Islamo Fascism **Harem Histories** Marilyn Booth,2010 An interdisciplinary collection of essays exploring the harem as it was imagined represented and experienced in Middle Eastern

and North African societies and by visitors to those societies **Late Ottoman Palestine** Yuval Ben-Bassat, Eyal Ginio, 2011-06-30 The decisive consequences of the Young Turk Revolution of 1908 had ramifications over the entire Ottoman Empire and the Ottoman territory of Palestine was no exception Late Ottoman Palestine examines the impact of Young Turk policies and reforms on local societies and administration using Palestine as a prism through which to explore the impact of the Revolution in the provincial arena far from the administrative and political centre of the capital It thus sheds light upon the last decade of Ottoman rule in Palestine crucially dealing with the roots of Jewish Arab conflict in the area and the early crystallization of Arab Palestinian and Zionist identities along with that of an Ottoman imperial identity It will be a vital resource for students and researchers interested in the modern history of the Middle East the Ottoman Empire and Palestine
