Why radio commercials are more effective than advertisers think Caroline Harsch, 2018-08-27 Seminar paper from the year 2013 in the subject Communications Public Relations Advertising Marketing Social Media grade 1 3 University of Tübingen language English abstract Since people started to invent and sell products to others advertising became more and more important as the diversity of products and brands grew Advertisers use many different ways to convince their target audience to buy the product e g the wide variety of media such as TV radio Print or Internet The first media used for advertising as we know it today were printed media such as bills newspapers and magazines As those media only attracted the eye of people everybody was thrilled by the possibility the new invention radio offered Advertisers were able to reach their target audience through their ears Today radio doesn't seem to be that startling anymore compared to inventions like TV or Internet They both combine seeing and hearing and the Internet also allows users to become active themselves Due to the widespread meaning that advertising is more effective reaching the eye of clients than only their ear radio is used the least as an advertising medium The opportunities radio offers because it's only made for the ear aren't seen by advertisers and companies and over the years radio became the Stiefkind der Werbung Goldhammer 1998 p 17 The little usage of radio as an advertising media is not adequate compared to the position it has for people because in Germany is a nearly full supply of radios and most of the house holds even own more than one radio Because of that drawback the present essay focuses on the question why radio should be used more as an advertising media by pointing out the advantages it offers to advertisers

whereupon some pros only can be given by radio and not by any other media For some background information the essay gives a short summary of the history of radio advertising chapter 2 Chapter 3 makes the difference between the usage of radio by publics and by advertisers clear After that analysis chapter 4 1 describes some more advantages radio offers as an advertising medium besides the results of the Media Analysis On the basis of all those chapters some hints for a good commercial are given in chapter 4 2 Chapter 5 is about the effect radio commercials have on listeners At first it is explained how radio commercials are processed by the human brain while chapter 5 2 to 5 4 interpret a research for the company Das rtliche to explain how radio Mono Campaigns strategies with a mixture between radio and TV and campaigns with three different media work
