Made of Shores Amalia Ran, 2011-08-16 This book offers to rethink identities within contemporary Judeo Argentinean fiction by dealing with the transforming notion of Jewishness and of national identity in Argentina It focuses on the dialogue and confrontation between the narrative text and the imaginary national space it questions By reviewing the new material conditions within Argentina and its diasporic communities this book imposes a new reflection on what Judeo Argentinean fiction is all about It reflects on the shifting notion of identity abandoning traditional definitions in order to rather analyze how feelings of alienation and nostalgia echo an era of transculturation and floating borders The novels that this book studies return to the past from a certain distance created by time and space This distance leads the reader to question the relevance of geographical cultural and linguistic differences within identity formation Since its beginning the research of Jewish Latin America has focused on the quest of Jewish immigrants for a consolidated identity social and cultural integration in their receiving societies and recognition within the official and canonical national history Traditional scholarship has paid special attention to the construction of collective memory and the dilemma of double identity Nonetheless the transforming notion of otherness in the last few decades associated traditionally with the Jewish character requires a new approach when discussing contemporary affiliations of Jews in Argentina and their narrative representations New waves of emigration from Argentina at the beginning of the new millennium economic and social disintegration general disillusion with the state apparatus and the gaps left in the collective memory following the years of the military dictatorship redefine personal and collective identities and demand a careful reexamination of the concept of argentinidad and its cultural significances

Critique of Latin American Reason Santiago Castro-Gómez,2021-09-21 Critique of Latin American Reason is one of the most important philosophical texts to have come out of South America in recent decades First published in 1996 it offers a sweeping critique of the foundational schools of thought in Latin American philosophy and critical theory Santiago Castro G mez argues that Latin America is not so much a geographical entity a culture or a place but rather an object of knowledge produced by a family of discourses in the humanities that are inseparably linked to colonial power relationships Using the archaeological and genealogical methods of Michel Foucault he analyzes the political literary and philosophical discourses and modes of power that have contributed to the making of Latin America Castro G mez examines the views of a wide range of Latin American thinkers on modernity postmodernity identity colonial history and literature also considering how these questions have intersected with popular culture His critique spans Central and South America and it also implicates broader and protracted global processes This book presents this groundbreaking work of

contemporary critical theory in English translation for the first time It features a foreword by Linda Martín Alcoff a new preface by the author and an introduction by Eduardo Mendieta situating Castro Gómez's thought in the context of critical theory in Latin America and the Global South Two appendixes feature an interview with Castro Gómez that sheds light on the book's composition and short provocations responding to each chapter from a multidisciplinary forum of contemporary scholars who resituate the work within a range of perspectives including feminist Francophone African and decolonial Black political thought

Historia comparada de las literaturas argentina y brasileña - Tomo IV Marcela Croce ,2018-06-12 El período que se inicia con las manifestaciones vanguardistas de los años 20 y se cierra con el desbaratamiento de los regímenes de Getúlio Vargas y Juan Domingo Perón es uno de los más fructíferos en términos estéticos Una antropología impresionista lo caracteriza como el momento que conduce de los últimos hombres felices a los sujetos desazonados que en los años 50 procuran reflotar una izquierda revolucionaria en medio de la debacle del populismo Para llegar a ese punto tanto la Argentina como Brasil atravesaron una etapa de ensayos intuitivos a veces con afanes sociológicos e invariablemente con un despliegue retórico que ubica a esas obras entre las producciones más representativas de la literatura En el orden de las aproximaciones voluntaristas al ser nacional se enlazan Ezequiel Martínez Estrada y Gilberto Freyre Eduardo Mallea y Paulo Prado Raúl Scalabrini Ortiz y Sérgio Buarque de Holanda a veces conectados con la vanguardia más revulsiva la Antropofagia y el martinfierrismo a veces oponiéndose a semejantes desbordes el regionalismo El volumen comienza estableciendo las condiciones para que surjan los movimientos de renovación y se clausura con el lamento oligárquico por la pérdida de privilegios que se advierte definitiva hacia mediados de siglo Las contradicciones que abarcan tres décadas son indagadas en una serie de capítulos en que las polémicas más virulentas alternan con el humanismo político la militancia católica y la búsqueda de explicaciones para la modernización dependiente en la que quedan incluidos Argentina y Brasil en el orden mundial definido por el dominio absoluto de los Estados Unidos en la escena internacional
