The Rise and Fall of the Great Barbate David Rodriguez,2011-12-08 Starting with the sinister rumblings of World War II in 1939 up to the jubilant celebration of its end in 1945 and the bitter aftermath this sweeping saga recounts the experiences of Pawel a Polish Jew from Krakow Pawel and his family are the early victims of the ravages of war He narrowly escapes the concentration camps to become a member of the French Resistance before being rescued by the British and enlisted in the Royal Air Force As the war escalates Pawel and his fellow pilots engage in dangerous rescue missions and air combat across North Africa Asia the Mediterranean Australia and Europe in a series of historic encounters that culminate in the Battle of Berlin Against the background of death and destruction Pawel fathers two children His former Austrian fianc Ada Eissmann has spurned their love to return to her Nazi heritage and has disowned their relationship and his paternity of the child she carries After finding love again with Janelle and fathering her child he is separated from her when they have to flee to safety to escape the Nazi death squads Finding his love and his two children becomes a personal mission for him representing hope

and the chance for happiness after years of conflict danger deprivation and loss **The Death of General Sikorski** Peter Zablocki,2024-08-30 The plane crash at the height of the Second World War which claimed the life of the Polish Prime Minister General Władysław Sikorski ranks among the most enduring mysteries of the conflict It was a death that shifted European alliances and loyalties brought Stalin into the Anglo American camp and sealed Poland's fate for the remainder of the twentieth century Poland and the Soviet Union's historically precarious relationship had taken an even darker turn in September 1939 when the Third Reich's Adolf Hitler and the Soviet Union's Josef Stalin divided the nation and forced its government to relocate first to France and then to Britain in 1940 Sikorski's Polish government in exile established a military political and personal relationship with Winston Churchill's government only to see it fractured by the United States entrance into the war and the Western Allies courtship of Stalin following Hitler's invasion of the Soviet Union The Allies overall support of Stalin's denials following the 1943 discovery of 20 000 bodies of Polish officers murdered and buried by the Soviets in Katyn Forest only made matters worse Sikorski's open protests against describing the Soviet dictator as a benevolent Uncle Joe made him publicly and privately difficult to the new Anglo American Soviet coalition As per reports of the British and Polish intelligence services seemingly not doing enough to stand up to the Soviets had also strained Sikorski's relationship with different Polish government factions Leaving from a layover stop at Gibraltar on 4 July 1943 having visited Polish Army units in Iran Sikorski's RAF Liberator AL523 crashed into the sea just sixteen seconds into its flight while Stalin privately blamed Churchill the Germans were more public in accusing the British Others pointed to the Soviets or even the Poles A British Court of Inquiry convened in 1943 presented an inconclusive report on the crash's cause or foul play and locked up most of its files until 2043 Lacking a respected leader Poland fell out of favour with the Allies who allowed Stalin to redraw the Polish borders and establish a pro communist puppet state in Poland until 1990 Not only exploring what happened on that fateful day in 1943 but also the events leading up to it and those that followed The Death of General Sikorski is more of a political thriller than a conspiracy book telling an often complex and enthralling story of a tragedy within a tragedy that of a man and his nation **Stations Of Coastal Command** David Smith,2016-02-28 Coastal

Command created in 1936 alongside Fighter and Bomber Commands in the reorganization of the RAF in its preparations for the coming war was Britain's mainstay in the battle against the German submarine As more and more Allied merchantmen were sunk during the long voyage from North America the Mediterranean and points south tracking down the U Boats became a constant struggle against harsh weather on long distance patrols out over the Atlantic and Bay of Biscay To counter the threat Coastal Command established a ring of bases stretching from Scotland and Northern Ireland to Iceland and from south Wales and south western Britain to Gibraltar and the Azores all 53 of these stations are covered in this book

A Bucket of Sunshine Mike Brooke,2012-05-01 A Bucket of Sunshine a term used for the use of a nuclear bomb is a firsthand insight into life in the mid 1960s on a RAF Canberra nuclear armed squadron in West Germany on the frontline in

the Cold War Mike Brookes describes not only the technical aspect of the aircraft and its nuclear and conventional roles and weapons but also majors on the low level flying that went with the job of being ready to go to war at less than three minutes notice Brooke tells his story warts and all with many amusing overtones in what was an extremely serious business when the world was standing on the brink of nuclear conflict The English Electric Canberra was a first generation jet powered light bomber manufactured in large numbers in the 1950s The Canberra could fly at a higher altitude than any other bomber through the 1950s and set a world altitude record of 70 310 feet Due to its ability to evade early interceptors and providing a significant performance advancement over piston engine bombers the Canberra was a popular export product and served with many nations Although jet powered the Canberra design philosophy was very much in the Mosquito mould providing room for a substantial bomb load fitting two of the most powerful engines available and wrapping it in the most compact and aerodynamic package possible Rather than devote space and weight to defensive armament the Canberra was designed to fly fast and high enough to avoid air to air combat entirely
