Narim Bender,2013-12-27 Raffaello Sanzio was an Italian Renaissance painter architect and designer His work along with that of his older contemporaries Leonardo and Michelangelo defined the High Renaissance style in central Italy His posthumous reputation was even greater for until the later 19th century he was regarded by almost all critics as the greatest painter who had ever lived the artist who expressed the basic doctrines of the Christian Church through figures that have a physical beauty worthy of the antique He became the ideal of all academies it was against his authority that the Pre Raphaelites revolted and today we approach him through a long tradition in which Raphaellesque forms and motifs have been

used with a steady diminution of their values He has been a major inspiration to great classical painters such as Annibale Carracci Poussin and Ingres Raffaello was one of the finest masters of drawing in the history of art The completing of a huge number of studies in a diversity of techniques was Raphael s typical practice He first made rapid sketches and then polished them for transfer The number of his existing drawings is over 400 but this is only a small part of the amount he produced There was a diversity of media and techniques in his time and he explored all of them Raphael acquired ability in the use of silverpoint in which the metal tip of a stylus is worked on a prepared ground applied to the paper He first used pen and ink broadly after 1505      *Raphael (World of Art)* Paul Joannides,2022-07-19 An authoritative introduction to Raphael one of the

most influential painters in the history of art written by the preeminent authority on the subject and informed by the latest research For centuries Raphael has been recognized as the supreme High Renaissance painter with many considering him more versatile than Michelangelo and more prolific than his older contemporary Leonardo da Vinci Though he died young at thirty seven Raphael's example as a paragon of classicism dominated the academic tradition of European painting until the mid nineteenth century This comprehensive survey looks at the different social and regional contexts of Raphael's work and all aspects of his artistic production From early training in Urbino to travels across central Italy particularly Florence where he became a noted portraitist and painter of Madonnas to engagement by the papal court this volume covers all areas of the artist's practice Focus is also devoted to the second half of Raphael's career when he became the dominant artist in Rome even ahead of Michelangelo and as a sophisticated entrepreneur was able to extend the range of his activities to that of architect designer pioneer archaeologist and theoretician A beautifully illustrated study with over 150 full color reproductions of Raphael's work ranging from major masterpieces to lesser known paintings and drawings from all periods art historian Paul Joannides one of the world's leading experts on Raphael's drawings sheds new light on this seminal artist
