**Psychological Components of Sustainable Peace** Peter T. Coleman,Morton Deutsch,2012-06-15 Scholarship on the psychology of peace has been accumulating for decades The approach employed has been predominantly centered on addressing and preventing conflict and violence and less on the conditions associated with

promoting peace Concerns around nuclear annihilation enemy images discrimination denial of basic human needs terrorism and torture have been the focal points of most research The Psychological Components of a Sustainable Peace moves beyond a prevention orientation to the study of the conditions for increasing the probabilities for sustainable cooperative peace Such a view combines preventative scholarship with a promotive orientation to the study of peaceful situations and societies The contributors to this volume examine the components of various psychological theories that contribute to the promotion of a harmonious sustainable peace Underlying this orientation is the belief that promoting the ideas and actions which can lead to a sustainable harmonious peace will not only contribute to the prevention of war but will also lead to more positive constructive relations among people and nations and to a more sustainable planet The Psychological Components of a Sustainable Peace is valuable and stimulating reading for researchers in peace psychology political psychology and conflict resolution as well as others who are interested in developing a sustainable harmonious world *Ezra, Nehemiah, Esther* Gary Smith, 2018-02-06 The Cornerstone Biblical Commentary series provides up to date evangelical scholarship on the Old and New Testaments Each volume is designed to equip pastors and Christian leaders with exegetical and theological knowledge to better understand and apply God's Word by presenting the message of each passage as well as an overview of other issues surrounding the text The commentary series has been structured to help readers get at the meaning of Scripture passage by passage through the entire Bible Each Bible book is prefaced by a substantial book introduction that gives general historical background important for understanding This is volume 5b in the series Gary V Smith Ph D Dropsie College was a member of the translation teams for both the NLT and HCSB Bible translation projects and has written numerous articles reviews and books on the Old Testament These include Hosea Amos and Micah for the NIV Application Commentary series and Isaiah in the New American Commentary series He has taught Old Testament at Bethel Theological Seminary in Minnesota and was professor of Old Testament and Hebrew at Midwestern Baptist Theological Seminary in Missouri In 2004 he began teaching at Union University where he is currently professor of Christian Studies Three Modes of Perception in Mozart Edmund J. Goehring, 2004-11-11 This 2004 book is a full length scholarly study of what is widely regarded as Mozart's most enigmatic opera and Lorenzo Da Ponte's most erudite text Against the long standing judgement that the opera uses a misguided confidence in reason to traduce feeling Goehring's study shows how *Così* affirms comedy's regenerative powers and its capacity to grant access to modes of sympathy and understanding that are otherwise inaccessible In making this argument the book surveys a rich literary operatic and intellectual territory It offers fresh perspective on the relationships between text and tone in the opera on the tension between comedy and philosophy and its representation in stage works and on the pastoral mode which the opera uses in subtle ways Throughout Goehring's argument is sustained by close readings of primary sources many of them little known and is richly illustrated with musical examples Desire in Paul's Undisputed Epistles Andrew Bowden, 2020-12-18 In this study Andrew Bowden analyzes Paul's

use of desire and in his undisputed epistles After introducing critical research on these lexemes the author applies John Lyons s theory of semantic analysis to the use of in Roman imperial texts Based on these observations he makes a hypothesis concerning the common co occurrences of desire in Roman imperial texts its antonyms the objects it longs for and its use within metaphorical discourse This hypothesis is then tested by looking at the use of desire in Dio Chrysostom Epictetus Lucian of Samosata the Cynic epistles and Second Temple Jewish texts Andrew Bowden illustrates how contrary to the view of many scholars these Roman imperial authors consistently mention positive objects of desire He then applies these findings concerning desire to Paul yielding important and sometimes unexpected discoveries
