Raiding The Land Of The Foreigners The L:

Raiding the Land of the Foreigners Danilyn Rutherford, 2021-01-12 What are the limits of national belonging Focusing on Biak a set of islands off the coast of western New Guinea in the Indonesian province of Irian Jaya Danilyn Rutherford's analysis calls for a rethinking of the nature of national identity With the resurgence of separatism in the province Irian Jaya has become the focus of fears that the Indonesian nation is falling apart Yet in the early 1990s the fieldwork for this book was made possible by the government's belief that Biaks were finally beginning to see themselves as Indonesians Taking in the dynamics of Biak social life and the islands long history of millennial unrest Rutherford shows how practices that indicated Biaks submission to national authority actually reproduced antinational understandings of space time and self Approaching the foreign as a focus of longing in cultural arenas ranging from kinship to Christianity Biaks participated in Indonesian national institutions without accepting the identities they promoted Their remarkable response to the Indonesian government and earlier polities laying claim to western New Guinea suggests the limits of national identity and modernity writ large This is one of the few books reporting on the volatile province of Irian Jaya It offers a new way of thinking about the nation and its limits one that moves beyond the conventions of both scholarship and recent journalism It shows how people can belong to a nation yet maintain commitments that fall both short of and beyond the nation state

Land of Famished Beings Sophie Chao, 2025-07-25 Sophie Chao examines how Indigenous Marind communities understand and theorize the condition of hunger in lowland West Papua where industrial plantation expansion and settler colonial violence are radically reconfiguring ecologies socialities and identities

The Returns of Fetishism Charles de Brosses, 2017-07-26 For more than 250 years Charles de Brosses's term fetishism has exerted great influence over our most ambitious thinkers Used as an alternative to magic but nonetheless expressing the material force of magical thought de Brosses's term has proved indispensable to thinkers as diverse as Kant Hegel Marx Freud Lacan Baudrillard and Derrida With this book Daniel H Leonard offers the first fully annotated English translation of the text that started it all On the Worship of Fetish Gods and Rosalind C Morris offers incisive commentary that helps modern readers better understand it and its legacy The product of de Brosses's autodidactic curiosity and idiosyncratic theories of language On the Worship of Fetish Gods is an enigmatic text that is often difficult for contemporary audiences to assess In a thorough introduction to the text Leonard situates de Brosses's work within the cultural and intellectual milieu of its time Then Morris traces the concept of fetishism through its extraordinary permutations as it was picked up and transformed by the fields of philosophy comparative religion political economy psychoanalysis and anthropology Ultimately she breaks new ground moving into and beyond recent studies by thinkers such as William Pietz Hartmut Böhme and Alfonso Lacono through illuminating new discussions on topics ranging from translation issues to Africanity and the new materialisms

Into the Field Miriam L. Kingsberg Kadia, 2019-11-26 In the 1930s a cohort of professional human scientists coalesced around a common and particular understanding of objectivity as the foundation of

legitimate knowledge and of fieldwork as the pathway to objectivity Into the Field is the first collective biography of this cohort evocatively described by one contemporary as the men of one age At the height of imperialism the men of one age undertook field research in territories under Japanese rule in pursuit of objective information that would justify the subjugation of local peoples After 1945 amid the defeat and dismantling of Japanese sovereignty and under the occupation and tutelage of the United States they returned to the field to create narratives of human difference that supported the new national values of democracy capitalism and peace The 1968 student movement challenged these values resulting in an all encompassing attack on objectivity itself Nonetheless the legacy of the men of one age lives on in the disciplines they developed and the beliefs they established about human diversity

Working Skin Joseph D. Hankins, 2014-07-26

Since the 1980s arguments for a multicultural Japan have gained considerable currency against an entrenched myth of national homogeneity Working Skin enters this conversation with an ethnography of Japan's Buraku people Touted as Japan's largest minority the Buraku are stigmatized because of associations with labor considered unclean such as leather and meat production That labor however is vanishing from Japan Liberalized markets have sent these jobs overseas and changes in family and residential record keeping have made it harder to track connections to these industries Multiculturalism as a project of managing difference comes into ascendancy and relief just as the labor it struggles to represent is disappearing Working Skin develops this argument by exploring the interconnected work of tanners in Japan Buraku rights activists and their South Asian allies as well as cattle ranchers in West Texas United Nations officials and international NGO advocates Moving deftly across these engagements Joseph Hankins analyzes the global political and economic demands of the labor of multiculturalism Written in accessible prose this book speaks to larger theoretical debates in critical anthropology Asian and cultural studies and examinations of liberalism and empire and it will appeal to audiences interested in social movements stigmatization and the overlapping circulation of language politics and capital

Historical Dictionary of Indonesia R. B.

Cribb, Audrey Kahin, 2004 Indonesia is Asia's third largest country in both population and area a sprawling tropical archipelago of some 180 million people from hundreds of ethnic groups with a complex and turbulent history One of Asia's newly industrializing countries it is already a major economic powerhouse In over 800 clear and succinct entries the dictionary covers people places and organizations as well as economics culture and political thought from Indonesia's ancient history up until the recent past Includes a comprehensive bibliography maps chronology list of abbreviations and appendix of election results and major office holders This second edition has been thoroughly updated and expanded to cover the events that have occurred in Indonesia's history in the past fifteen years **Mimesis and Pacific Transcultural Encounters**

Jeannette Mageo, Elfriede Hermann, 2017-10-01 How do images circulating in Pacific cultures and exchanged between them and their many visitors transform meanings for all involved This fascinating collection explores how through mimesis wayfarers and locales alike borrow images from one another to expand their cultural repertoire of meanings or borrow images from their own past to validate their identities **Sex and Salvation** Jennifer Cole, 2010-12-15 Sex and Salvation chronicles the coming of age of a generation of women in Tamatave in the years that followed Madagascar's economic liberalization Eager to forge a viable future amid poverty and rising consumerism many young women have entered the sexual economy in hope of finding a European husband Just as many Westerners believe that young people break with the past as they enter adulthood Malagasy citizens fear that these women have severed the connection to their history and culture Jennifer Cole's elegant analysis shows how this notion of generational change is both wrong and consequential It obscures the ways young people draw on long standing ideas of gender and sexuality it ignores how urbanites relate to their rural counterparts and it neglects the relationship between these husband seeking women and their elders who join Pentecostal churches And yet as talk about the women circulates through the city's neighborhoods bars Internet cafes and churches it teaches others new ways of being Cole's sophisticated depiction of how a generation's coming of age contributes to social change eschews a narrow focus on crisis Instead she reveals how fantasies of rupture and conceptions of the changing life course shape the everyday ways that people create the future *States and Citizens* Jon Shefner, 2015-11-16 This volume examines how states and citizens have been able to address globalization in different ways across the Global North and South Authors examine the state as it forms policies in agro production contends with critical constituencies and rebuilds capacity to act in the popular interest after forty years of neoliberal assault **Sovereignty Unhinged** Deborah A. Thomas, Joseph Masco, 2023-01-18 Sovereignty Unhinged theorizes sovereignty beyond the typical understandings of action control and the nation state Rather than engaging with the geopolitical realities of the present the contributors consider sovereignty from the perspective of how it is lived and enacted in everyday practice and how it reflects people's aspirations for new futures In a series of ethnographic case studies ranging from the Americas to the Middle East to South Asia they examine the means of avoiding the political and historical capture that make one complicit with sovereign authority rather

than creating the conditions of possibility to confront it. The contributors attend to the affective dimensions of these practices of world building to illuminate the epistemological, ontological, and transnational entanglements that produce a sense of what is possible. They also trace how sovereignty is activated and deactivated over the course of a lifetime within the struggle of the everyday. In so doing, they outline how individuals create and enact forms of sovereignty that allow them to endure fast and slow forms of violence while embracing endless opportunities for building new worlds.

The Oxford Handbook of Contextual Political Analysis Robert E. Goodin, Charles Tilly, 2008-06-20.

The Oxford Handbooks of Political Science is a ten-volume set of reference books offering authoritative and engaging critical overviews of the state of political science. Each volume focuses on a particular part of the discipline, with volumes on Public Policy, Political Theory, Political Economy, Contextual Political Analysis, Comparative Politics, International Relations, Law and Politics, Political Behavior, Political Institutions, and Political Methodology. The project as a whole is under the General Editorship of Robert E. Goodin, with each volume being edited by a distinguished international group of specialists in their respective fields. The books set out not just to report on the discipline but to shape it. The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines.

The Oxford Handbook of Contextual Political Analysis sets out to synthesize and critique for the first time those approaches to political science that offer a more fine-grained qualitative analysis of the political world. The work in the volume has a common aim in being sensitive to the thoughts of contextual nuances that disappear from large-scale quantitative modelling or explanations based on abstract general universal laws of human behavior. It shows that context matters in a great many ways: philosophical context matters, psychological context matters, cultural and historical contexts matter, place, population, and technology all matter. By showcasing scholars who specialize in the analysis of all these contexts side by side, the Oxford Handbook of Contextual Political Analysis shows how political scientists can take those crucial contextual factors systematically into account.

Rocky Boyer's War Allen D. Boyer, 2017-05-15.

In *Rocky Boyer's War*, Allen Boyer offers a wry, keen-eyed and occasionally disgruntled counterpoint history of the hard-fought, brilliant campaign that won World War II in the Southwest Pacific. Based in part on an unauthorized diary kept by the author's father, 1st Lt. Roscoe Rocky Boyer, this narrative history offers the reader an account of Allied air commander Gen. George Kenney's air blitz offensive as it was lived both in the cockpit and on the ground. During 1944, as Gen. Douglas MacArthur's forces fought their way from New Guinea to the Philippines, Kenney discarding pre-war doctrine, planned and ran an air blitz offensive. His 5th Air Force drove forward like a tank army, crash-landing in open country, seizing terrain, bulldozing new airfields, winning air control, and moving forward. At airfields on the front line, Rocky kept the radios working for the 71st Tactical Reconnaissance Group, a fighter-bomber unit. Diaries were

forbidden but Rocky kept one full of casualties accidents off duty shenanigans and rear area snafus He had friends killed when they shot it out with Japanese anti aircraft gunners or when their bombers vanished in bad weather He wrote about wartime camp life at Nadzab New Guinea the largest air base in the world part Scout camp and part frontier boomtown He knew characters worthy of Catch 22 combat flyers who played contract bridge military brass who played office politics black quartermasters and chaplains who stood up to colonels when a promotion party ended with drunken gunplay and dynamite This is a narrative of the war as airmen lived it Rocky s experience of life on the front line gives from the bottom up detail to the framework of Kenney s air blitz The author uses Rocky s story as a jumping off point from which to understand the daily life pranks mishaps and casualties of the men who in 1944 fought their way over the two thousand miles from New Guinea to the Philippines
