## **Railroad Fever Building The Transcontinental Railroad 1830 187:**

**Railroad Fever** Monica Halpern, 2004 Presents a history of the building of the transcontinental railroad and its effects on American life By the 1840s daring Americans were trickling westward to begin a new life in the great wide open When gold was discovered in 1848 the promise of riches drew people by the thousands out to California But the journey was slow and dangerous since the best ways of travelling were by wagon and on foot During the railroad fever of the 1830s thousands of miles of track were laid mostly throughout the Northeast and the South Few had dreamt of extending this new travel westward but all it takes is a few Abraham Lincoln signed the Pacific Railroad Act in 1862 allowing for the start of the first transcontinental railroad Though construction problems and hard times confronted them American workers Chinese immigrants and former slaves pounded away through the rough geography of the western U S paving a path for the new train A day in the life of a railroad worker was not an easy one The work was backbreaking the conditions were terrible and workers were often faced with attack from Native Americans The building of the railroad turned into a great race between two companies the Central Pacific and the Union Pacific to see who could finish their part of the railroad faster The company that got farthest stood to make the most money The great race turned into a national pastime with reports of progress dominating the news Railroad Fever illuminates the struggles of the railroad worker the anger of the Plains Indians and the many changes in both American life and geography that were prompted by the railroad The completion of the transcontinental railroad left empty boomtowns across the country changed the ethnic face of America and of course created a new exciting and fast way of travel Like the other titles in the Crossroads America series Railroad Fever is illustrated with period paintings drawings and photographs Also included are a glossary and an index Through the Eyes of a Child Donna E. Norton, Sandra E. Norton, 2007 CD ROM contains a database of children s literature **Social Science Abstracts**, 1932

Sandler, 2015-09-08 Experience the race of rails to link the country and meet the men behind this incredible feat in a riveting story about the building of the transcontinental railroad brought to life with archival photos In the 1850s gold fever swept the West but people had to walk sail or ride horses for months on end to seek their fortune The question of faster safer transportation was posed by national leaders But with 1 800 miles of seemingly impenetrable mountains searing deserts and endless plains between the Missouri River and San Francisco could a transcontinental railroad be built It seemed impossible Eventually two railroad companies the Central Pacific which laid the tracks eastward and the Union Pacific which moved

west began the job In one great race between iron men with iron wills tens of thousands of workers blasted the longest tunnels that had ever been constructed built the highest bridges that had ever been created and finally linked the nation by two bands of steel changing America forever      *The Transcontinental Railroad* Michael Rajczak,1900-01-01 The transcontinental railroad didn't really cross North America In fact the famed rail building that took place in the 1860s only completed the stretch from Nebraska to California Readers will learn many new facts about the transcontinental railroad to augment what they learn in the social studies classroom Historical images drive home the reality of a 12 hour workday poor treatment of Chinese immigrant workers and the dangerous tunneling through the Sierra Nevada Fact boxes will further fascinate readers with one of the greatest industrial marvels of US history      **The Transcontinental Railroad: The Big Race to the Golden Spike!** Carole Marsh,2011-03-01 The 22 book American Milestone series is featured as Retailers Recommended Fabulous Products in the August 2012 edition of Educational Dealer magazine It was a daunting task but a necessary one to build a railroad across the United States to unite East and West From 1863 to 1869 thousands of workers braved blizzards flash floods dangerous dynamite blasts buffalo stampedes and occasional Indian attacks as they labored across America's plains prairie mountains and desert This book includes Reasons for the Railroad Follow the Wagon Trail The Central Pacific The Union Pacific The Golden Spike Toil and Trouble Chinese Laborers New Cities New Industries Hands on Activities Reproducible Activities Glossary Fascinating Facts Timeline And Lots More The story of the Transcontinental Railroad the Golden Spike and the Westward to Promontory adventure gives students a compelling look at what it takes to make change to make progress and to do so in spite of all types of obstacles most of them seemingly insurmountable but which never stop those who dare to dream and do Grab your hammer and ride the rails in this fun factual and can't believe they did that book      **Ten Mile Day** Mary Ann Fraser,2016-08-02 On May 10 1869 the final spike in North America's first transcontinental railroad was driven home at Promontory Summit Utah Illustrated with the author's carefully researched evocative paintings here is a great adventure story in the history of the American West the day Charles Crocker staked 10 000 on the crew's ability to lay a world record ten miles of track in a single Ten Mile Day      **The Building of the Transcontinental Railroad** ,1989      *Building the Transcontinental Railroad* Joeming W.
