

Class I Railroads of North America

A map of North America showing the extensive rail network of Class I railroads. The map covers the United States, southern Canada, and northern Mexico. Major rail lines are color-coded to represent different railroad systems. The network is most dense in the eastern half of the United States, particularly around the Great Lakes and the Northeast, and extends across the western United States and into Canada. The Great Lakes are shown in blue, and the surrounding land is in a light tan color.
