Mystery in the Amazon Rainforest C. Marsh, 2007-04-01

Islands of Rainforest Edvard Hviding, Tim Bayliss-Smith, 2018-05-08 This title was first published in 2000 An original and thought provoking analysis of modern initiatives in the tropical rain forest While issues such as logging eco timber eco tourism have been widely analyzed from an outsider's perspective this book considers them from the local people's viewpoint in terms of a long history of the rainforest uses The authors demonstrate that the relationship of indigenous people to the tropical forest is not essentially timeless nor is it primarily spiritual or mystical It is in fact firmly connected to modern realities while still being rooted in historical beliefs and practices Standing at the intersection of anthropology historical geography and rainforest ecology and also at the interface of the local and the global this ethnographically grounded study dispels a number of commonly held assumptions It reveals how processes of impact are actually two way interactions as local communities in Melanesia incorporate industries like logging into rapidly evolving post colonial society and economy

Rainforest Strategy

Michael Pink, 2012-10-08 Locked away in the world's rainforests are the most productive and fruitful ecosystems in the world. How they transform scarcity into abundance is what every entrepreneur and businessperson needs to know. Whether you are just starting your business or reevaluating your current business goals, this book brings unique insights and direction from the rainforest's secrets of productivity that will revolutionize your thinking. These secrets include the steps to: 1. Get a clearer vision for your business; 2. Increasing your productivity; 3. Transform your great ideas into realities; 4. Tap into the ultimate model for efficiency; 5. Discover how to use your innovations for success; 6. Understand the importance of interdependent relationships; 7. Learn 7 indispensable secrets for marketing. By taking a look at the rainforest with business eyes and an open mind, in this book we discover that creation has been indelibly stamped with the wisdom of the Creator. It contains transcending business principles that can take any enterprise from good to great. *450 More Story Stretchers for the Primary Grades* Shirley C. Raines, 1994 Activities to expand children's favorite books Primary grades *High-Interest Mini Mysteries (RL 2-3)*, Human Activities and the Tropical Rainforest Bernard K. Maloney, 1998 Arising initially from a conference, the papers published here have been integrated into book form to provide information on human activities and the tropical rainforest in the past and present and on the possible future of the rainforest in a unique way. Other books have considered some but not all of these themes; however, none has stressed the continuity of change over time and its possible outcome for the people of the forest as well as for the forest itself. Because of the approach taken, this book should appeal across traditional disciplinary boundaries. Indeed, a prime aim has been to suggest that rainforest, because of its complexity and the complexity of people-rainforest relationships throughout time, deserves study from a broad perspective. This book poses more questions than answers about the rainforest and it is hoped that it will encourage readers to think about the rainforest in a wider way than hitherto. This book is aimed at geographers, physical and human social anthropologists, archaeologists, pedologists, foresters, and tropical botanists and will be of value to graduates of various disciplines setting out to research the rainforest. **Proceedings of the National Association for Multicultural Education** Carl A. Grant, 2012-12-06 The National Association for Multicultural Education (NAME) held its 7th Annual Conference in 1997 with a theme of Daring to Educate for Equity and Excellence: A Multicultural and Bilingual Mandate for the 21st Century. The conference generated scholarship in the form of keynote speeches and conference papers and stimulating discussions among the membership. The conference's southwest location of Albuquerque, New Mexico, provided an excellent backdrop to discuss the interconnections between multicultural education and bilingual education as well as provide an opportunity for proponents of both of these important ideas to engage in useful and important discussions. The essays comprised in this book capture much of the written record of the conference. They convey ideas, beliefs, and research findings that were presented at the formal sessions at the conference. Just as with NAME's previous proceedings, it is expected that these proceedings will become not only a written record of the conference but a live curriculum to help pre-K through college educators to prepare

themselves and those they teach for the 21st century
