**A HISTORY OF ANCIENT CHINESE MUSIC AND DANCE** Wang Ningning, 2019-11-04 A History of Ancient Chinese Music and Dance describes the history of music and dance in ancient China in the past five thousand years in the forms of poems, music, and dance. It includes court music and dance, music and dance in drama, and folk music and dance. It covers historical and professional knowledge such as music, dance, poetry, and drama. The book consists of eleven chapters from ancient times to the Ming Dynasty and the Qing Dynasty. In each chapter, there is historical background, music, and dance works, people, events, and related poetry and images. The Yellow Emperor created tonality for wind instruments. Emperor Yao and Emperor Shun invented musical instruments, qin and se. Duke of Zhou made system of rites and music. Apart from these, music, dance, and acrobatics in the Qin Dynasty and the Han Dynasty, grand compositions in the Tang Dynasty and the Song Dynasty, and music and dance in drama in the Ming Dynasty and the Qing Dynasty can all lead us to the long developing process of ancient music and dance. The book was the Project of 2003 National Tenth Five Year Plan for Art Science in China. It was co-funded by the National Publishing Fund and China Classics International of the General Administration of Press and Publication.

**Images of Crisis (Routledge Revivals)** George P. Landow, 2014-08-01 First published in 1982, Images of Crisis explores the premise that literature and art exploit various images to present culturally prevalent ideas and thus create their own form of iconology. George Landow shows how the tumultuous history of the past two hundred years has resulted in a plethora of metaphors associated with moments of human crisis. Avalanches and volcanoes emerge as focal images in an aesthetic that concerns itself increasingly with the vulnerability of humanity. However, it is in the transformation of traditional religious images that the ideas of the vacant universe are most dramatically presented. Associated with this central idea are ironic transformations of other images that formerly had been associated with Christianity as paradigms of belief: the journey of Odysseus, the rainbow of the Covenant, and Robinson Crusoe. Combining close textual analysis with a theory of literary iconology, this fascinating reissue will be of particular value to students with an interest in literary images and literary and cultural history.
