These letters give the account of Rilke's own state of mind and of his final approach to the threshold of his great works. They show the rapid change he underwent after his reaction to the first excitement of the war, how his dismay at the cruelty and confusion of war helped to render the poet in him speechless for many years, how he nevertheless characteristically held to his own fundamental views throughout war and revolution and in spite of everything retained his belief in the capacity of humanity to create for itself a better future.

Rilke's Sonnets to Orpheus Hannah Vandegrift Eldridge, Luke Fischer, 2019. Written in three weeks of creative inspiration, Rainer Maria Rilke's *Sonnets to Orpheus* (1923) is well known for its enigmatic power and lyrical intensity. The essays in this volume forge a new path in illuminating the philosophical significance of this late masterpiece. Contributions illustrate the unique character and importance of the *Sonnets*, their philosophical import, as well as their significant connections to the *Duino Elegies* completed in the same period. The volume features eight essays by philosophers, literary critics, and Rilke scholars which approach a number of the central themes and motifs of the *Sonnets*, as well as the significance of their formal and technical qualities. An introductory essay co-authored by the editors situates the book in the context of philosophical poetics, the reception of Rilke as a philosophical poet, and the place of the *Sonnets* in Rilke's oeuvre. Above all, this volume's premise is that an interdisciplinary approach to poetry, and more specifically to Rilke's *Sonnets*, can facilitate crucial insights with the potential to expand the horizons of philosophy and criticism. Essays elucidate the relevance of the *Sonnets* to such wide-ranging topics as phenomenology and existentialism, hermeneutics, and philosophy of language, philosophy of mythology, metaphysics.
