Choosing Buddhism Mauro Peressini, 2016-04-07 This book explores the experience of Canadians who chose to convert to Buddhism and to embrace its teachings and practices in their daily lives It presents the life stories of eight Canadians who first encountered Buddhism between the late 1960s and the 1980s and are now ordained or lay Buddhist teachers In recent census records over 300 000 Canadians identified their religious affiliation as Buddhist The great majority are of Asian origin and were born into Buddhist families or were Buddhist at the time of their arrival in Canada Since the late 1960s however the number of Canadians converting to Buddhism has doubled every decade and this demographic now includes more than 20 000 individuals The eight Canadians whose life stories are featured in this book are among the very first to have chosen Buddhism Their first hand accounts shed light on why and how people convert to a religion from such distant shores This book also offers contextual material photos and texts that complements the eight life stories This material is meant to help readers enrich their understanding of the life stories by offering them the information they need to better grasp the meaning of the Buddhist notions mentioned and the broader historical and spiritual contexts of the biographical accounts While this book will be of interest to specialists because of the first hand accounts it is

primarily aimed at a wider audience interested in Buddhism religions or spirituality in general It will also be of use to teachers whose courses touch upon any of these subjects By combining life stories and contextual material and placing an emphasis on the concrete experiences of Canadians with whom readers can identify this book is an introduction to Buddhism and to what it means to lead a Buddhist life in contemporary Canada Published in English *Foylibra* ,1953 Issues for Feb 1933 include the monthly book circle bulletin formerly the Book of the month bulletin The same material issued also by James Thin or Henry Sotheran ltd as Books of the month with which is incorporated The Book index monthly but omitting the monthly book circle bulletin Encyclopedia of New Religious Movements Peter Clarke,2004-03-01 New Religious Movements NRMs can involve vast numbers of followers and in many cases are radically changing the way people understand and practice religion and spirituality Moreover many are having a profound impact on the form and content of mainstream religion The Encyclopedia of New Religious Movements provides uniquely global coverage of the phenomenon with entries on over three hundred movement from almost every country in the world Coverage includes movements that derive from the major religions of the world and to neo traditional movements movements often overlooked in the study of NRMs In addition to the coverage of particular movements there are also entries on topics themes key thinkers and key ideas for example the New Age Movement Neo Paganism New Religion and gender NRMs and cyberspace NRMs and the law the Anti Cult Movement Swedenborg Jung Teilhard de Chardin Lovelock Gurdjieff al Banna Qutb The marked global approach and comprehensiveness of the encyclopedia enable an appreciation of the innovative energy of NRMs of their extraordinary diversity and the often surprising ways in which they can propagate geographically The most ambitious publication of its sort the Encyclopedia of New Religious Movements is a major addition to the reference literature for students and researchers of the field in religious studies and the social sciences Entries are cross referenced with short bibliographies for further reading There is a full index Self Analysis L.
